Dear Harbor Board Members,

Really? After coming in and making the improvements on the restaurant, the new owners of this wonderfully improved restaurant are thrown out of business for a mere delay in rent? Please don't tell me that your board is so fiscally responsible that you could not have reached a temporary settlement as it was requested by the owners. Good responsible business practices INCLUDE taking into account extenuating circumstances. Cold-hearted governance is not what we, the long time residence want running our community. My feelings are shared by thousands of coastside residents. You were elected to do the 'right thing' during your time in office . Please rescind your decision and let's get back to working with our fellow business people.
