Dear Board of Harbor Commissioners,

Double congratulations are in order. Thank you for completing the Surfers Beach Restoration Pilot Project. It has had so many positive impacts on our community. I encourage you to continue with the dredging to maintain the quality of our beaches, access to waterways, and to protect Highway 1. You made the right decision for the location of the Pillar Point Surfers Beach Parking Project! I appreciate your response to the community input and reconsidering the Burnham Strip location for additional parking. Option 4, located between Parking Lot C-3 and Sam's restaurant, is the best option.

Well done,

Matt Allen
