Statement of Policy

The Harbor District designed its Code of Ethics and Values (the “Code”), to provide clear, positive statements of ethical behavior reflecting the core values of the District and the communities it serves. Policy Title: Records Management and Retention	Number: 2.1.4	Date of Approval: 9/15/2021
Other Revisions: 7/17/96; 10/18/17	Prepared By: Julie van Hoff	

A. Purpose

The purpose of this policy is to: provide guidelines to staff regarding the retention or disposal of District records; provide for the identification, maintenance, safeguarding and disposal of records in the normal course of business; and ensure compliance with legal and regulatory requirements.

Vital and important records, regardless of recording media, are those having legal, financial, operational, or historical value to the District.

The General Manager is authorized by the Board of Harbor Commissioners to interpret and implement this policy, and to cause to be destroyed any or all such records, papers and documents that meet the qualifications governing the retention and disposal of records, specified below.

B. Requirements for Destruction of Records

The District adopted this Records Management and Retention Policy by Resolution 21-11. This Policy includes record retention schedules that comply with guidelines provided by the Secretary of State pursuant to Government Code Section 12236 ([records-management-8.pdf \(ca.gov\)](#)) and other state and federal laws and regulations. All District records are classified by category and this policy establishes a standard protocol for destruction or disposition of records.

Pursuant to Government Code Section 60201(b)(1), the District adopted Resolution 21-12 finding that destruction or disposition of any record that is not expressly required by law and/or by this policy to be filed and preserved will not adversely affect any interest of the District or of the public.

The District will prepare a comprehensive records inventory and include a record type, the media (e.g. electronic, paper file or both) used to store the record, years covered by each record, if the record should be active (readily available) or inactive (warehoused), and volume (cubic feet of space).

The District will maintain a list, by category, of the types of records destroyed or disposed of that reasonably identifies the information contained in the records of each category.

Records may be disclosed in compliance with applicable law and District policies without the consent of Commissioners.
- b) Deleting a Record from an Electronic Device does not necessarily mean the Record cannot be retrieved from the District's computer system. The District may backup copies of all Records.

Policy Title: Brown Act Compliance Public Meeting	Number: 3.2	Date of Approval: 12/20/2023
Other Revisions 1/18/2023 (Resolution 23-02) 12/20/2017 (Resolution 17-21)	Prepared By: Rachelle Modena Assistant Director of Administrative Services	Legal Review Trisha Ortiz RWG

STATEMENT OF POLICY: The District is committed to transparency and encouraging public participation in all activities the District performs. To that end the District is dedicated to ensuring compliance with the Brown Act (California Government Code Section 54950 et seq). This Policy is intended to reflect existing law. Nothing in this Policy is intended to contradict any other District policy. Without limiting the requirement for compliance with the Act and all other District policies, the following are general principles by which the District will conduct its meetings:

Public Meetings

All members of the public are invited and encouraged to attend all open meetings of a District legislative body subject to the Brown Act (Board or Standing Committee). Every Public Meeting will provide an opportunity for members of the public to address the legislative body on any item under the legislative body’s jurisdiction. In addition, the public will have the opportunity to comment before or during the legislative body’s consideration of any item on the Meeting’s agenda. The public may make comments in-person at any Public Meeting or submit written comments in advance of the meeting. Written comments provided in person or via email to the Deputy Secretary or General Manager, at least two hours before a public meeting, will be provided to each Commissioner and posted with the agenda. The agenda contains detailed information on how to submit written comments in advance of the meeting.

- a. Regular Meetings of the Board of Commissioners shall be held on the third Wednesday of each calendar month, at 504 Avenue Alhambra, El Granada, CA 94018.
- b. Special Meetings of the Board may be called by the Board President or by a majority of the Board.
- c. Emergency Meetings. In the event of an emergency situation involving matters upon which prompt action is necessary due to the disruption or threatened disruption of public facilities, the Board may hold an Emergency Special Meeting without complying with the 24-hour notice. An emergency situation means both: (1) “an emergency”, which is a work stoppage, crippling activity, or other activity that severely impairs public health, safety, or both, as determined by a majority of the Harbor Board; and (2) “a dire emergency”, which is a crippling disaster, mass destruction, terrorist act, or threatened terrorist activity that poses peril so immediate and significant that requiring a legislative body to provide one-hour notice before holding an emergency meeting may endanger

the public health, safety, or both, as determined by a majority of the members of the legislative body.

- d. Standing Committee Meetings. Standing Committees Meetings (comprising two Commissioners), are subject to the notice and open meeting provisions of the Brown Act.

Broadcasting Meetings: Each meeting subject to the Brown Act and conducted in the Harbor District Board Room at 504 Avenue Alhambra will be broadcasted in real time through an online platform. Information about how to view or hear a broadcast will be posted on each agenda.

Live broadcasting is being provided as a convenience to the public and to improve public awareness and outreach. If the District is unable to provide a broadcast due to technological difficulties or other issues, the meeting will continue in person.

No public comments will be accepted through the online or teleconferencing platform.

Recordings: Each meeting subject to the Brown Act and conducted in the Harbor District Board Room at 504 Avenue Alhambra, will be recorded and posted online at www.smharbor.com. The recording will be maintained in accordance with the District Records Retention Policy.

Meetings conducted outside of the Harbor District Board Room will not be recorded or broadcast.

Agenda:

At least 72 hours prior to the time of all Regular and Standing Committee Meetings, an agenda, which includes but is not limited to all matters on which there may be discussion and/or action by the Board, shall be posted in a place that is freely accessible to members of the public (California Government Code 54954.2 (a)(1)). The agenda shall be posted on the District website at the same time.

The agenda for a Special Meeting shall be posted at least 24 hours before the meeting in the same location as for Regular Meeting agendas (California Government Code Section 54956).

San Mateo County Harbor District

Policy Title: Legislative Advocacy	Number: 3.4	Date of Approval: 03/28/19
Other Revisions: N/A	Prepared By: Julie van Hoff	

1. Purpose

The purpose of the policy is to guide San Mateo County Harbor District (District) officials and staff in considering legislative or regulatory proposals that are likely to have an impact on the District, and to allow for a timely response to important legislative issues. Although the expenditure of public funds for the purpose of supporting or opposing a ballot measure or candidate is prohibited, the expenditure of public funds is allowed to advocate for or against proposed legislation or regulatory actions which will affect the public agency expending the funds.

The purpose for identifying Legislative Advocacy Policy is to provide clear direction to District staff with regard to monitoring and acting upon bills during state and federal legislative sessions. Adherence to Legislative Advocacy Policy will ensure that legislative inquiries and responses will be administered consistently with “one voice” as to the identified Advocacy Priorities adopted by the Board of Commissioners. The Legislative Advocacy Policy and Advocacy Priorities will provide the District General Manager, or other designee, discretion to advocate in the District’s best interests in a manner consistent with the goals and priorities adopted by the Board of Commissioners. This policy is intended to be manageable, consistent, and tailored to the specific needs and culture of the District.

2. Policy Goals

- A. Advocate for the District’s legislative interests at the State, County, and Federal levels.
- B. Inform and provide information to the Board of Commissioners and District staff on the legislative process and key issues and legislation that could have a potential impact on the District.
- C. Serve as an active participant with other local governments, the California Special Districts Association, and local government associations on legislative and regulatory issues that are important to the District and the region.
- D. Seek grant and funding assistance for District projects, services, and programs to enhance services for the community.

3. Policy Principles

- A. The Board of Commissioners recognizes the need to protect District interests and local control, and to identify various avenues to implement its strategic and long-term goals. It is the policy of District to proactively monitor and advocate for legislation as directed by the Advocacy Priorities and by the specific direction of the Board of Commissioners.
- B. This policy provides the District General Manager, or other designee, the flexibility to adopt positions on legislation in a timely manner, while allowing the Board of Commissioners to set Advocacy Priorities to provide policy guidance. The Board of Commissioners shall establish various Advocacy Priorities and, so long as the position fits within the Advocacy Priorities, staff is authorized to take a position without board approval.
- C. Whenever an applicable Advocacy Priority does not exist pertaining to legislation affecting the District, the matter shall be brought before the Board of Commissioners at a regularly scheduled board meeting for formal direction from the Board of Commissioners. The Board of Commissioners may choose to establish a standing committee of two Commissioners, known as the “Legislative Advocacy Committee”, with the authority to adopt a position when consideration by the full Board of Commissioners is not feasible within the time-constraints of the legislative process.
- D. Generally, the District will not address matters that are not pertinent to the District’s local government services, such as social issues or international relations issues.

4. Legislative Advocacy Priorities

- A. It is the policy of District to proactively monitor and advocate for legislation as directed by the Advocacy Priorities and by the specific direction of the Board of Commissioners. This process involves interaction with local, state, and federal government entities both in regard to specific items of legislation and to promote positive intergovernmental relationships. Accordingly, involvement and participation in regional, state, and national organizations is encouraged and supported by the District.
- B. Monitoring legislation is a shared function of the Board of Commissioners and General Manager or designated staff. The Legislative Advocacy Procedures are the process by which staff will track and respond to legislative issues in a timely and consistent manner. The General Manager, or other designee, will act on legislation utilizing the following procedures:
 - 1. The General Manager or other designee shall review requests that the District take a position on legislative issues to determine if the legislation aligns with the District’s current approved Advocacy Priorities.

2. The General Manager or other designee will conduct a review of positions and analysis completed by the California Special Districts Association and other local government associations when formulating positions.
3. If the matter aligns with the approved priorities, District response shall be supplied in the form of a letter to the legislative body reviewing the bill or measure. Advocacy methods utilized on behalf of the District, including but not limited to letters, phone calls, emails, and prepared forms, will be communicated through the General Manager or designee. The General Manager or designee shall advise staff to administer the form of advocacy, typically via letters signed by the General Manager, or designee, on behalf of the Board of Commissioners.
4. All draft legislative position letters initiated by the General Manager or designee shall state whether the District is requesting “support”, “support if amended”, “oppose”, or “oppose unless amended” action on the issue, and shall include adequate justification for the recommended action. If possible, the letter should include examples of how a bill would specifically affect the District, e.g. “the funding the District will lose due to this bill could pay for X capital improvements.”
 - a. Support – legislation in this area advances the District’s goals and priorities.
 - b. Oppose – legislation in this area could potentially harm, negatively impact or undo positive momentum for the District, or does not advance the District’s goals and priorities.
5. The General Manager may also provide a letter of concern or interest regarding a legislative issue without taking a formal position on a piece of legislation. Letters of concern or interest are to be administered through the General Manager or designee.
6. When a letter is sent to a state or federal legislative body, the appropriate federal or state legislators representing the District shall be included as a copy or “cc” on the letter. The appropriate contacts at the California Special Districts Association and other local government associations, if applicable, shall be included as a cc on legislative letters.
7. A position may be adopted by the General Manager or designee if any of the following criteria is met:
 - a. The position is consistent with the adopted Advocacy Priorities;
 - b. The position is consistent with that of organizations to which the District is a member, such as the California Special Districts Association; or

- c. The position is approved by the Board of Commissioners or the Legislative Advocacy Committee.
8. All legislative positions adopted via a process outside of a regularly scheduled Board Meeting shall be communicated to the Board of Commissioners at the next regularly scheduled Board Meeting. When appropriate, the General Manager or other designee will submit a report (either written or verbal) summarizing activity on legislative measures to the Board of Commissioners.

5. Advocacy Priorities

A. Revenue, Finances, and Taxation

Ensure adequate funding for special districts' safe and reliable core local service delivery. Protect special districts' resources from the shift or diversion of revenues without the consent of the affected districts. Promote the financial independence of special districts and afford them access to revenue opportunities equal to that of other types of local agencies. Protect and preserve special districts' property tax allocations and local flexibility with revenue and diversify local revenue sources.

Support opportunities that allow the district to compete for its fair share of regional, state, and federal funding, and that maintain funding streams. Opportunities may include competitive grant and funding programs.

Opportunities may also include dedicated funding streams at the regional, state, or federal levels that allow the district to maximize local revenues, offset and leverage capital expenditures, and maintain district goals and standards.

B. Governance and Accountability

Enhance special districts' ability to govern as independent, local government bodies in an open and accessible manner. Encourage best practices that avoid burdensome, costly, redundant or one-size-fits-all approaches.

Protect meaningful public participation in local agency formations, dissolutions, and reorganizations, and ensure local services meet the unique needs, priorities, and preferences of each community.

Oppose additional public meeting and records requirements that unnecessarily increase the burden on public resources without effectively fostering public engagement and enhancing accountability of government agencies.

Promote local-level solutions, decision-making, and management concerning service delivery and governance structures while upholding

voter control and maintaining LAFCO authority over local government jurisdictional reorganizations and/or consolidations.

C. Human Resources and Personnel

Promote policies related to hiring, management, and benefits and retirement that afford flexibility, contain costs, and enhance the ability to recruit and retain highly qualified, career-minded employees to public service. As public agency employers, support policies that foster productive relationships between management and employees.

Maintain special districts' ability to exercise local flexibility by minimizing state mandated contract requirements. Oppose any measure that would hinder the ability of special districts to maximize local resources and efficiencies through the use of contracted services.

D. Infrastructure, Innovation, and Investment

Encourage prudent planning for investment and maintenance of innovative long-term infrastructure. Support the contracting flexibility and fiscal tools and incentives needed to help special districts meet California's changing demands. Promote the efficient, effective, and sustainable delivery of core local services.

Prevent restrictive one-size-fits-all public works requirements that increase costs to taxpayers and reduce local flexibility.

San Mateo County Harbor District

Policy Title: Code of Conduct for Elected and Appointed Officials	Number: 3.5	Date of Approval: 05/20/20
Other Revisions:	Prepared by: SMCHD Human Relations Standing Committee	

Guiding Principles

Respect for the community that we serve.

Respect for the democratic process.

Respect for one another as individuals.

Respect for the validity of different opinions.

1. Introduction:

- A. The Board of Harbor Commissioners adopts this Code of Conduct to assure that all elected and appointed officials, while exercising their office, conduct themselves in a manner that will instill public confidence and trust in the fair operation and integrity of the San Mateo County Harbor District.
- B. This Code Conduct is designed to describe the manner in which Board Members should treat one another, District staff, constituents, and others they come into contact with in representing the San Mateo County Harbor District. As elected representatives of the citizens of San Mateo County, it is essential that each Commissioner's behavior be consistent with the level of responsibilities and duties of governance entrusted to them by the people of San Mateo County.
- C. The constant and consistent theme throughout of the Code of Conduct is "respect." Commissioners can experience tremendous stress in making decisions that could impact thousands of lives. Despite these pressures, elected officials are called upon to exhibit appropriate behavior at all times. Demonstrating respect for each individual through words and actions is the touchstone that can help guide Commissioners to do the right thing in even the most difficult situations.

2. Relation to Policy 1.1.1: San Mateo County Harbor District Ethics and Values:

This policy is intended to be complementary to Policy 1.1.1. The San Mateo County Harbor District Ethics and Values Policy is applicable to all District staff and Commissioners, while this policy (Policy 3.5) builds upon Policy 1.1.1. and is only applicable to Commissioners and appointed officials.

3. Fair and Equal Treatment: Board members, in the performance of their official duties and responsibilities, will not discriminate against or harass any person on the

Policy 3.5 - Code of Conduct for Elected and Appointed Officials

basis of race, religion, color, creed, age, marital status, national origin, ancestry, gender, sexual orientation, medical condition or disability. A Board member will not grant any special consideration, treatment or advantage to any person or group beyond that which is available to every other person or group in similar circumstances. (See, e.g., Article 1, Section 31 of the California Constitution; Age Discrimination in Employment Act of 1967 (29 U.S.C., Section 621-634); Americans with Disabilities Act of 1990 (42 U.S.C., Section 12101 et. Seq.); Fair Employment and Housing Act (Government Code, Section 12900 et. Seq.); Rehabilitation Act of 1973 (29 U.S.C., Section 701 et. Seq.); Title VII of the Civil Rights Act of 1964 (42 U.S.C., Section 2000c et. Seq.); Labor Code Section 1102.)

4. **General Policy:**

- A. The citizens of San Mateo County are entitled to have fair, ethical and accountable local government. To this end, the public should have full confidence that their elected and appointed officials:
1. comply with both the letter and spirit of the laws and policies affecting the operations of government;
 2. are independent, impartial and fair in their judgment and actions;
 3. use their public office for the public good, not for personal gain; and
 4. conduct public deliberations and processes openly, unless required by law to be confidential, in an atmosphere of respect.
- B. Therefore, Members of the Board of Harbor Commissioners and all Committees shall conduct themselves in accordance with the following ethical standards:
1. Use of Formal Titles: The Board should refer to one another formally during Board meetings such as President, Vice President, Commissioner followed by the individual's last name.
 2. Honor the Role of the Presiding Officer in Maintaining Order and Equity: It is the responsibility of the President of the Board as Chair, or the Commissioner acting in that capacity, to keep the comments of Board Members on track during public meetings. Board Members should honor efforts by the President of the Board to focus discussion on current agenda items. If there is disagreement about the agenda or the President's actions, those objections should be voiced politely and with reason, following procedures outlined in parliamentary procedure.
 3. Practice Respect and Decorum in Discussions and Debate: Difficult questions, tough challenges to a particular point of view, and criticism of ideas and information are legitimate elements of free democracy in action. Free debate does not require nor justify, however, public officials to make

Policy 3.5 - Code of Conduct for Elected and Appointed Officials

belligerent, personal, impertinent, slanderous, threatening, abusive, or disparaging comments. During public discussions, Board Members should be respectful of others and diverse opinions, and allow for the debate of issues.

4. Act in the Public Interest. Recognizing that stewardship of the public interest must be their primary concern, members will work for the common good of the people of San Mateo County and users of District facilities and not for any private or personal interest, and they will assure fair and equal treatment of all persons, claims and transactions coming before them.
5. Comply with both the Spirit and the Letter of the Law and District Policy. Board Members shall comply with the laws of the nation, the State of California and the San Mateo County Harbor District Code of Ordinances, Resolutions, and Policies in the performance of their public duties.
6. Conduct of Board Members. The professional and personal conduct of Board Members while exercising their office must be above reproach and avoid even the appearance of impropriety. Board Members shall refrain from abusive conduct, personal charges or verbal attacks upon the character or motives of other members of Board, the staff or public.
7. Conduct at Public Meetings. Board Members shall prepare themselves for public issues; listen courteously and attentively to all public discussions before the body; and focus on the business at hand. They shall refrain from interrupting other speakers; making personal comments not germane to the business of the Board/Committee; or otherwise interfering with the orderly conduct of meetings.
8. Decisions Based on Merit. Board Members shall base their decisions on the merits and substance of the matter at hand, rather than on unrelated considerations.
9. Conflict of Interest. In order to assure their independence and impartiality on behalf of the common good and compliance with conflict of interest laws, members shall use their best efforts to refrain from creating an appearance of impropriety in their actions and decisions. Members shall not use their official positions to influence government decisions in which they have:
 - a. a material financial interest,
 - b. an organizational responsibility or personal relationship which may give the appearance of a conflict of interest, or
 - c. a strong personal bias.

A Board Member who has a potential conflict of interest regarding a particular decision shall disclose the matter to the General Counsel and reasonably cooperate with the General Counsel to analyze the potential conflict. If advised by the General Counsel to seek advice from the Fair Political

Policy 3.5 - Code of Conduct for Elected and Appointed Officials

Practices Commission (FPPC) or other appropriate state agency, a member shall not participate in a decision unless and until he or she has requested and received advice allowing the member to participate. A member shall diligently pursue obtaining such advice. The member shall provide the President of the Board and General Counsel a copy of any written request or advice and conform his or her participation to the advice given. In providing assistance to Board Members, the General Counsel represents the District and not individual members.

In accordance with the law, Board Members shall disclose investments, interests in real property, sources of income, and gifts; and if they have a conflict of interest regarding a particular decision, shall not, once the conflict is ascertained, participate in the decision and shall not discuss or comment on the matter in any way to any person including other members unless otherwise permitted by law.

10. Gifts and Favors. Board Members shall not take any special advantage of services or opportunities for personal gain, by virtue of their public office that is not available to the public in general. They shall refrain from accepting any gifts, favors or promises of future benefits which might compromise their independence of judgment or action or give the appearance of being compromised.
11. Confidential Information. Board Members must maintain the confidentiality of all written materials and verbal information provided to members which is confidential or privileged. Board Members shall neither disclose confidential information without proper legal authorization, nor use such information to advance their personal, financial or other private interests.
12. Use of Public Resources. Board Members shall not use public resources which are not available to the public in general (e.g., District staff time, equipment, supplies or facilities) for private gain or for personal purposes not otherwise authorized by law.
13. Representation of Private Interests. In keeping with their role as stewards of the public interest, members of the Board shall not appear on behalf of the private interests of third parties before the Board or a Committee of the District.
14. Advocacy. Board Members shall represent the official policies or positions of the Harbor District to the best of their ability when designated as delegates for this purpose. When presenting their individual opinions and positions, members shall explicitly state they do not represent the Board or Harbor District, nor will they allow the inference that they do. Board Members have the right to endorse candidates for all Harbor District Commission seats or other elected offices. It is inappropriate to mention or display endorsements during Board or Committee meetings, or other official District meetings.

Policy 3.5 - Code of Conduct for Elected and Appointed Officials

15. Independence of Committees. Because of the value of the independent advice of Committees to the public decision-making process, members of Board shall refrain from using their position to unduly influence the deliberations or outcomes of Committees for which they are not assigned.
 16. Positive Workplace Environment. Board Members shall support the maintenance of a positive and constructive workplace environment for District employees and for citizens and businesses dealing with the District. Board Members shall recognize their special role in dealings with District employees to in no way create the perception of inappropriate direction to staff.
 17. Demonstrate effective problem-solving approaches. Board Members have a public stage and have the responsibility to show how individuals with disparate points of view can find common ground and seek a compromise that benefits the District as a whole.
- C. Elected and Appointed Officials' Conduct with the Public in Public Meetings:
Making the public feel welcome is an important part of the democratic process. No signs of partiality, prejudice or disrespect should be evident on the part of individual members toward an individual participating in a public forum. Every effort should be made to be fair and impartial in listening to public testimony.
1. Be Welcoming to Speakers and Treat Them with Care and Gentleness. While questions of clarification may be asked, the official's primary role during public testimony is to listen.
 2. Be Fair and Equitable in Allocating Public Hearing Time to Individual Speakers. The President of the Board will determine and announce limits on speakers at the start of the public hearing process.
 3. Practice Active Listening. It is disconcerting to speakers to have members not look at them when they are speaking. It is fine to look down at documents or to make notes, but reading for a long period of time or gazing around the room gives the appearance of disinterest. Board Members shall try to be conscious of facial expressions, and avoid those that could be interpreted as "smirking," disbelief, anger or boredom.
 4. Maintain an Open Mind. Board Members of the public deserve an opportunity to influence the thinking of elected and appointed officials.
 5. Ask for Clarification, but Avoid Debate and Argument with the Public. Only the President of the Board – not individual Board Members – can interrupt a speaker during a presentation. However, a member can ask the President for a point of order if the speaker is off the topic or exhibiting behavior or language the member finds disturbing.

Policy 3.5 - Code of Conduct for Elected and Appointed Officials

D. Elected and Appointed Officials' Conduct with District Staff:

Governance of the Harbor District relies on the cooperative efforts its elected officials, who set policy, appointed officials who advise the elected, and District staff who implement and administer the Board's policies. Therefore, every effort should be made to be cooperative and show mutual respect for the contributions made by each individual for the good of the Harbor District.

1. Treat all Staff as Professionals. Clear, honest communication that respects the abilities, experience, and dignity of each individual is expected. Poor behavior towards staff is not acceptable.
2. Do Not Disrupt District Staff from their Jobs. Board Members should not disrupt District staff while they are in meetings, on the phone, or engrossed in performing their job functions in order to have their individual needs met. Do not attend District staff meetings unless requested by staff – even if the Board Member does not say anything, his or her presence implies support, shows partiality, may intimidate staff, and hampers staff's ability to do their job objectively.
3. Never Publicly Criticize an Individual Employee. Board Members should never express concerns about the performance of a District employee in public, to the employee directly, or to the employee's manager. Comments about staff performance should only be made to the General Manager through private correspondence or conversation.
4. Do Not get Involved in Administrative Functions. Elected and appointed officials acting in their individual capacity must not attempt to influence District staff on matters within the staff's jurisdiction and authority.
5. Do Not Solicit Political Support from Staff. Elected and appointed officials should not solicit any type of political support (financial contributions, display of posters or lawn signs, name on support list, etc.) from District staff. District staff may, as private citizens with constitutional rights, support political candidates but all such activities must be done away from the workplace.
6. No Attorney-Client Relationship. Board Members shall not seek to establish an attorney-client relationship with the General Counsel, including his or her staff and attorneys contracted to work on behalf of the District. The General Counsel represents the District and not individual members. Members who consult with the General Counsel cannot enjoy or establish an attorney-client relationship with the attorney.
7. Request for Staff Resources.
 - a. Board Member's requests for research or other staff work must be directed to the General Manager or General Counsel regarding legal matters.

Policy 3.5 - Code of Conduct for Elected and Appointed Officials

- b. If more than one hour of staff time will be required to complete a requested task or project, the item will be agenized to ask the Harbor Board if time should be spent on preparing a report on the proposed item.
- c. Staff responses prepared to Board inquiries shall be distributed to all Board Members.

5. **Enforcement:**

- A. **Acknowledgement of Code of Conduct.** Board Members who do not sign an acknowledgement that they have read and understand the Code of Conduct shall be ineligible for intergovernmental assignments or Council subcommittees.
- B. **Ethics Training for Local Officials.** Board Members who are out of compliance with State or District mandated requirements for ethics training shall not represent the District on intergovernmental assignments or District subcommittees, and may be subject to sanctions.
- C. **Behavior and Conduct.** The San Mateo Harbor District Code of Conduct expresses standards of ethical conduct expected for members of the Board of Harbor Commissioners and Committee members. Commissioners themselves have the primary responsibility to assure that ethical standards are understood and met, and that the public can continue to have full confidence in the integrity of government. The President of the Board and Chairs of Committees have the additional responsibility to intervene when actions of members that appear to be in violation of the Code of Conduct are brought to their attention.

6. **Required Ethics Training:**

- A. AB 1234 requires elected or appointed officials who are compensated for their service or reimbursed for their expenses to take two hours of training in ethics principles and laws every two years. The training must occur within two months of assuming office and be renewed within two months of the expiration of the current certificate.
- B. The training must cover general ethics principles relating to public service and ethics laws including:
 - 1. Laws relating to personal financial gain by public officials (including bribery and conflict of interest laws);
 - 2. Laws relating to office-holder perks, including gifts and travel restrictions, personal and political use of public resources, and prohibitions against gifts of public funds;
 - 3. Governmental transparency laws, including financial disclosure requirements and open government laws (the Brown Act and Public Records Act);

Policy 3.5 - Code of Conduct for Elected and Appointed Officials

4. Laws relating to fair processes, including fair contracting requirements, common law bias requirements, and due process.

7. Sanctions:

A. Disciplinary Action. Disciplinary action may be imposed by the Board of Harbor Commissioners upon Board Members who have violated the District Code of Conduct for Elected or Appointed Officials. Disciplinary action or sanctions are considered when a serious violation of District policy has occurred by a Board Member. In determining the type of sanction imposed, the following factors may be considered:

1. Nature of the violation,
2. Prior violations by the same individual, and
3. Other factors which bear upon the seriousness of the violation.

B. Types of Sanctions. At the discretion of the Board, sanctions may be imposed for violating the Code of Conduct or engaging in other misconduct. These actions may be applied individually or in combination. They include, but are not limited to:

1. **Public Admonishment.** A reproof or warning directed to a Board Member about a particular type of behavior that violates District policy.
2. **Revocation of Special Privileges.** A revocation of a Board Member's Committee assignments, including standing and ad hoc committees, regional boards and commissions, and community-generated board/committee appointments. Other revocations may include temporary suspension of official travel, conference participation, and ceremonial titles.
3. **Censure.** A formal statement or resolution by the Board of Harbor Commission officially reprimanding a Council Member.

C. Implementation:

1. The Code of Conduct is an expression of the standards of conduct for Board Members expected by the District. It is most effective when Board Members are thoroughly familiar with it and embrace its provisions.
2. All Board Member's shall sign a statement acknowledging they have read and understand the Code of Conduct. In addition, the Code of Conduct shall be periodically reviewed by the Board of Harbor Commissioner and updated it as necessary.

Other Revisions: 6/6/97, 4/10/11, 2/12/01	Prepared By: Julie van Hoff	

STATEMENT OF POLICY:

This Policy defines the District's Pay Period, Time Record Requirements and Pay Dates as required by California Labor Code Section 207.

A. LEGAL REFERENCES:

California Labor Code Section 207 states "Every employer shall keep posted conspicuously at the place of work, if practicable, or otherwise where it can be seen as employees come or go to their places of work, or at the office or nearest agency for payment kept by the employer, a notice specifying the regular pay days and the time and place of payment, in accordance with this article."

B. DEFINITIONS:

Unless otherwise expressly provided herein, words and terms used in this Policy shall have the same meaning as that ascribed to such words and terms in the Teamster's or Operating Engineers Memorandum of Understanding, as may be amended from time to time.

- 1) "Exempt Employees" shall mean and include all management employees who are not eligible for overtime pay and are paid on a salary basis.
- 2) "Full-Time, Regular Employees" shall mean non-exempt employees who work forty hours (40) per week, or eighty hours (80) per Pay Period.
- 3) "Leave Time" shall refer to any form of time off, whether paid or unpaid
- 4) "Non-Exempt Employees" shall mean and include all employees who are not defined as management employees. These employees are eligible for overtime pay.
- 5) "Pay Date" is on or before the Friday following the end of the Pay Period, but no later than seven calendar days from the end of the Pay Period.
- 6) "Pay Period" is a two-week span beginning Sunday and ending Saturday as identified in an Annual Payroll Schedule distributed by the Accounting

Policy 4.1.2: Pay Period, Time Records, Pay Date

Manager and posted at [SMCHD\File Share - Documents\District\Payroll Calendar](#).

C. DISTRICT'S PROCESS & STANDARDS

1) All Employees

Employees shall complete accurate Time Records. Time Records shall be submitted bi-weekly, at the end of each Pay Period but not later than midnight on Sunday after the pay period, using the electronic timekeeping system. By entering their time into the time keeping system, the employee certifies the accuracy of all time recorded for compensation. Failure to submit an accurate Time Record by the deadline may lead to disciplinary action.

Time records are reviewed and approved by the employee's manager. The Manager should approve time records no later than 1000 (10:00 a.m.) Monday morning, following the Pay Period ending date as published on the Annual Payroll Schedule. Managers should ensure the employees' time is accurate and the proper pay code is used.

When an employee uses Extended Illness Bank (EIB) leave, the employee must also submit a medical provider's note to Human Resources.

Unless otherwise agreed by the employee's manager or as outlined in the Teamster's or Operating Engineers Memorandum of Understanding, Paid Time Off, Floating Holidays, and Compensatory Time (COMP Time) should be entered into the time keeping system and/or any other process that the employee's manager deems necessary for scheduling purposes at least 14 days in advance. Requests to take leave time may be denied by the employee's manager to meet operational needs. Leave time requests may be submitted up to twelve months in advance to the employee's manager for approval.

An employee's manager may ask an employee to keep track of hours spent doing certain projects and/or activities. Instructions will be provided to the employee upon direction to track hours for such projects and/or activities.

2) Exempt Employees

Exempt Employees shall enter leave time taken (e.g. PTO, Holiday Float, EIB, Bereavement Leave, Jury Duty, etc.) into the time keeping system. The time keeping system pays the Exempt Employee their bi-weekly salary automatically and does not require input of hours worked.

3) Non-exempt Employees

It is the responsibility of every non-exempt (i.e. overtime eligible) employee to accurately record time worked. Federal and State laws require the District to keep

Policy 4.1.2: Pay Period, Time Records, Pay Date

an accurate record of time worked to calculate employee pay and benefits. Time worked is the time actually spent on the job performing assigned duties, and hours in standby status.

In accordance with Federal law, the District rounds time worked to the nearest one-quarter hour/fifteen minutes.

Employees shall enter all hours worked on their daily shift onto the date the shift started even if the scheduled shift results in hours flowing into the following day.

Overtime is defined in the Teamsters & Operating Engineers Memorandum of Understanding. The District shall include an explanation of overtime work into the time keeping system for reference.

Employees who are regular full-time employees should record a minimum of 40 hours per week or 80 hours per pay period, depending on the employee's agreed upon schedule. If an employee does not work the hours scheduled, they must use available leave hours (e.g. PTO, COMP, Holiday Float, EIB, etc.) to meet the minimum.

Any full-time, regular employee failing to complete and submit a time record, will be paid for 80 hours of work and adjustments to leaves balances will be made upon receipt of actual time records.

Any part-time employee failing to complete and submit a time record will be paid for estimated hours worked based on hours the District reasonably knows the employee to have worked during the pay period and the employee's prior pay periods. Once actual time records are received, adjustments will be made on the next pay period. In the event the District discovers it has overpaid an employee based on the actual time records received, the employee shall dutifully cooperate with the District to remit the amount overpaid to the District.

San Mateo County Harbor District

Policy Title: Voluntary Payroll Deductions	Number: 4.1.3	Date of Approval: 2/24/26
Other Revisions: 12/2/98	Prepared By: Julie van Hoff	

STATEMENT OF POLICY:

The purpose of this policy is to establish guidelines for administering voluntary payroll deductions in a consistent and accurate manner and in compliance with federal and California law and applicable Memorandums of Understanding (MOUs).

1. Scope

This policy applies to all District employees including permanent full-time, temporary, and part-time employees-and to Commissioners who elect to participate in voluntary payroll deduction programs permitted by law and approved by the District.

This policy does not apply to mandatory deductions required by statute (e.g., income taxes, CalPERS, Medicare). Health Benefit deductions and cash in lieu pay-outs are governed under District Policy 6.4.1.

2. Eligible Voluntary Deductions

The District may allow voluntary payroll deductions for the following types of programs subject to administrative feasibility and system compatibility:

A. Union Membership Dues and Fees (consistent with Government Code §3550):

- The District will honor written authorizations submitted by Operating Engineers and Teamsters Unions as required by California Government Code §1153.
- The District will rely on the union's certification regarding authorization status.
- This deduction is a flat fee and the amount is provided by the Union.

B. Deferred Compensation and Roth Contributions to 457 Plan
Voluntary pre-tax or Roth contributions to the District's 457 plan, subject to IRS limits and plan rules.

- An employee may choose to have deductions calculated as a percentage of their wages or a flat dollar amount.

C. Flexible Spending Account (submission of authorization for voluntary deduction available only during open enrollment, upon hire, or within 30 days of a qualifying event)

- An employee provides an annual flat dollar amount and the

District Accountant calculates a bi-weekly deduction.

3. Requirements

A. Authorization

All voluntary payroll deductions require a written request and consent from the employee. Employees must complete and sign the appropriate District form authorizing the District to deduct the stated amount from the employee's payroll deposits. Forms may be requested from the District's Human Resources Technician or Accountant.

B. Remittance

The District will remit amounts deducted from an employee's payroll deposit to the applicable voluntary deduction program on a bi-weekly basis.

If an employee's payroll deposit is insufficient to cover the voluntary deduction(s), the District is not responsible for advancing the unpaid amount.

Under IRS regulations (26 CFR § 1.125-3), employees have four options regarding their participation in a Flexible Spending Account (FSA) when they go out on unpaid leave of absence. The employee may: (1) revoke coverage; (2) pre-pay their contributions to the FSA through wage deductions in advance of their leave; (3) pay their FSA contribution to the District while on leave; or (4) repay or catch up on their unpaid FSA contributions through wage deductions upon their return from leave.

Under the fourth "catch up" option, the District and the employee may agree in advance that the FSA coverage will continue during the period of unpaid leave, and that the employee will not pay until the employee returns from leave. Where an employee is electing to use the catch-up option, the District and the employee must agree in advance of the coverage period to the terms under 26 CFR § 1.125-3(A-3)(a)(3)(i). When an employee fails to make required payments while on leave, the District is permitted to utilize the catch-up option to recoup the employee's share of payments when the employee returns from leave. If the District chooses to continue coverage under these circumstances, then the prior agreement of the employee is not required.

C. Deadlines and Changes

Requests to start, stop or modify a voluntary payroll deduction must be submitted in writing to the District's Accountant no later than the last day of the payroll cycle to be effective for the next pay date. Employees are responsible for submitting the appropriate form to start, stop or modify a voluntary deduction. The employee must contact their Union to change Union membership dues and fees.

D. Recordkeeping

The District will keep records of the employee's voluntary-deduction authorization forms and all information required by the federal Fair Labor Standards Act (FLSA) and its implementing regulations (29 CFR Part 516), in addition to any recordkeeping requirements under state law.

Policy Title: Travel and Reimbursement Policy for Employees	Number: 4.2.1	Date of Approval: August 20, 2025
Other Revisions: 06/21/2006; 09/13/2016	Prepared By: Julie van Hoff	

STATEMENT OF POLICY

It is the policy of the San Mateo County Harbor District ("District") to prescribe the manner in which District employees may be reimbursed for expenditures related to District business. This policy applies to all employees (not including Harbor Commissioners). Its provisions are intended to result in no personal gain or loss to an employee and to conform with the requirements of an Accountable Plan under IRS Publication 463, ensuring non-taxable reimbursements for business-related travel and reimbursements.

1. Definitions

- **Per Diem:** Daily allowance for meals and incidental expenses based on rates and location published by the [U.S. General Services Administration](#).
- **Travel:** Travel outside the home and/or workplace, longer than a normal workday, and requiring overnight rest, typically at least 50 miles from home or work (waivable by General Manager).

2. Approval Process for Travel/Conference/Training/POV Use

Prior approval for travel, conference, training and use of a POV for business purposes is required. Following is a summary of the approval process.

General Manager, Directors, Harbormasters or Site Managers, can pre-approve costs up to \$2,500 for a single item (e.g. hotel costs, conference cost) or \$5,000 for the total trip when using a District Purchasing Card (see 4.3.1 Purchasing & Procurement

Policy). Future changes to 4.3.1 Purchasing & Procurement Policy approval amounts will automatically be incorporated into this policy.

Costs above \$2,500 for a single item (e.g. hotel costs, conference cost) or \$5,000 for the total trip cannot be charged on a District Purchasing Card and will require a purchase order. The District Directors may pre-approve travel for costs up to \$10,000 and the General Manager may pre-approve travel costs for up to \$50,000. Anything above these limits requires the approval of the Board of Harbor Commissioners.

3. Process for Requesting Reimbursement

- Detailed explanation of the costs and business purpose;
- Receipts for all non-per diem expenses (e.g. hotels & airfares not charged on District Purchasing Card, parking fees and tolls);
- Mileage driven on the lesser of home-to-destination or worksite-to-destination distance;
- Daily per diem for Meals & Incidentals. Travel days will be paid at the “First and last day of travel rates” per the US GSA referenced below, which is 75% of per diem rate (as of the date of this policy adoption). Meals that are included in conference/training costs shall be deducted from the daily per diem rate. Meal per diem breakdowns are published at- <https://www.gsa.gov/travel/plan-a-trip/per-diem-rates/mie-breakdowns>

Approval Process

- Completed Reimbursement Forms must be submitted to the employee’s Manager for review and approval within 60 days of incurring the expense. If the reimbursement amount is less than \$5,000, the approved form should be sent to the Accounting Manager for final review and processing.

Once approved by the employee’s Manager, the department Director, and the General Manager, the form will be sent to the Accounting Manager for final review and processing.

General Manager claims above \$5,000 (Hotel, Travel, Per diem) must be submitted to the Accounting Manager and then the Board Treasurer for review. The Board of Harbor Commissioners reviews and approves General Manager reimbursement claims above

\$5,000. For claims under \$5,000, the Director of Administrative Services reviews and approves claims and then sends them to the Accounting Manager for processing.

San Mateo County Harbor District

Policy Title: Purchasing & Procurement Policy	Number: 4.3.1	Date of Approval: 6/21/23
Other Revisions: 7/17/96; 10/18/17	Prepared By: Julie van Hoff	

STATEMENT OF POLICY:

The San Mateo County Harbor District's procurement policy is in furtherance of the following goals and general principles:

- To promote the greatest economy and efficiency for the District,
- To provide safeguards to maintain a procurement policy of quality and integrity,
- To instill public confidence in the procurement process of the District and adherence to proper standards of conduct by all District personnel,
- To ensure fair and equitable treatment for all vendors who seek to deal with the District,
- To foster maximum open and free competition in the expenditure of public funds, and
- To maintain procurement policies and procedures to ensure compliance with applicable local, state, and federal laws and regulations.

All procurement transactions, regardless of whether negotiated or advertised and without regard to dollar value, must be conducted so as to provide maximum open and free competition. All purchases and contracts, whether by informal quotes, formal quotes, competitive bidding or requests for proposals, shall be made on a competitive basis to the greatest extent practicable. This assists in ensuring that the District is receiving the best value for the money and reduces the chances of corruption (e.g. kickbacks).

Positive efforts must be made by the District to utilize San Mateo County businesses and sources of supplies and services to the extent allowed by law and every effort must be made to allow such sources the maximum feasible opportunity to compete for contracts with the District.

The use of appropriate intergovernmental agreements is encouraged in order to reduce duplicative efforts and to achieve cost economies.

This policy includes provisions necessary to accept federal funding. Any expenditure that is made with federal funds must comply with the applicable provisions of the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. (See 2 CFR § 200).

Violations of this Policy could lead to disciplinary measures up to and including possible termination of employment.

GENERAL CODE OF CONDUCT:

A. Conflicts of Interest

No employee, officer, or agent of the District may participate in the selection, award, or administration of a contract where they have a real or apparent conflict of interest. Such a conflict of interest would arise when the employee, officer, or agent, has a financial interest in or would receive a direct or material benefit arising from a contract. District employees, officers or agents shall not be financially interested in any contract made by them in their official capacity, as such terms are defined in California Government Code Sections 1090 et seq. and 87100 et seq., and relevant case law.

Prohibited interests include interests of immediate family members, domestic partners, and their respective employers or prospective employers.

The officers, employees, and agents of the District may neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to sub-contracts, except when the District has established a standard to allow officers, employees and agents to accept unsolicited items of a nominal value.

The District strictly adheres to the laws and regulations of the Fair Political Practices Commission (FPPC) that apply to purchasing, all of which are available at <http://www.fppc.ca.gov/>. The following is to highlight the FPPC regulations regarding gifts for all personnel who may be engaged in the District's purchasing or procurement functions and who are also designated in the District's conflict of interest code and are required to disclose gifts.

\$590 Gift Limit. Gifts from any other single source may not exceed \$590 (2022-2023 limit) in a calendar year. For officials and employees who file statements of economic interests (Form 700) under the District's conflict of interest code ("designated employees"), this limit applies only if the official or employee would be required to report income or gifts from that source on the Form 700, as outlined in the "disclosure category" portion of the District's conflict of interest code.

Compliance with legal prohibitions on conflicts of interest, including the Political Reform Act and Government Code §1090, is required by all employees and District officials. It is a violation of State law for any employee or District official to be a party to, or have a financial interest in, any District contract made by them in their official capacity. See, Government Code Sections 1090, 1091 and 1091.5.

PROCUREMENT PROCEDURES:

A. Public Works/Construction

Formal competitive bidding as required by the California Public Contracts Code must be used for work or services which fall within the definition of the term "public works contract," which is an agreement for the erection, construction, alteration, repair, or improvement of any public structure, building, road, or other public improvement of any kind. As set forth in the Procurement Thresholds chart above, competitive bidding is required whenever the estimated expenditure for such work exceeds \$5,000 for repairs or whenever the estimated expenditure for such work exceeds \$10,000 for new construction, except as otherwise provided as set forth in Public Contract Code § 20723.

All bid documents and contracts for a public work must comply with all statutory requirements for public works bids and contracts. All bids for construction work must be presented under sealed cover and must be accompanied by one of the following forms of bidder's security: 1) cash, 2) a cashier's check made payable to

the District, 3) a certified check made payable to the District, 4) a bidder's bond executed by an admitted surety insurer, made payable to the District. The security of an unsuccessful bidder shall be returned in the manner set forth in Public Contracts Code Section 20724.

If the estimated expenditure for such work falls under the Informal Procurement thresholds as set forth in the Procurement Thresholds chart above, the District shall obtain at least one informal quote. (See further, Public Contract Code §20720 through 20724).

B. Architectural, Engineering and Other Services Pursuant to Government Code Section 4526 Over \$10,000.

The District shall use competitive Request for Proposal procedures for qualifications-based procurement of the professional services listed in Government Code Section 4526 (currently applicable to architectural, landscape architectural, engineering, environmental, land surveying, and construction project management services). Selection shall be based on demonstrated competence and on professional qualifications necessary for the satisfactory performance of the services required and at fair and reasonable prices to the District.

District staff shall ensure that as required by Public Contract Code Section 20103.6, the procurement of architectural design services requiring an expenditure in excess of ten thousand dollars (\$10,000), shall include in any request for proposals for those services, a disclosure of any contract provision that would require the contracting architect to indemnify and hold harmless the District against any and all liability, whether or not caused by the activity of the contracting architect. The District shall ensure that the disclosure statement is prominently set forth in bold type. In the event that the District fails to comply, the District shall (1) be precluded from requiring the selected architect to agree to any contract provision requiring the selected architect to indemnify or hold harmless the District against any and all liability not caused by the activity of the selected architect, (2) cease discussions with the selected architect and reopen the request for proposals or invitations to bid from a qualification list, or (3) mutually agree to an indemnity clause acceptable to both parties.

C. Architectural, Landscape Architectural, Engineering, Environmental, Land Surveying, and Construction Project Management Services Up to \$10,000.

For architectural, landscape architectural, engineering, environmental, land surveying, and construction project management services, the District shall obtain at least one informal quote. Selection shall be made on the basis of demonstrated competence, experience, professional qualifications and suitability for the satisfactory performance of the services required in order to determine which quote provides the greatest overall benefit to the District.

D. Equipment, Materials, and Supplies; General Services, Consultants, Professional Services Over \$50,000.

Formal competitive bidding must be used when purchasing equipment, supplies, or materials over \$50,000, but a competitive proposal process using a “best value” approach may be used in circumstances where it is determined by the General Manager to be in the best interest of the District. “Best value” means a process in which the overall combination of quality, price, and other elements such as reliability, standardization, vendor track record, warranty, and life cycle costs are considered together to determine which proposal provides the greatest overall benefit to the District.

Formal competitive requests for proposals will be used to retain general services, consultants and professional services. Selection shall be made on the basis of demonstrated competence, experience, professional qualifications and suitability for the satisfactory performance of the services required in order to determine which proposal provides the greatest overall benefit to the District.

On a case-by-case basis, and in particular when a procurement involves a combination of goods and services, the General Manager shall make the determination of whether a competitive bid or request for proposals shall be used and whether a “best value” approach in evaluating the bid or proposal is in the best interest of the District.

The Harbor Commission may make a determination that a formal competitive process is not required for procurements up to \$250,000. Anything over \$250,000 requires a formal competitive bidding process.

E. Equipment, Materials, and Supplies above \$10,000 and up to \$50,000.

Three written quotes or proposals must be obtained when purchasing materials, equipment, or supplies when the estimated expenditure is above \$10,000 and up to \$50,000. The quotes or proposals must allow the District to compare prices and other terms. The District shall use the “best value” approach in the selection of the vendor. Adequate outreach will be made to ensure open and free competition, and that small businesses, and local vendors are notified of contract opportunities.

F. General Services, Consultants, Professional Services above \$10,000 and up to \$50,000.

Three written quotes or proposals must be obtained when retaining general services, consultants and professional services. The quotes or proposals must allow the District to compare prices and other terms to the extent practicable. Selection shall be made on the basis of demonstrated competence, experience, professional qualifications and suitability for the satisfactory performance of the services required in order to determine which quote or proposal provides the greatest overall benefit to the District.

G. Equipment, Materials and Supplies; General Services, Consultant and Professional Services Under \$10,000.

For equipment, materials and supplies, the District shall obtain at least one informal quote. The District shall use the “best value” approach in the selection of the vendor.

For general services, consultants and professional services, the District shall obtain at least one informal quote. Selection shall be made on the basis of demonstrated competence, experience, professional qualifications and suitability for the satisfactory performance of the services required in order to determine which quote or proposal provides the greatest overall benefit to the District.

Employees who make District purchases shall submit the following documentation whenever practicable utilizing the District's Enterprise Resource Planning (ERP) software system within a reasonable timeframe to ensure vendors can be paid timely and properly:

1. Quote – Mainly required for new vendors. If the purchase is for a recurring vendor or is under contract, submitting a quote isn't necessary.
2. Invoice – the vendor bill/invoice showing all goods and services ordered, the date and amount due.
3. Packing Slip – the purpose of this document is to show support from the vendor that the goods ordered were delivered. When accepting goods, ensure they are in an acceptable condition before signing anything from the delivery person.

H. Simplified Acquisition Procurement.

When utilizing the simplified acquisition method for procurement, the District shall obtain at least three quotes unless the service or the materials, supplies or equipment are so unique that other quotes are unrealistic or obtaining three quotes is impractical or would be contrary to the best interests of the District as determined by the General Manager.

I. Formal Procurement.

The formal procurement method requires following documented procedures as further described in paragraphs J and K below. Formal procurement methods may also require public advertising.

J. Sealed Bids (Formal procurement method).

Sealed bids (or competitive bidding) is a competitive procurement process and requires preparation of bid documents that clearly set forth all requirements which must be fulfilled in order for the bid to be responsive. Appropriate plans,

specifications and other descriptive information as it relates to the materials, supplies and equipment, as appropriate, shall be prepared for the publication of a notice inviting sealed bids. The contract documents shall be prepared utilizing the District's standard forms, with such modifications as may be appropriate for the particular materials, supplies or equipment or for construction services. All bids shall be presented under sealed cover on forms furnished by the District. Sealed bids shall be opened at the time and place stated in the advertisement for bid. The award of the contract shall be made as required by law and/or as set forth in the notice inviting sealed bids.

K. Request for Proposals (formal procurement method).

Request for Proposals are generally used when conditions are not appropriate for the use of sealed bids. This is a procurement method in which either a fixed price or time and materials type of contract is awarded. Requests for Proposals may state the qualitative factors in addition to price, which will be used to evaluate and/or rank the Proposals. Requests for proposals must be publicized and identify all evaluation factors and their relative importance. Proposals must be solicited from an adequate number of qualified offerors. Any response to publicized requests for proposals must be considered to the maximum extent practical.

L. Purchase Card.

A Purchase Card may be used on the authority of the Site Manager for single purchases up to \$2,500 and up to \$5,000 for training & travel expenses. The Purchase Card monthly limit shall not exceed \$15,000.

Staff should obtain pre-approval from Site Managers prior to making card purchases, or as soon as practicable. Pre-approval means the Site Manager approves the need to purchase, vendor, amount, and delivery details for the transaction prior to the purchase. All cardholders should discuss with their Site Managers and each site should maintain a list of transactions which the Site Manager deems pre-approved.

Prior to using District Purchase Cards, cardholders are required to sign the "District Purchase Card Code of Conduct" which is maintained by the Administrative department.

District Purchase Cards should only be used to purchase equipment, materials, and supplies, or travel/training related expenses. This purchasing method is generally reserved for operating, repair and maintenance supplies, gasoline purchases for District vehicles and vessels, travel or training related expenses, or online purchases that do not accept other payment types. To the extent practicable, District Purchase Cards should not be used to pay for Public Works projects or any professional services expenses.

Staff shall not make Purchase Card purchases prior to approval unless:

1. No manager is on duty, and a manager cannot be reached, and it is a purchase necessary for operations. An email shall be sent to the Manager prior to the purchase explaining the need for such purchase; or
2. It is a routine purchase such as gasoline for vessels. A list of preapproved routine purchases will be provided to the Accounting Manager by the Site Manager and approved by the General Manager.
3. There is a need for an emergency purchase. In such cases, Staff shall notify the Manager of the purchase by email within 24 hours of the purchase.

Employees that use a District Purchase Card must submit the following documentation utilizing the District's Enterprise Resource Planning (ERP) software system within a reasonable time frame and when practicable:

1. Quote- If buying goods on-line it requires a quote or order confirmation along with appropriate authorization. The Manager must approve the quote or order confirmation in the ERP software system.
2. Receipt - Support that the transaction was paid with the District Purchase Card and should show the final amount charged.

Packing Slip – The purpose of this document is to show support from the vendor that the goods ordered were delivered. When accepting goods, ensure they are in an acceptable condition before signing anything from the delivery person.

M. Execution of Contract Documents

All District contracts and amendments will be in writing and executed prior to beginning performance under the contract. Under no circumstances shall a contractor begin work prior to a signed contract and submittal of required insurance certificates. The General Manager may execute all contracts on behalf of the District that are duly approved within the General Manager's authority. When a contract requires Board approval, the General Manager is authorized to sign on behalf of the Harbor Commission once such contract is approved by the Board.

N. Contract Administration

The District shall administer all contracts to ensure that contractors conform to the terms, conditions, and specifications of all contracts and to ensure all purchases are received in a timely manner. Each contract file shall contain documentation concerning the contract administration, including, but not limited to, monitoring of

the contract budget, change orders and final disposition. Undocumented actions on all contracts must be committed to written memoranda and promptly included in the contract file.

The District must maintain oversight to ensure that contractors perform in accordance with the terms, conditions, and specifications of their contracts or purchase orders.

The District is responsible, in accordance with good administrative practice and sound business judgment, for the settlement of all contractual and administrative issues arising out of procurements. These issues include, but are not limited to, source evaluation, protests, disputes, and claims. These standards do not relieve the District of any contractual responsibilities under its contracts. A Federal awarding agency will not substitute its judgment for that of the District unless the matter is primarily a Federal concern. Violations of law will be referred to the local, state, or Federal authority having proper jurisdiction.

The District must maintain records sufficient to detail the history of procurement. These records will include, but are not necessarily limited to, the following: Rationale for the method of procurement, selection of contract type, contractor selection or rejection, and the basis for the contract price.

O. Emergency Contracts

The General Manager is authorized by the Board of Harbor Commissioners to take all necessary and proper measures in emergency conditions to keep District services and facilities operational. When emergency conditions do not permit a delay resulting from a competitive solicitation for bids, the General Manager is authorized to make emergency purchases without giving notice for bids. The General Manager shall promptly report on the reasons and necessity for proceeding without a competitive solicitation for bids to the Board of Harbor Commissioners at the next available meeting (not later than 7 days after the action) or at the next regularly scheduled meeting (not later than 14 days after the action). The Board of Harbor Commissioners will review the emergency action at every regularly scheduled meeting thereafter until the emergency action is terminated and will vote, by four-fifths vote, that there is a need to continue the action.

P. Exceptions to the Procurement Process.

The bidding and/or procurement requirements set forth in this Policy shall not apply in the following circumstances, except for Section L. Purchasing Card shall apply if using a District Purchasing Card:

1. When the purchase order or contract is for utility or communication services; insurance; freight and courier services; postage; education and training expenses; subscriptions and memberships in professional organizations;

- attendance at meetings or conventions; and hotel and travel accommodations.
2. When the needed materials, supplies, equipment, or services are proprietary items of original equipment manufacturers and/or their authorized exclusive distributors.
 3. When the equipment is a component for equipment or a system of equipment previously acquired by the District, and is necessary to repair, maintain or improve the District's utilization of the equipment.
 4. Any contract with another governmental entity involving the purchase of supplies, equipment or services.
 5. Ancillary information technology purchases such as software and/or hardware.
 6. When the requesting department determines in writing, after conducting a good faith review of the available sources, that there is only one source for the required materials, equipment, supplies, or services or that a sole source procurement is necessary to ensure compatibility with existing District equipment. The department requesting sole source procurement shall provide written evidence to support a sole source determination. Such evidence shall be approved by the General Manager. The General Manager may require that negotiations be conducted as to price, delivery and terms. The General Manager may also require the submission of cost or pricing data in connection with an award under this section.
 7. Cooperative purchase procurements of materials, supplies, equipment, or services with other Governments may be used under the following circumstances:
 - a. The General Manager determines it is to the District's advantage to combine its purchases with those of another governmental entity in order to effect economies by bidding combined requirements and the governmental entity actually soliciting the bids employs a bidding procedure adequate to ensure competition among responsible bidders;
 - b. Materials, supplies, equipment, vehicles or services can be purchased in cooperation with other governmental entities or associations; or
 - c. Materials, supplies, vehicles, equipment or services can be purchased from a vendor offering the same prices, terms and conditions as in a previous award from another governmental entity either by competitive bid or through a negotiated process.

8. Upon determining that conformance with the bidding and/or procurement requirements as set forth in this Policy would be contrary to the best interests of the District and/or Public, or upon determining that compliance with the policy would be impractical, the General Manager may waive, in writing, any or all of the requirements of this Policy up to \$50,000. Written justification must be provided to the Board at the next public meeting following the decision of "best interest of the District or Public" is made.

This section does not apply to the procedures for Public Works/Construction contracts or Architecture, Engineering and Other Services contracts Pursuant to Government Code § 4526.

ADDITIONAL REQUIREMENTS FOR COMPETITION RELATED TO FEDERAL AWARDS:

When procuring supplies, materials, equipment and services that are funded, in part or in whole, by federal grants, awards or funds, the District shall follow the applicable provisions of the Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards as set forth in 2 CFR, Part 200, including Appendix II. Accordingly, the District shall also comply with the following requirements.

Q. GENERAL PROCUREMENT STANDARDS

A. Code of Conduct. The following "Code of Conduct" shall govern the performance, behavior and actions of the District, including employees, consultants or agents who are engaged in any aspect of procurement, including, but not limited to, purchasing goods and services, awarding contracts and grants, and the administration and supervision of contracts subject to this Section "Additional Requirements for Competition Related to Federal Awards" :

1. No employee, officer or agent of the District shall participate in selection, or in the award or administration of a contract supported by federal funds if a conflict of interest, real or apparent, would be involved. Such a conflict of interest would arise when any employee, officer, or agent of the District, any member of their immediate family, their partner, or an organization which employs or is about to employ any of the parties indicated herein, has a real or apparent financial or other interest in or a tangible personal benefit from a firm considered for the contract.
2. The District's officers, employees or agents shall neither solicit nor accept gratuities, favors or anything of monetary value from contractors, potential contractors, or parties to subcontracts. Such a conflict shall not arise where

the financial interest is not substantial, or the gift is an unsolicited item of nominal intrinsic value.

3. Violations of this Code of Conduct could lead to disciplinary measures up to and including possible termination of employment.

The General Manager shall enforce the provisions of this Code of Conduct for procurements under a federal award.

B. Solicitation Procedures.

1. Acquisition of unnecessary or duplicative items must be avoided. Consideration should be given to consolidating or dividing procurements to obtain a more economical purchase. When appropriate, an analysis will be made of lease versus purchase alternatives, and any other appropriate analysis to determine the most economical approach.
2. To foster greater economy and efficiency, and in accordance with efforts to promote cost-effective use of shared services, the District shall enter into state and local intergovernmental agreements or inter-entity agreements where appropriate for procurement or use of common or shared goods and services. Competition requirements will be met with documented procurement actions using strategic sourcing, shared services, and other similar procurement arrangements.
3. Procuring federal excess and surplus property in lieu of purchasing new equipment and property whenever such use is feasible and reduces project costs shall be utilized.
4. Value engineering clauses may be used in contracts for construction projects of sufficient size to offer reasonable opportunities for cost reductions. Value engineering is a systematic and creative analysis of each contract item or task to ensure that its essential function is provided at the overall lower cost.
5. Contracts shall only be awarded to responsible contractors possessing the ability to perform successfully under the terms and conditions of a proposed procurement. Consideration will be given to such matters as contractor integrity, compliance with public policy, record of past performance, and financial and technical resources.
6. Records will be maintained sufficiently to detail the history of procurement. These records will include but are not necessarily limited to the following: rationale for the method of procurement, selection of contract type, contractor selection or rejection, and the basis for the contract price.

7. Time and material type contracts may be used only after a determination that no other contract is suitable and if the contract includes a ceiling price that the contractor exceeds at its own risk. Time and material type contract means a contract where the cost to the District is the sum of the actual cost of materials and direct labor hours charged at fixed hourly rates that reflect wages, general and administrative expense, and profit. Each time and material contract will set a ceiling price that the contractor exceeds at its own risk. A higher degree of oversight is required in order to obtain reasonable assurance that the contractor is using efficient methods and effective cost controls.
8. The District alone will be responsible, in accordance with good administrative practice and sound business judgment, for the settlement of all contractual and administrative issues arising out of procurements. These issues include, but are not limited to, source evaluation, protests, disputes, and claims. These standards do not relieve the District of any contractual responsibilities under its contracts. The federal awarding agency will not substitute its judgment for that of the District unless the matter is primarily a federal concern. Violations of law will be referred to the local, state, or federal authority having proper jurisdiction.

C. Competition.

1. All procurement transactions for the acquisition of property or services required under a Federal award must be conducted in a manner providing full and open competition consistent with the standards of this section and §200.320.
2. In order to ensure objective contractor performance and eliminate unfair competitive advantage, contractors that develop or draft specifications, requirements, statements of work, and invitations for bids or requests for proposals will be excluded from competing for such procurements. Some of the situations considered to be restrictive of competition include, but are not limited to:
 - a. Placing unreasonable requirements on firms in order for them to qualify to do business,
 - b. Requiring unnecessary experience and excessive bonding,
 - c. Noncompetitive pricing practices between firms or between affiliated companies,
 - d. Noncompetitive contracts to consultants that are on retainer contracts,
 - e. Organizational conflicts of interest,
 - f. Specifying only a brand name product instead of allowing an equal product to be offered and describing the performance or other relevant requirements of the procurement, or

- g. Any arbitrary action in the procurement process.
3. Procurements shall be conducted in a manner that prohibits the use of statutorily or administratively imposed state or local geographical preferences in the evaluation of bids or proposals, except in those cases where applicable federal statutes expressly mandate or encourage geographic preference. Nothing in this section preempts state licensing laws. When contracting for architectural and engineering (A/E) services, geographic location may be a selection criterion provided its application leaves an appropriate number of qualified firms, given the nature and size of the project, to compete for the contract.
4. All solicitations will incorporate a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description must not, in competitive procurements, contain features which unduly restrict competition. The description may include a statement of the qualitative nature of the material, product or service to be procured and, when necessary, must set forth those minimum essential characteristics and standard to which it must conform if it is to satisfy its intended use. Detailed product specifications should be avoided if at all possible. When it is impractical or uneconomical to make a clear and accurate description of the technical requirements, a brand name or equivalent description may be used as a means to define the performance or other relevant requirements of procurement. The specific features of the named brand which must be met by offers must be clearly stated. Bids and proposals shall identify all the requirements which the offerors must fulfill and all other factors to be used in evaluating bids or proposals.
5. The District shall ensure that all prequalified lists of persons, firms, or products which are used in acquiring goods and services are current and include enough qualified sources to ensure maximum open and free competition. Also, the District shall not preclude potential bidders from qualifying during the solicitation period.
6. Noncompetitive procurements can only be awarded in accordance with 2 CFR §200.320(c).

D. Methods of Procurement to Be Followed.

The District shall use one of the following methods of procurement.

1. Procurement by Micro-Purchases. Procurement by micro-purchase is the acquisition of supplies or services, the aggregate dollar amount of which does not exceed the micro-purchase threshold as set by the Federal Acquisition Regulation at 48 CFR Subpart 2.1 (Definitions) and adjusted periodically for inflation or the District's Procurement Threshold set forth in

this Policy, whichever is more restrictive. To the extent practicable, the District must distribute micro-purchases equitably among qualified suppliers. Micro-purchases may be awarded without soliciting competitive quotations if the District considers the price to be reasonable.

2. Procurement by the Simplified Acquisition Procedures. Simplified acquisition procedures are those relatively simple and informal procurement methods for securing services, supplies or other property that do not cost more than the simplified acquisition threshold as set by the Federal Acquisition Regulation at 48 CFR Subpart 2.1 (Definitions) and in accordance with 41 U.S.C. 1908 and periodically adjusted for inflation or the District's Procurement Threshold set forth in this Policy, whichever is more restrictive unless the Harbor Commission authorizes the use of the Simplified Acquisition method for purchases up to \$250,000. If the simplified acquisition procedures are used, price or rate quotations shall be obtained from an adequate number of qualified sources.
3. Formal Procurement by Sealed Bids (Formal Advertising). When the value of the procurement for property or services exceeds the federal's simplified acquisition threshold or the District's Simplified Acquisition Procurement threshold as set forth in this Policy, whichever is more restrictive, formal procurement procedures are used. In such case, documented procedures are required. Formal procurement methods also require public advertising unless a non-competitive procurement can be used in accordance with 2 CFR § 200.319 or 2 CFR § 200.320(c). The following formal methods of procurement are used for procurement of property or services (sealed bid or proposals) as the District determines to be appropriate:
 - a. Sealed Bids. Bids are publicly solicited and a firm-fixed-price contract (lump sum or unit price) is awarded to the responsible bidder whose bid, conforming to all the material terms and conditions of the invitation for bids, is the lowest in price.
 - i. For sealed bidding to be feasible, the following conditions should be present:
 1. A complete, adequate, and realistic specification or purchase description is available;
 2. Two or more responsible bidders are willing and able to compete effectively for the business; and
 3. The procurement lends itself to a firm-fixed-price contract and the selection of the successful bidder can be made principally based on price.
 - ii. If sealed bids are used, the following requirements apply:
 1. The invitation for bids will be publicly advertised and bids shall be solicited from an adequate number of known

- suppliers, providing them sufficient time prior to the date set for opening the bids;
2. The invitation for bids, which will include any specifications and pertinent attachments, shall define the items or services for the bidder to properly respond;
 3. All bids will be publicly opened at the time and place prescribed in the invitation for bids;
 4. A firm-fixed-price contract award will be made in writing to the lowest responsive and responsible bidder. Where specified in bidding documents, factors such as discounts, transportation cost and life cycle costs shall be considered in determining which bid is lowest. Payment discounts will only be used to determine the low bid when prior experience indicates that such discounts are usually taken advantage of; and
 5. If there is a sound documented reason, any or all bids may be rejected.
- b. Procurement by Proposals. A procurement method in which either a fixed price or cost-reimbursement type contract is awarded. Proposals are generally used when conditions are not appropriate for the use of sealed bids. They are awarded in accordance with the following requirements:
- i. Requests for proposals must be publicized and identify all evaluation factors and their relative importance. Proposals must be solicited from an adequate number of qualified offerors. Any response to publicized requests for proposals must be considered to the maximum extent practical;
 - ii. The non-Federal entity must have a written method for conducting technical evaluations of the proposals received and making selections;
 - iii. Contracts must be awarded to the responsible offeror whose proposal is most advantageous to the non-Federal entity, with price and other factors considered; and
 - iv. The non-Federal entity may use competitive proposal procedures for qualifications-based procurement of architectural/engineering (A/E) professional services whereby offeror's qualifications are evaluated and the most qualified offeror is selected, subject to negotiation of fair and reasonable compensation. The method, where price is not used as a selection factor, can only be used in procurement of A/E professional services. It cannot be used to purchase other types of services though A/E firms that are a potential source to perform the proposed effort.

E. Contracting with Small and Minority Businesses, Women's Business Enterprises, and Labor Surplus Area Firms.

1. The District must take all necessary affirmative steps to assure that minority businesses, women's business enterprises, and labor surplus area firms are used when possible.
2. Affirmative steps must include:
 - a) Placing qualified small and minority businesses and women's business enterprises on solicitation lists;
 - b) Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources;
 - c) Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises;
 - d) Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises;
 - e) Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce; and
 - f) Requiring the prime contractor, if subcontracts are to be let, to take the affirmative steps above in this section.

F. Domestic Preferences for Procurements.

(a) As appropriate and to the extent consistent with law, the District should, to the greatest extent practicable under a Federal award, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States (including but not limited to iron, aluminum, steel, cement, and other manufactured products). The requirements of this section must be included in all subawards including all contracts and purchase orders for work or products under this award.

(b) For purposes of this section:

(1) "Produced in the United States" means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.

(2) "Manufactured products" means items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer-based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber.

G. Procurement of Recovered Materials.

The District as an agency of a political subdivision of a state and its contractors must comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR Part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds \$10,000 or the value of the quantity acquired during the preceding fiscal year exceeded \$10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

H. Contract Cost and Price.

1. The District must perform a cost or price analysis in connection with every procurement action in excess of the Simplified Acquisition Threshold including contract modifications. The method and degree of analysis is dependent on the facts surrounding the particular procurement situation, but as a starting point, the District must make independent estimates before receiving bids or proposals.
2. The District must negotiate profit as a separate element of the price for each contract in which there is no price competition and in all cases where cost analysis is performed. To establish a fair and reasonable profit, consideration must be given to the complexity of the work to be performed, the risk borne by the contractor, the contractor's investment, the amount of subcontracting, the quality of its record of past performance, and industry profit rates in the surrounding geographical area for similar work.
3. Costs or prices based on estimated costs for contracts under the Federal award are allowable only to the extent that costs incurred or cost estimates included in negotiated prices would be allowable for the District. The District entity may reference its own cost principles that comply with the Federal cost principles.
4. The cost plus a percentage of cost and percentage of construction cost methods of contracting must not be used.

I. Federal Awarding Agency or Pass-Through Entity Review.

1. The District must make available, upon request of the Federal awarding agency or pass-through entity, technical specifications on proposed procurements where the Federal awarding agency or pass-through entity believes such review is needed to ensure that the item or service specified is the one being proposed for acquisition. This review generally will take

- place prior to the time the specification is incorporated into a solicitation document. However, if the District desires to have the review accomplished after a solicitation has been developed, the Federal awarding agency or pass-through entity may still review the specifications, with such review usually limited to the technical aspects of the proposed purchase.
2. The District must make available upon request, for the Federal awarding agency or pass-through entity pre-procurement review, procurement documents, such as requests for proposals or invitations for bids, or independent cost estimates, when:
 - a) The District's procurement procedures or operation fails to comply with the procurement standards in this part;
 - b) The procurement is expected to exceed the Simplified Acquisition Threshold and is to be awarded without competition or only one bid or offer is received in response to a solicitation;
 - c) The procurement, which is expected to exceed the Simplified Acquisition Threshold, specifies a "brand name" product;
 - d) The proposed contract is more than the Simplified Acquisition Threshold and is to be awarded to other than the apparent low bidder under a sealed bid procurement; or
 - e) A proposed contract modification changes the scope of a contract or increases the contract amount by more than the Simplified Acquisition Threshold.
 3. The District is exempt from the pre-procurement review of this section above if the Federal awarding agency or pass-through entity determines that its procurement systems comply with the standards of this part.
 - a. The District may request that its procurement system be reviewed by the Federal awarding agency or pass-through entity to determine whether its system meets these standards in order for its system to be certified. Generally, these reviews must occur where there is continuous high-dollar funding, and third-party contracts are awarded on a regular basis.
 - b. The District may self-certify its procurement system. Such self-certification must not limit the Federal awarding agency's right to survey the system. Under a self-certification procedure, the Federal awarding agency may rely on written assurances from the District that it is complying with these standards. The District must cite specific policies, procedures, regulations, or standards as being in compliance with these requirements and have its system available for review.

J. Bonding Requirements.

For construction or facility improvement contracts or subcontracts exceeding the Simplified Acquisition Threshold, the Federal awarding agency or pass-through entity may accept the bonding policy and requirements of the District that the Federal awarding agency or pass-through entity has made a determination that the Federal interest is adequately protected. If such a determination has not been made, the minimum requirements must be as follows:

1. A bid guarantee from each bidder equivalent to five percent of the bid price. The “bid guarantee” must consist of a firm commitment such as a bid bond, certified check, or other negotiable instrument accompanying a bid as assurance that the bidder will, upon acceptance of the bid, execute such contractual documents as may be required within the time specified.
2. A performance bond on the part of the contractor for 100 percent of the contract price. A “performance bond” is one executed in connection with a contract to secure fulfillment of all the contractor’s requirements under such contract.
3. A payment bond on the part of the contractor for 100 percent of the contract price. A “payment bond” is one executed in connection with a contract to assure payment as required by law of all persons supplying labor and material in the execution of the work provided for in the contract.

K. Contract Provisions.

The District's contracts must contain the applicable provisions described below:

1. Contracts for more than the simplified acquisition threshold, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by [41 U.S.C. 1908](#), must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate. All contracts in excess of \$10,000 must address termination for cause and for convenience by the non-Federal entity including the manner by which it will be affected and the basis for settlement.
2. Equal Employment Opportunity. Except as otherwise provided under [41 CFR Part 60](#), all contracts that meet the definition of “federally assisted construction contract” in [41 CFR Part 60-1.3](#) must include the equal opportunity clause provided under [41 CFR 60-1.4\(b\)](#), in accordance with Executive Order 11246, “Equal Employment Opportunity” ([30 FR 12319, 12935, 3 CFR Part, 1964-1965](#) Comp., p. 339), as amended by Executive Order 11375, “Amending Executive Order 11246 Relating to Equal Employment Opportunity,” and implementing regulations at [41 CFR part 60](#), “Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor.”

3. Davis-Bacon Act, as amended ([40 U.S.C. 3141-3148](#)). When required by Federal program legislation, all prime construction contracts in excess of \$2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act ([40 U.S.C. 3141-3144](#), and [3146-3148](#)) as supplemented by Department of Labor regulations ([29 CFR Part 5](#), “Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction”). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland “Anti-Kickback” Act ([40 U.S.C. 3145](#)), as supplemented by Department of Labor regulations ([29 CFR Part 3](#), “Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States”). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.
4. Contract Work Hours and Safety Standards Act ([40 U.S.C. 3701-3708](#)). Where applicable, all contracts awarded by the non-Federal entity in excess of \$100,000 that involve the employment of mechanics or laborers must include a provision for compliance with [40 U.S.C. 3702](#) and [3704](#), as supplemented by Department of Labor regulations ([29 CFR Part 5](#)). Under [40 U.S.C. 3702](#) of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of [40 U.S.C. 3704](#) are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.
5. Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of “funding agreement” under [37 CFR § 401.2 \(a\)](#) and the recipient or subrecipient wishes to enter into a contract with a

- small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that “funding agreement,” the recipient or subrecipient must comply with the requirements of [37 CFR Part 401](#), “Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements,” and any implementing regulations issued by the awarding agency.
6. Clean Air Act (42 U.S.C. 7401-7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251-1387), as amended - Contracts and subgrants of amounts in excess of \$150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act ([42 U.S.C. 7401-7671q](#)) and the Federal Water Pollution Control Act as amended ([33 U.S.C. 1251-1387](#)). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).
 7. Debarment and Suspension (Executive Orders 12549 and 12689) - A contract award (see [2 CFR 180.220](#)) must not be made to parties listed on the government wide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at [2 CFR 180](#) that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), “Debarment and Suspension.” SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.
 8. Byrd Anti-Lobbying Amendment (31 U.S.C. 1352) - Contractors that apply or bid for an award exceeding \$100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by [31 U.S.C. 1352](#). Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.
 9. Incorporate provisions set forth in 2 CFR §200.323, §200.216 and §200.322

San Mateo County Harbor District

Policy Title: Debt Policy	Number: 4.3.2	Date of Approval: 4/21/2021

1. POLICY

The District borrows primarily to fund long-term capital improvement projects. While the issuance of long-term debt may not be utilized to fund operating expenses, short-term public borrowing and interfund loans may be used for operations. The District paid off its debt in Fiscal Year 2015/16 and is debt free as of the adoption of this policy.

This Debt Policy sets forth debt management objectives for the District and establishes general parameters for issuing and administering the District's debt. It primarily addresses debt securities issued by the District in public or private capital markets. This Debt Policy is intended to comply with Government Code Section 8855(i), effective January 1, 2017, and shall govern all debt incurred by the District. The Harbors and Navigation Code Section 6090-6094 also provides regulations specific to Harbor Districts.

For purposes of this Debt Policy, "debt" shall be interpreted broadly to mean bonds, notes, certificates of participation, financing leases, or other financing obligations, but the use of such term in this Debt Policy shall be solely for convenience and shall not be interpreted to characterize any such obligation as an indebtedness or debt within the meaning of any statutory or constitutional debt limitation where the substance and terms of the obligation comport with exceptions thereto.

While this policy provides guidelines for general use, it allows for exceptions in extraordinary conditions. In the event there are proposed exceptions to Debt Policy guidelines when a debt issue is structured, those exceptions will be discussed in the applicable staff reports at the time the debt issue is docketed for District Harbor Commission consideration. Any approval of debt by the District Harbor Commission that is not consistent with this Debt Policy shall constitute a waiver of this Debt Policy.

The template used to prepare this policy received the Association of Public Treasurers of the United States and Canada's Debt Policy Certificate of Excellence Award in 2014. The policy should be resubmitted periodically for peer review and certification to confirm compliance with best practices and industry standards. While a certification does not serve as a substitute for adoption by District Harbor Commission, it does demonstrate staff's due diligence in the preparation and updating of the policy.

1.1. Purpose

This Debt Policy establishes guidelines for the issuance and management of the District's debt and borrowing. This Debt Policy confirms the commitment of the District Harbor Commission, management, and staff to adhere to sound financial management practices.

1.2. Objectives

The policy assists the District in the pursuit of the following equally important objectives, while providing full and complete financial disclosure and ensuring compliance with applicable state and federal laws:

- Minimize debt service and issuance costs;
- Maintain access to cost-effective borrowing;
- Achieve the highest possible credit rating while maintaining operational flexibility and reasonable tax and rate burdens;
- Achieve full and timely repayment of debt;
- Ensure compliance with applicable State and Federal laws.

1.3. Budget Integration

The District funds a significant portion of capital improvements on a cash or “pay-as-you-go” basis. While the “pay-as-you-go” method is often considered the preferred means of financing because it avoids interest payments, it may not be entirely equitable. “Pay-as-you-go” requires current users to pay taxes over long periods of time in order to accumulate reserves sufficient to pay for future capital improvements. Prudent use of debt financing rather than “pay-as-you-go” funding better allocates costs of the capital improvement to those who benefit from it.

The decision to incur new indebtedness is integrated into the Capital Improvement Program (CIP) Budget adopted by District Harbor Commission on an annual basis. The CIP is a plan for the community’s long-term capital improvement needs and incorporates District Harbor Commission adopted goals and priorities. As the District’s infrastructure ages, the CIP also helps to identify the long-term maintenance and asset management funding needs of the District. The Director of Administrative Services works directly with the various District Departments to ensure necessary capital improvements are included in the CIP. Since many capital improvement projects take more than one year to design and construct, the CIP is a five-year plan. This allows District Harbor Commission to better forecast and anticipate upcoming capital improvements.

1.4. Financing Priorities

The Director of Administrative Services shall be responsible for analyzing a financing proposal to determine if it is beneficial to the District and conforms to the District’s long-term financial planning objectives. An analysis of proposed debt may include:

- Confirmation that the capital project is eligible for debt financing;
- Review of all available financing instruments for the project, consideration of alternative debt structures, and determination of the most cost-effective option;
- Determination of total cost of the capital project including its design, construction cost, cost of furnishings, fixtures and equipment;
- Identification of the revenue source(s) to fund the annual debt service;
- Analysis of the municipal bond market, including economic and interest rate trends;
- Cost analysis of debt service reserve fund requirements, debt insurance and debt ratings;
- Evaluation of timing of when the District should enter the capital markets.

1.5. Biennial Review

Recognizing that cost-effective access to the capital market depends on prudent management of the District’s debt program, a biennial review of the debt policy should be performed. The debt policy will be included in the fiscal policy section of the annual Operating Budget and Five-Year CIP adopted by District Harbor Commission. Any substantive changes to the policy shall be brought to District Harbor Commission for consideration and approval.

2. METHODS OF FINANCING

The Director of Administrative Services will investigate all possible project financing alternatives including, but not limited to, bonds, loans, state bond pools, and grants.

2.1. Cash Funding

Beginning in Fiscal Year 2015/16 the District has funded all of its capital improvements on a “pay-as-you-go” basis. As part of a “pay as you go” strategy, the District will first look for grant funding for capital projects.

2.2. Bank Loans/Lines of Credit and Leases

Although the District does not typically utilize bank loans or lines of credit for the financing of capital projects, financial institution credit is an option for municipal issuers and may be evaluated as a financing option. These “loans and lines of credit” are often structured as leases or installment payment obligations in order to comply with the California Constitution.

2.3. Other Debt

The District will evaluate other financing programs, including but not limited to State financing such as the California Parks Department Division of Boating and Waterways (DBW) Boating Facilities Development and Financing Programs.

2.4. Public Market Financing

The District may issue any debt which is allowed under federal and state law including but not limited to general obligation bonds, certificates of participation, revenue bonds, assessment district bonds, special tax bonds, tax increment bonds, revenue anticipation notes, and conduit financings. While conduit financings constitute a limited obligation of the issuer, the same level of due diligence prior to issuance is required. The District will consider requests for special district formation on a case-by-case basis.

Although short-term borrowing such as (i) revenue anticipation notes and (ii) equipment financings has not been part of the District's past practice it may be undertaken by the District in appropriate circumstances.

2.5. Joint Powers Authority (JPA)

In addition to some of the long-term and short-term financing instruments described in Sections 2.1 through 2.4, the District may also consider joint arrangements with other governmental agencies.

3. FINANCING TEAM – ROLES AND SELECTION PROCESS

3.1. Financing Team

The Financing Team is the working group of District staff and outside consultants necessary to complete a debt issuance including but not limited to bond counsel, disclosure counsel, underwriter, municipal advisor, trustee, pricing consultant, and/or arbitrage analyst.

Typically, the Director of Administrative Services, the Accounting Manager, the District's Legal Counsel, and the District General Manager, and appropriate Department Head(s) form the District staff portion of the Financing Team. Other staff members or designees may be appointed to the Financing Team.

3.2. Consultant Selection

The District will consider the professional qualifications and experience of consultants as they relate to the particular debt issue or other financing under consideration. In certain instances, the District will conduct a request for proposal/qualification process to select such consultants. Other professionals may be selected by the General Manager on an as-needed basis if the cost is within his/her authority.

If the District contemplates the possibility of selling bonds through a negotiated sale from the initial analysis phase, the Director of Administrative Services shall first retain the municipal advisor in order to have professional advice on the appropriate method of sale. If a negotiated sale is selected, Director of Administrative Services shall then select an underwriter or private placement lender, as applicable.

3.3. Roles of Consultants

While each financing may require different consultants, bond counsel, disclosure counsel, and municipal advisor are required. Bond Counsel prepares the necessary resolutions, ordinances, agreements and other legal documents necessary to execute a bond financing and provides an opinion on the validity of the debt and the tax-exempt nature of interest on the debt, if applicable. Disclosure counsel prepares the offering documents, such as the official statement and continuing disclosure undertaking. While bond counsel can act as disclosure counsel, the District typically retains separate counsel. The municipal advisor assists with bond document negotiations, transaction structuring including call provisions, timing of issuance, cash flow, debt insurance and savings analysis, and obtaining ratings on the proposed debt issuance.

3.4. Roles of Staff

Staff not only plays an important role in the issuance of debt, but their roles continue through the life of the debt. The Director of Administrative Services is responsible for analyzing financial proposals (including structure, credit enhancements, reserve funds, call options, and derivatives products), selecting consultants, and submitting new or refunding debt options to District Harbor Commission for approval. The Director of Administrative Services maintains relationships with rating agencies, invests proceeds and ensures proceeds are spent for their intended purposes. In regard to disclosure, the Director of Administrative Services approves all disclosure documents, including offering documents, annual continuing disclosure filings (including audited financial statements), event filings and voluntary disclosures whether posted on the Electronic Municipal Market Access (EMMA) or submitted directly to a bond owner in a private placement.

The District's Legal Counsel reviews all documents including offering documents to ensure all material litigation, settlements, and court orders are presented. The District's Legal Counsel is also a member of the Disclosure Review Group (see Section 7.5), using his or her knowledge of the District to comment on disclosure documents.

The Director of Administrative Services identifies departments and staff to contribute information for the offering documents. In addition, the Director of Administrative Services is responsible for organizing the Disclosure Review Group, scheduling meetings, distributing disclosure documents, and soliciting comments from the group. After any disclosure document has been approved by the Disclosure Review Group, the Director of Administrative Services is responsible for filing the documents on EMMA or submitting the documents to a bond owner representative. In addition, the Director of Administrative Services is responsible for ensuring compliance with other bond covenants, legal requirements, and the retention of relevant bond documents.

4. STRUCTURE AND TERM

4.1. Term of Debt

Debt will be structured for the shortest period possible, consistent with a fair allocation of costs to current and future users. The standard term of long-term debt borrowing is typically 15-30 years. Consistent with its philosophy of keeping its capital facilities and infrastructure systems in good condition and maximizing a capital asset's useful life, the District will make every effort to set aside sufficient current revenues to finance ongoing maintenance needs and to provide reserves for periodic replacement and renewal. Generally, no debt will be issued for periods exceeding the useful life or average useful lives of projects to be financed.

4.2. Debt Repayment Structure

In structuring a debt issue, the District will manage the amortization of the debt and, to the extent possible, match its cash flow to the anticipated debt service payments. In addition, the District will seek to structure debt with aggregate level debt service payments over the life of the debt. Structures with unlevel debt service will be considered when one or more of the following exist:

- Natural disasters or extraordinary unanticipated external factors make payments on the debt in the early years prohibitive;
- Such structuring is beneficial to the District's aggregate overall debt payment schedule;
- Such structuring will allow debt service to more closely match project revenues during the early years of the project's operation.

4.3. Bond Maturity Options

For each issuance of bonds, the District will select serial bonds or term bonds, or both. On the occasions where circumstances warrant, capital appreciation bonds ("CABs") may be used. The decision to use term, serial or CABs is typically driven by market conditions.

4.4. Interest Rate Structure

The District will issue securities on a fixed interest rate basis except in limited circumstances. Fixed rate securities ensure budget certainty through the life of the issue and avoid the volatility of variable rates.

The District prefers to issue bonds at par. The District will, however, evaluate the use of premiums or discounts on a case-by-case basis as recommended by the municipal advisor at the time of pricing or sale.

4.5. Credit Enhancement

Credit enhancement may be used to improve or establish a credit rating on a District debt obligation. Types of credit enhancement include letters of credit, bond insurance, and debt service reserve fund insurance.

The Director of Administrative Services will recommend the use of a credit enhancement if it reduces the net cost of the proposed financing or if the use of such credit enhancement furthers the District's overall financial objectives.

4.6. Debt Service Reserve Fund

Debt service reserve funds are established to make principal and interest payments to bondholders in the event that pledged revenues are insufficient to do so. The District will fund debt service reserve funds when it is in the District's overall best financial interest.

The size of the reserve fund is generally the lesser of 1) 10 percent of par, 2) 125 percent of average annual debt service and 3) 100 percent of maximum annual debt service.

In lieu of holding a cash funded reserve, the District may substitute a debt service reserve fund insurance policy or other credit instrument in its place. The decision to cash fund a reserve fund rather than to use a credit facility is dependent upon the cost of the credit instrument and the investment opportunities.

Additionally, the District may decide not to utilize a reserve fund if the Director of Administrative Services, in consultation with the underwriter and municipal advisor, determines there would be no adverse impact to the District's credit rating or interest rates.

4.7. Call Options/Redemption Provisions

A call option or optional redemption provision gives the District the right to prepay or retire debt prior to its stated maturity date. This option may permit the District to achieve interest savings in the future through the refunding of the bonds. Often the District will pay a higher interest rate as compensation to the buyer for the buyer assuming the risk of having the bond called in the future. In addition, if a bond is called, the holder may be entitled to a premium payment ("call premium").

Because the cost of call options can vary depending on market conditions, an evaluation of factors will be conducted in connection with each issuance. The Director of Administrative Services shall evaluate and recommend the use of a call option on a case-by-case basis.

4.8. Debt Limits

Establishing debt limits and performing periodic review of debt capacity provides assurances that debt will be affordable. Debt capacity should be analyzed in conjunction with the preparation of the annual CIP Budget.

California Government Code Section 43605 states the District shall not incur bonded indebtedness payable from the proceeds of property tax which exceeds 15 percent of the assessed value of all real and personal property within the District. This provision, however, was enacted when assessed valuation was based upon 25 percent of market value. Effective with the 1981-82 fiscal year, each parcel is now assessed at 100 percent of market value (as of the most recent change in ownership for that parcel). In order to reflect the intent of the debt limit stipulation in Section 43605, the 15 percent has been adjusted to one-fourth of that level, or 3.75 percent of the assessed value of all real and personal property within the District.

The cumulative annual debt service of all debt issues supported by the District is restricted to no more than 25 percent of annual Revenue.

4.9. Derivatives

Derivative products may have application to certain District borrowing programs. In certain circumstances these products can reduce borrowing costs and assist in managing interest rate risk. However, these products carry with them certain risks and introduce complexity not faced in standard debt instruments.

The Director of Administrative Services shall evaluate the use of derivative products on a case-by-case basis to determine whether the potential benefits are sufficient to offset any potential costs.

4.10. Refundings

The District shall refinance debt to achieve savings as market opportunities arise. The Director of Administrative Services shall remain cognizant of fluctuations in interest rates for the purpose of identifying refunding opportunities and prepare a present value analysis identifying the economic effects of a refunding to determine the value of refunding.

Refundings may be undertaken in order to:

- Take advantage of lower interest rates and achieve debt service costs savings;
- Eliminate restrictive or burdensome debt covenants;
- Restructure debt to either lengthen the duration of debt or free up reserve funds.

Generally, the District shall strive to achieve a minimum of three percent net present value savings for a current refunding and a minimum of five percent net present value savings for an advance refunding, in each case as a percentage of outstanding principal amount. Upon the advice of the Director of Administrative Services and with the assistance of the municipal advisor and bond counsel, the District will consider undertaking refundings for other than economic purposes upon a finding that such a restructuring is in the District's overall best financial interest.

5. METHOD OF ISSUANCE AND SALE

5.1. Method of Sale

Debt issues in public capital markets are sold to a single underwriter or to an underwriting syndicate, either through a competitive sale or a negotiated sale. Debt may also be privately placed with one or a handful of institutional or sophisticated investors in a private placement. The selected method of sale will be that which is most beneficial to the District in terms of lowest net interest rate, most favorable terms in financial structure, and market conditions.

The District will use competitive sales as the primary means of selling debt. The District, however, reserves the option of pursuing a negotiated sale or private placement if there is evidence of volatile market conditions, complex security features, or other overriding factors. If the negotiated sale option is utilized, the Director of Administrative Services, with the approval of District Harbor Commission, will negotiate the best possible interest rates for the District. The overall objective is to obtain the lowest possible interest cost and provide pricing transparency.

5.2. Initial Disclosure Requirements

The District acknowledges its disclosure responsibilities. Under the guidance of Disclosure Counsel, the District will distribute or cause an underwriter to distribute its Preliminary Official Statement and final Official Statement (neither is typically required in a private placement, although in some cases a "private placement memorandum" may be required by the investor).

The Financing Team shall be responsible for soliciting "material" information (as defined in Securities and Exchange Commission Rule 10b-5) from District departments and identifying contributors who may have information necessary to prepare portions of the Official Statement or who should review portions of the Official Statement. In doing so, the Financing Team shall confirm that the Official Statement accurately states all "material" information relating to the decision to buy or sell the subject debt and that all information in the Official Statement has been critically reviewed by an appropriate person. "Material information" is any information that a reasonable investor would

consider in making the decision to purchase or sell the debt. In connection with an initial offering of securities, the District and other members of the Financing Team will:

- Identify material information that should be disclosed in the Official Statement;
- Identify other persons that may have material information (contributors);
- Review and approve the Official Statement;
- Ensure the District's compliance, and that of its related entities, with federal and state securities laws.

The District's Director of Administrative Services shall contact the individuals and departments identified as contributors as soon as possible in order to provide adequate time for them to perform their assigned tasks. Contributors shall assist in reviewing and preparing the Official Statement using their knowledge of the District and, if appropriate, by discussing the Official Statement with other members of the contributors' department to ensure accuracy.

The Director of Administrative Services shall review the Official Statement, identify any material differences in the presentation of financial information from the financial statements and ensure there are no misstatements or omissions of material information in any sections that contain information prepared by the Accounting Manager or of relevance to the finances of the District. The District's Legal Counsel (or designee) shall review the Official Statement descriptions of (i) any material current, pending or threatened litigation, (ii) any material settlements or court orders and (iii) any other legal issues that are material information for purposes of the Official Statement.

After the Financing Team completes the Official Statement, it shall critically evaluate the Official Statement for accuracy and compliance with federal and state securities laws, and shall, if appropriate, ask questions of any contributor or other person who reviewed or drafted any section of the Official Statement. The Financing Team may solicit information or review from additional contributors before approving the Official Statement. Once the Financing Team has completed its evaluation and members of the Disclosure Review Group (see Section 7.5), the Official Statement must be presented to the District Harbor Commission for approval.

The approval of an Official Statement shall be placed on the Discussion portion of the District Harbor Commission agenda and shall not be considered as a Consent Calendar item. The staff report will summarize the steps followed to complete the Official Statement and review the District Harbor Commission's responsibilities with respect to the Official Statement, providing the District Harbor Commission the opportunity to review a substantially final Official Statement. The District Harbor Commission shall undertake such review as deemed necessary by the District Harbor Commission to fulfill the District Harbor Commission's securities law responsibilities.

For any privately placed debt with no Official Statement, the Director of Administrative Services shall provide the Financing Team a draft staff report describing the issue and such other documents. The Financing Team and Disclosure Review Group (see Section 7.5) shall review and approve the staff report before the transaction is approved by the District Harbor Commission.

6. CREDITWORTHINESS OBJECTIVES

Ratings reflect the general fiscal soundness of the District or the applicable District credit and the capabilities of its management. Typically, the higher the credit ratings are, the lower the interest cost is on the District's debt issues. To enhance creditworthiness, the District is committed to prudent financial management, systematic capital planning, and long-term financial planning. The District recognizes that external economic, natural, or other events may, from time to time, affect the creditworthiness of its debt.

The most familiar nationally recognized bond rating agencies are Standard and Poor's, Moody's Investors Service, and Fitch Ratings. When issuing a credit rating, rating agencies consider various factors including but not limited to:

- District's fiscal status;
- District's general management capabilities;

- Economic conditions that may impact the stability and reliability of debt repayment sources;
- District's reserve levels;
- District's debt history and current debt structure, if any;
- Project being financed;
- Covenants and conditions in the governing legal documents.

6.1. Bond Ratings

Not all financings are eligible for a bond rating. The Financing Team will assess whether a credit rating should be obtained for an issuance sold in the public capital markets. The District typically seeks a rating from at least one nationally recognized rating agency on new and refunded issues being sold in the public market. The Director of Administrative Services, working with the Financing Team, shall be responsible for determining which of the major rating agencies the District shall request provide a rating. When applying for a rating on an issue, the District shall prepare a formal presentation of the relevant credit criteria that will be reviewed by the Financing Team and Disclosure Review Group before its presentation to a rating agency.

6.2. Rating Agency Communications

The Director of Administrative Services is responsible for maintaining relationships with the rating agencies that assign ratings to the District's various debt obligations. This effort shall include providing the rating agencies with the District's financial statements, if applicable, as well as any additional information requested.

7. POST ISSUANCE ADMINISTRATION

7.1. Investment of Proceeds

The Director of Administrative Services shall invest debt proceeds and debt service reserve funds in accordance with each issue's indenture or trust agreement, utilizing competitive bidding when possible. All investments will be made in compliance with the District's Investment Policy objectives of safety, liquidity and then yield. Unexpended debt proceeds shall be held by the bank trustee whenever possible. The trustee will be responsible for recording all investments and transactions relating to the proceeds and providing monthly statements regarding the investments and transactions. Investment of proceeds shall be in compliance with applicable federal tax law rules. See Arbitrage Compliance and Post-Issuance Compliance.

7.2. Use of Debt Proceeds and Internal Controls

The Director of Administrative Services is responsible for ensuring debt proceeds are spent for the intended purposes identified in the debt documents and that the proceeds are spent in the time frames identified in the tax certificate prepared by the District's bond counsel. The District typically completes the infrastructure projects financed with debt proceeds itself. Therefore, the District's internal controls related to District Harbor Commission award of contracts, purchase orders and accounts payable are utilized. The Director of Administrative Services will authorize the use of debt proceeds to reimburse expenditures and review unspent debt proceeds remaining after each draw.

The Accounting Manager will maintain records setting forth the date and amount of each disbursement of proceeds together with evidence with respect to each disbursement (e.g. name of payee, invoices, purchase orders, contracts, checks), and confirm each expense is consistent with the legal documents. The Accounting Manager is responsible for reconciling trustee and fiscal agent bank statements on a monthly basis.

Although the District is an infrequent issuer, it recognizes each debt issue may be different and that there may be circumstances that require deviation from the standard practice of the District contracting and managing construction. In these situations, the Director of Administrative Services, working with the Accounting Manager, will develop debt specific procedures, maintaining as many of the District's internal controls as possible.

7.3. Arbitrage Compliance

The District shall follow a policy of full compliance with all the arbitrage and rebate requirements of the federal tax code and Internal Revenue Service regulations. The District shall engage qualified third parties for the preparation of arbitrage and rebate calculations. All necessary rebates will be filed and paid when due.

7.4. Ongoing Disclosure and EMMA

The District shall comply with the requirements of the Continuing Disclosure Undertaking(s) entered into at the time of each debt issue. The Director of Administrative Services shall be responsible for providing ongoing disclosure information. Disclosure for publicly issued debt is filed with the Municipal Securities Rulemaking Board's (MSRB's) Electronic Municipal Market Access (EMMA) system, the central depository designated by the Securities and Exchange Commission for ongoing disclosure by municipal issuers. Private placement disclosure is delivered to the appropriate bondholders by email or other agreed-upon procedures.

In order to comply with 2018 amendments to Rule 15c2-12, the District will maintain an inventory of "financial obligations" (as defined in Section 8).

The Director of Administrative Services will prepare the annual disclosure reports in accordance with the Continuing Disclosure Undertakings. The Director of Administrative Services will identify material information that should be disclosed and identify other persons that may have knowledge of material information.

Once the annual disclosure reports are in final draft form, the Director of Administrative Services will submit them for review by the Disclosure Review Group described in Section 7.5 of this policy. After review and approval by the Disclosure Review Group, the Director of Administrative Services will post the disclosure on EMMA using the user name and password issued by the Municipal Securities Rulemaking Board.

In addition to annual reports, Securities and Exchange Commission Rule 15c2-12(b)(5)(i)(C) obligates the District to enter into a written undertaking to disclose, in a timely manner to the MSRB, notice of certain specified events with respect to the District's securities. The list of applicable events is set forth in each continuing disclosure undertaking.

The Director of Administrative Services may file notice with the MSRB of specified events listed in the Continuing Disclosure Undertakings without prior review and approval of the Disclosure Review Group if the District is contractually obligated to file and the disclosure document contains no discretionary content.

If any member of the Disclosure Review Group concludes that an event may have occurred, the Director of Administrative Services shall be contacted, and shall notify the Disclosure Review Group to discuss the potential event.

7.5. Disclosure Review Group

The District will establish a Disclosure Review Group to ensure the accuracy of its initial and continuing disclosure information and the District's compliance with all applicable federal and state securities laws. The Disclosure Review Group shall review and approve, to the best of its ability, the District's disclosure documents listed in this policy.

Members - The members of the group shall include the following:

- Director of Administrative Services;
- District Legal Counsel or designee;
- District General Manager or designee;
- Department Heads (applicable to specific issue);
- Accounting Manager;
- Communications Analyst (press releases and other communication);

The Disclosure Review Group is an internal working group of District staff and not a decision-making or advisory body subject to the provisions of the Ralph M. Brown Act (Government Code Sections 54950 et seq.).

Meetings - The Disclosure Review Group shall meet as often as necessary to fulfill its obligations, but not less than once per calendar year when the District has debt. The Director of Administrative Services shall be responsible for convening meetings of the Disclosure Review Group, although any member of the Disclosure Review Group may instruct the Director of Administrative Services to convene a meeting.

Review and Approval - The Disclosure Review Group shall critically evaluate a disclosure document for accuracy and compliance with federal and state securities laws, and shall, if appropriate, ask questions. The Disclosure Review Group may send the disclosure document back for revisions.

Disclosure Documents - Disclosure documents shall include, but are not limited to, the following:

- A. Preliminary and final official statements;
- B. Private placement memoranda and remarketing memoranda;
- C. Any filing made by the District with the MSRB, whether made pursuant to a continuing disclosure undertaking to which the District is a party or made voluntarily;
- D. Rating agency presentations;
- E. Management's discussion and analysis and transmittal letter portions of the District's audited financial statement;
- F. Press releases and other communications that are reasonably likely, in the determination of the Disclosure Review Group, to reach investors or the securities market.

Any person preparing a document for release to the public that may be considered a disclosure document shall notify the Director of Administrative Services of such information and its proposed or mandatory dissemination date. If the document is not on the list of disclosure documents and the Director of Administrative Services determines it is reasonably likely to reach investors or the securities market, the Director of Administrative Services shall inform the Disclosure Review Group. Disclosure Counsel may be consulted for advice.

Training - The Director of Administrative Services shall arrange for periodic disclosure training sessions for the Disclosure Review Group. Such training sessions shall include the District's disclosure obligations under applicable federal and state laws and the disclosure responsibilities and potential liabilities of members of District staff and members of the District Harbor Commission. Such training sessions may be conducted using a recorded presentation. District Harbor Commission members, at a minimum, will be informed of the disclosure responsibilities at his or her new member orientation and prior to approving a debt issue.

7.6. Post-Issuance Compliance

The District must maintain compliance with all undertakings, covenants, and agreements of each debt issuance on an ongoing basis. This typically includes ensuring:

- Revenues are annually appropriated to meet debt service payments;
- Taxes/fees are levied and collected where applicable;
- Debt service payments are transferred timely to the trustee;
- Insurance requirements are met;
- Rate covenants are satisfied.

There are other periodic reporting requirements associated with debt issues such as the CDIAIC Proposed Issuance and Post-Sale report.

The District shall comply with all covenants agreed to in the legal documents (including tax certificates) entered into at the time of the debt offering as well as conditions contained in governing law. The Director of Administrative Services will coordinate verification and monitoring of compliance.

Section 9 of this document will be updated when the District issues debt and will include important compliance dates. The District will utilize EMMA's email reminder system to calendar these reporting requirements and notify the Director of Administrative Services as well as other staff members of upcoming obligations. Section 9 will also include an inventory of the District's financial obligations for purposes of Rule 15c2-12.

7.7. Retention

A copy of all relevant documents and records will be maintained by the Financing Team for the term of the debt (including refunding debt, if any) plus ten years. Relevant documents and records will include sufficient documentation to support the requirements relating to the tax-exempt status, including the following:

- Bond transcripts, official statement and other offering documents.
- All documents relating to capital expenditures financed by debt proceeds. Such documents will include construction contracts, purchase orders, invoices and payment records. Such documents will include documents relating to costs reimbursed with debt proceeds.
- Records will be maintained identifying the assets or portion of assets that are financed with debt proceeds.
- All contracts and arrangements involving private use (including private management) of the debt financed assets.
- All reports relating to the allocation of debt proceeds and private use of debt financed assets.
- All records of investments, investment agreements, arbitrage reports, return filings with the IRS and underlying documents, trustee statements, rating correspondence, and continuing disclosure.

7.8. Investor Relations

While the District shall post its annual financial report as well as other financial reports on the District's website, this information is intended for the citizens of San Mateo County. Information with the intention of reaching the investing public, including bondholders, rating analysts, investment advisors, or any other members of the investment community shall be filed on the EMMA system.

7.9. Additional Requirements for Financial Statements

It is the District's policy to hire an auditing firm that has the technical skills and resources to properly perform an annual audit of the District's financial statements. More specifically, the firm shall be a recognized expert in the accounting rules applicable to the District and shall have the resources necessary to review the District's financial statements on a timely basis.

8. GLOSSARY AND MUNICIPAL SECURITIES TERMINOLOGY

Ad Valorem Tax: A tax calculated "according to the value" of property. Such a tax is based on the assessed valuation of real property and a valuation of tangible personal property.

Advance Refunding: Refunding bonds that are issued more than 90 days prior to the date upon which the refunded bonds will be redeemed. Proceeds of the advance refunding bonds are placed into an escrow account with a fiduciary and used to pay interest and principal on the refunded bonds and then used to redeem the refunded bonds at their maturity or call date. Under current federal tax law, advance refundings cannot be accomplished with tax-exempt bonds.

Arbitrage: The gain that may be obtained by borrowing funds at a lower (often tax-exempt) rate and investing the proceeds at higher (often taxable) rates. The ability to earn arbitrage by issuing tax-exempt securities has been severely curtailed by the Tax Reform Act of 1986, as amended.

Assessed Valuation: The appraised worth of property as set by a taxing authority through assessments for purposes of ad valorem taxation.

Assessment District Bonds: Bonds issued for public improvements benefiting property within assessment districts created pursuant to the Improvement Act of 1911 and the Municipal Improvement Act of 1913.

Bond: A security that represents an obligation to pay a specified amount of money on a specific date in the future, typically with periodic interest payments.

Bond Anticipation Notes (BANS): Short-term notes issued usually for capital projects and paid from the proceeds of the issuance of long-term bonds. Provide interim financing in anticipation of bond issuance.

Bond Counsel: An attorney retained by the issuer to give a legal opinion concerning the validity of securities. The bond counsel's opinion usually addresses the subject of tax exemption. Bond counsel may prepare or review and advise the issuer regarding authorizing resolutions, trust indentures and litigation.

Bond Insurance: A type of credit enhancement whereby an insurance company indemnifies an investor against default by the issuer. In the event of failure by the issuer to pay principal and interest in full and on time, investors may call upon the insurance company to do so. Once issued, the municipal bond insurance policy is generally irrevocable. The insurance company generally receives its premium when the policy is issued.

Call Option: The right to redeem a bond prior to its stated maturity, either on a given date or continuously. The call option is also referred to as the optional redemption provision. Often a "call premium" is added to the call option as compensation to the holders of the earliest bonds called.

Capital Appreciation Bond: A municipal security on which the investment return on an initial principal amount is reinvested at a stated compounded rate until maturity, at which time the investor receives a single payment representing both the initial principal amount and the total investment return.

Capital Improvement Program Budget: A forecast of the District's capital needs over a five-year period based on various long-range plans, goals, and policies. Capital projects are typically large-scale endeavors in terms of cost, size and benefit to the community.

Certificates of Participation: A security representing a proportionate interest in payments such as lease payments by one party (such as a District acting as a lessee) to another party (often a trustee).

Competitive Sale: A sale of bonds in which an underwriter or syndicate of underwriters submit sealed bids to purchase the bonds. Bids are awarded on a true interest cost basis ("TIC"), providing that other bidding requirements are satisfied. Competitive sales are recommended for simple financings with a strong underlying credit rating. This type of sale is in contrast to a Negotiated Sale.

Comprehensive Annual Financial Report: Government's annual financial statement.

Conduit Financing: The issuance of securities by a governmental entity to finance a project that will primarily benefit a third party. The security for this type of financing is the credit of the third party. Usually such securities do not constitute general obligations of the issuer since the private entity is liable for generating the pledged revenues for repayment. Industrial development bonds and multifamily housing revenue bonds are a common type of conduit refinancing.

Continuing Disclosure: The requirement established by the Securities and Exchange Commission pursuant to Rule 15c2-12 that requires underwriters of most publicly-sold debt to ensure that issuers enter into a written undertaking to provide annual financial and operating data

and event notices to the Municipal Securities Rulemaking Board for access by the general marketplace.

Credit Rating Agency: A company that rates the relative credit quality of a bond issue and assigns a letter rating. These rating agencies include Moody's Investors Service, Standard & Poor's, and Fitch Ratings.

Current Refunding: Refunding bonds that are issued 90 days or less before the date upon which the refunded bonds will be redeemed.

Debt Limit: The maximum amount of debt that is legally permitted by a jurisdiction's charter, constitution, or statutes.

Debt Service: The amount necessary to pay principal and interest requirements on outstanding bonds for a given year or series of years.

Default: The failure to pay principal or interest in full or on time and, in some cases, the failure to comply with non-payment obligations after notice and the opportunity to cure.

Derivative: A financial instrument which derives its own value from the value of another instrument, usually an underlying asset such as a stock, bond, or an underlying reference such as an interest rate index.

Disclosure Counsel: An attorney retained to provide advice on issuer disclosure obligations, to prepare the official statement and to prepare the continuing disclosure undertaking.

Discount: The difference between a bond's par value and the price for which it is sold when the latter is less than par.

Electronic Municipal Market Access (EMMA): A system operated by the Municipal Securities Rulemaking Board that serves as the official clearinghouse for municipal securities disclosures (both initial and continuing) and related market data (<https://emma.msrb.org/>)

Financial Obligation: Defined in Rule 15c2-12 as a (A) debt obligation, (B) derivative instrument entered into in connection with, or pledged as security or a source of payment for, an existing or planned debt obligation, or (C) guarantee of a debt obligation or derivative instrument. The term financial obligation does not include municipal securities as to which a final official statement has been provided to the Municipal Securities Rulemaking Board consistent with Rule 15c2-12.

Financing Team: The working group of District staff and outside consultants necessary to complete a debt issuance.

General Obligation Bond: In California, a bond secured by an unlimited ad valorem property tax pledge. For local agencies, a general obligation bond requires a favorable two-thirds vote by the electorate. GO bonds usually achieve lower rates of interest than other financing instruments since they are considered to be a lower risk.

Indenture: A contract between the issuer and the trustee stipulating the characteristics of the financial instrument, the issuer's obligation to pay debt service, and the remedies available to the trustee in the event of default.

Industrial Development Bonds: Securities issued to finance the construction or purchase of industrial, commercial or manufacturing facilities to be purchased by or leased to a private user. These securities are backed by the credit of the private user and generally are not considered liabilities of the governmental issuer.

Issuance Costs: The costs incurred by the bond issuer during the planning and sale of securities. These costs include but are not limited to fees and expenses of municipal advisors, bond counsel and disclosure counsel, District staff costs, printing and advertising costs, rating agencies fees, and other expenses incurred in the marketing of an issue.

Lease: An obligation wherein a lessee agrees to make payments to a lessor in exchange for the use of certain property. The term may refer to a capital lease or to an operating lease.

Lease Revenue Bonds: Bonds that are secured by an obligation of one party to make annual lease payments to another.

Municipal Advisor: A consultant who provides the issuer with advice on the structure of the bond issue, timing, terms and related matters for a new bond issue.

Municipal Securities Rulemaking Board (MSRB): A self-regulating organization established on September 5, 1975 upon the appointment of a 15-member board by the Securities and Exchange Agreement. The MSRB, comprised of representatives from investment banking firms, dealer bank representatives, and public representatives, is entrusted with the responsibility of writing rules of conduct for the municipal securities market.

Negotiated Sale: A sale of securities in which the terms of the sale are determined through negotiation between the issuer and the purchaser, typically an underwriter, without competitive bidding. Negotiated sales can also occur on a private placement basis. See Private Placement. The negotiated sales process provides the issuer with control over the financing structure and issuance timing. Negotiated sales are recommended for unusual financing terms, periods of market volatility and weaker credit quality. A thorough evaluation of market conditions will be performed to ensure reasonable final pricing and underwriting spread.

Net Interest Cost (NIC): A method of computing the interest expense to the issuer of bonds, which may serve as the basis of award in a competitive sale of a new issue of municipal securities. NIC takes into account any premium or discount applicable to the issue, as well as the dollar amount of coupon interest payable over the life of the issue. NIC does not take into account the time value of money (as would be done in other calculation methods, such as the “true interest cost” (TIC) method). The term “net interest cost” refers to the overall rate of interest to be paid by the issuer over the life of the bonds.

Official Statement (Prospectus): A document published by the issuer in connection with a primary offering of securities that discloses material information on a new security issue including the purposes of the issue, the terms of the securities, how the securities will be repaid, and the financial, economic and social characteristics of the security for the bonds. Investors may use this information to evaluate the credit quality of the securities.

Original Issue Discount Bonds: Bonds sold at a substantial discount from their par value at the time of the original sale. See Discount.

Par Value: The face value or principal amount of a security.

Preliminary Official Statement: A version of the Official Statement prepared by or for an issuer of municipal securities for potential customers prior to the pricing of the securities. Under SEC Rule 15c2-12, the difference between a Preliminary Official Statement and a final Official Statement is that the final Official Statement includes “pricing information,” i.e., offering price(s), interest rate(s), selling compensation, aggregate principal amount, principal amount per maturity, delivery dates, any other terms or provisions required by an issuer of such securities to be specified in a competitive bid, ratings, other terms of the securities depending on such matters, and the identity of the underwriter(s).

Premium: The excess of the price at which a bond is sold over its face value.

Present Value: The value of a future amount or stream of revenues or expenditures.

Pricing Consultant: The Pricing Consultant provides a fairness letter to the District or its agent regarding the pricing of a new issue of municipal securities. Municipal advisors often provide this service to issuers as part of their duties.

Private Activity Bonds: A bond where bond proceeds are used for private purposes. If deemed a private activity bond, the interest is not tax exempt unless the use of the proceeds meets certain requirements of the Internal Revenue Code.

Private Placement: A bond issue that is structured specifically for one or a handful of purchasers. Private placements are typically carried out when a bond's credit characteristics or other structural terms preclude public offerings. A private placement is considered to be a negotiated sale.

Refunding: A procedure whereby an issuer refinances an outstanding debt issue by issuing a new debt issue.

Rule 10b5: Rule adopted by the Securities and Exchange Commission that requires the disclosure of all material facts and prohibits the misstatement of material facts if the omission or misstatement would be misleading.

Rule 15c2-12: Rule adopted by the Securities and Exchange Commission setting forth certain obligations of (i) underwriters to receive, review and disseminate official statements prepared by issuers of most primary offerings of municipal securities, (ii) underwriters to obtain continuing disclosure undertakings from issuers and other obligated persons to provide ongoing annual financial information on a continuing basis, and (iii) broker dealers to have access to such continuing disclosure in order to make recommendations of municipal securities in the secondary market.

Reserve Fund: A fund established by the indenture of a bond issue into which money is deposited for payment of debt service in case of a shortfall in current revenues.

Revenue Bond: A bond which is payable from a specific source of revenue and to which the full faith and credit of an issuer is **not** pledged. Revenue bonds are payable from identified sources of revenue, and do not permit the bondholders to compel a jurisdiction to pay debt service from any other source. Pledged revenues often are derived from the operation of an enterprise.

Secondary Market: The market in which bonds are sold after their initial sale in the new issue market.

Serial Bonds: Bonds of an issue that mature in consecutive years or other intervals and are not subject to mandatory sinking fund provisions.

Tax and Revenue Anticipation Notes (TRANS): Short-term notes issued in anticipation of receiving tax receipts and revenues at a future date. Proceeds allow the municipality to manage the periods of cash shortfalls resulting from a mismatch between timing of revenues and timing of expenditures.

Term Bonds: Bonds that come due in a single maturity whereby the issuer may agree to make periodic payments into a sinking fund for mandatory redemption of term bonds before maturity or for payment at maturity.

True Interest Cost (TIC): Under this method of computing the interest expense to the issuer of bonds, true interest cost is defined as the rate necessary to discount the amounts payable on the respective principal and interest payment dates to the purchase price received for the new issue of bonds. Interest is assumed to be compounded semi-annually. TIC computations produce a figure

slightly different from the “net interest cost” (NIC) method because TIC considers the time value of money while NIC does not.

Trustee: A bank retained by the issuer as custodian of bond proceeds and official representative of bondholders. The trustee ensures compliance with the indenture. In many cases, the trustee also acts as paying agent and is responsible for transmitting payments of interest and principal to the bondholders.

Underwriter: A broker-dealer that purchases a new issue of municipal securities from the issuer for resale in a primary offering. The bonds may be purchased either through a negotiated sale with the issuer or through a competitive sale.

9. DEBT SUMMARY

The District does not have any outstanding debt as of the date of the adoption of this Policy.

Note: The Securities and Exchange Commission (the “SEC”), the agency with regulatory authority over the District’s compliance with the federal securities laws, has issued guidance as to the duties of the District Harbor Commission with respect to its approval of the POS. In its “Report of Investigation in the Matter of County of Orange, California as it Relates to the Conduct of the Members of the Board of Supervisors” (Release No. 36761 / January 24, 1996) (the “Release”), the SEC stated that, if a member of the District Harbor Commission has knowledge of any facts or circumstances that an investor would want to know about prior to investing in the bonds, whether relating to their repayment, tax-exempt status, undisclosed conflicts of interest with interested parties, or otherwise, he or she should endeavor to discover whether such facts are adequately disclosed in the Official Statement. In the Release, the SEC stated that the steps that a member of the District Harbor Commission could take include becoming familiar with the POS and questioning staff and consultants about the disclosure of such facts.

STATEMENT OF POLICY

WHEREAS, the Legislature of the State of California has declared that the deposit and investment of public funds by local officials and local agencies is an issue of statewide concern (Cal. Gov. Code, §53630.1); and

WHEREAS, the legislative body of a local agency may invest surplus moneys not required for the immediate necessities of the local agency in accordance with the provisions of California Government Code §53600 et seq.; now

THEREFORE be it resolved, that it shall be the policy of the San Mateo County Harbor District ("District") to conduct its investments using the prudent investor standard, which provides that when investing, reinvesting, purchasing, acquiring, exchanging, selling, or managing public funds, a trustee shall act with care, skill, prudence, and diligence under the circumstances then prevailing, including, but not limited to, the general economic conditions and the anticipated needs of the agency, that a prudent person acting in a like capacity and familiarity with those matters would use in the conduct of funds of a like character and with like aims, to safeguard the principal and maintain the liquidity needs of the agency (Cal. Gov. Code, § 53600 et seq.).

SCOPE

This investment policy governs all money of the District. Money that is not required for the immediate needs of the District shall be invested in accordance with this Policy. The District does not currently have debt and therefore does not manage investment of debt proceeds. Prior to the issuance of debt the District shall revise this policy to incorporate methods used for the investment of such proceeds.

OBJECTIVES

When investing, reinvesting, purchasing, acquiring, exchanging, selling and managing public funds, the primary objectives, in priority order, of the investment activities shall be:

Safety

Safety of principal is the foremost objective of the investment program. The safety and risk associated with an investment refer to the potential loss of principal, interest, or a combination of these amounts. Investments of the District shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. Credit risk and interest or market risk shall be minimized. To attain this objective, diversification is required so that potential losses on individual securities do not exceed the income generated from the remainder of the portfolio.

Liquidity

An adequate percentage of the portfolio will be maintained in liquid short-term investments which can be converted to cash if necessary to meet disbursement requirements. A short-term investment is defined as any investment which matures within a one-year period. The investment portfolio will remain sufficiently liquid to enable the District to meet all operating requirements, which might be reasonably anticipated.

Yield

The investment portfolio shall be designed with the objective of attaining a market rate of return throughout budgetary and economic cycles, taking into account the investment risk constraints and the cash flow characteristics of the portfolio. Return on investments becomes a consideration only after the basic requirements of safety and liquidity have been met.

Public Trust

The District shall avoid any transactions that might impair public confidence.

DELEGATION OF AUTHORITY

Authority to manage the investment program is derived from California Government Code ("GOV") §§ 53600, et seq. Management responsibility for the investment program is hereby delegated to the Director of Administrative Services (in consultation with the Board Treasurer), who shall establish written procedures for the operation of the investment program consistent with this investment policy. Procedures should include references to: safekeeping, wire transfer agreements, collateral/depository agreements and banking services contracts, as appropriate. No person may engage in an investment transaction except as provided under the terms of this policy and the procedures established by the Director of Administrative Services. The Director of Administrative Services shall be responsible for all transactions undertaken and shall establish a system of controls to regulate the activities of subordinate staff. The Director of Administrative Services is a trustee and a fiduciary subject to the prudent investor standard. (Cal. Gov. Code, § 53600.3)

ETHICS AND CONFLICTS OF INTEREST

Harbor Commissioners and employees involved in the investment process shall refrain from personal business activity that could conflict with the proper execution of the investment policy, or which could impair their ability to make impartial investment decisions.

AUTHORIZED FINANCIAL INSTITUTIONS AND BROKERS/DEALERS

The Director of Administrative Services will maintain a list of financial institutions, selected on the basis of credit worthiness, financial strength, experience and minimal capitalization, and that are authorized to provide investment services.

Banks, savings associations, federal associations, or federally insured industrial loan companies shall have received an overall rating of not less than “satisfactory” in its most recent evaluation by the appropriate federal financial supervisory agency of its record of meeting the credit needs of California’s communities, including low- and moderate-income neighborhoods, pursuant to §2906 of Title 12 of the United States Code.

California Government Code §§53601.5 and 53601.6 shall apply to all investments that are acquired. In addition, a list will be maintained of approved security broker/dealers who are authorized to provide investment and financial advisory services in the State of California in accordance with Government Code §53601.5. For brokers/dealers of government securities and other investments, the Director of Administrative Services shall select only broker/dealers who are licensed and in good standing with the California Department of Securities, the Securities and Exchange Commission, the National Association of Securities Dealers or other applicable self-regulatory organizations.

Before engaging in investment transactions with a broker/dealer, the Director of Administrative Services shall have received from said firm a signed Certification Form. Third-Party Safekeeping:

All securities held by a third-party shall be evidenced by safekeeping receipts.

Internal Controls:

Internal controls are designed to ensure that the District is protected from theft, loss, or misuse. There is a control to protect against collusion by separation of duties, the safekeeping of securities and written confirmation of transfers between bank and investment accounts. Refer to District’s Policy 4.6.2 Cash Management Policy for additional details.

Delivery vs. Payment:

All security transactions entered into by the District shall be conducted on delivery-versus-payment on investment transactions. All investment transactions shall be conducted using standard delivery versus payment procedures. In delivery versus

payment, the District pays for the securities when they are delivered to the District or the District's custodian and ensures that the securities are deposited in an eligible financial institution prior to the release of payment.

GENERAL STRATEGY & DIVERSIFICATION

It is the policy of the District to diversify its investment portfolio. The District will diversify its investments to eliminate the risk of loss resulting from over concentration of assets in a specific maturity a specific issuer or a specific date of securities. Diversification strategies shall be determined and revised periodically.

The District participates in the State's Local Agency Investment Pool and the San Mateo County Investment Pool. Both pools are highly diversified and contain both actively managed investments as well as investments that are expected to be held to maturity. In addition, the Pools are required to comply with California Regulations.

PORTFOLIO MANAGEMENT ACTIVITES

Competitive Bidding

Investments shall be purchased from approved financial institutions or broker/dealers in accordance with this policy. A formal competitive bidding process is not required; however, the District will seek to obtain reasonable market pricing and execute transactions in a manner consistent with prudent portfolio management.

Reporting

The Director of Administrative Services shall submit to each member of the governing body a quarterly investment report in accordance with GOV §53646(b). The report shall include a complete description of the portfolio, the type of investments, the issuers, maturity dates, par values and the current market values of each component of the portfolio, including funds, investments, or programs managed by third party contractors. With respect to all securities held by the local agency, and under the management of an outside party that is not also a local agency or the LAIF, the report must include a current market value as of the date of the report and the source of the valuation.

In the case of funds invested in the San Mateo County Investment Fund, the Local Agency Investment Fund (LAIF), Federal Deposit Insurance Corporation-Insured accounts or county investment pools, current statements from those institutions will satisfy the above reporting requirement. The report will also include a certification that (1) all investment actions executed since the last report have been made in full compliance with the Investment Policy and, (2) the District will meet its expenditure obligations for the next six months. (Cal. Gov. Code § 53646(b)-(e)). The Director of Administrative Services shall maintain a complete and timely record of all investment transactions.

GASB Statement 31- Mark to Market

The Investment Portfolio will use the mark to market method of measuring the fair value of investments and shall report amounts on a timely quarterly basis as part of the reporting of the quarterly investment report.

Calculation of Yield and Costs

The yields and costs of a portfolio shall be measured in comparable ways.

The San Mateo County Pool Yield is calculated on an accrual basis using a 365-day calendar year. Earnings are calculated as follows:

$$\frac{(\text{Earnings}^* + \text{Capital Gains}) \text{ less } (\text{Fees} + \text{Amortized Premiums} + \text{Capital Losses})}{\text{Average Daily Pool Balance}}$$

* Earnings equal net interest payments + accrued interest + accreted discounts.

INVESTMENT POLICY ADOPTION/MODIFICATION

The Investment Policy was formally adopted by resolution 12-96 on June 5, 1996. The Policy shall be reviewed on an annual basis, and any modifications necessary must be approved by the San Mateo County Harbor District Board of Harbor Commissioners. Legislative changes shall be incorporated if relevant and shall specify the California Government Code sections that have been added, deleted or amended.

San Mateo County Harbor District

Policy Title: Reserve Policy	Number: 4.4.3	Approval Date: 4/15/2020
Other Revisions: 9/7/2016	Prepared by: Julie van Hoff	

STATEMENT OF POLICY

The San Mateo County Harbor District must maintain a prudent level of financial resources to guard its stakeholders against service disruption in the event of temporary unexpected revenue shortfalls or unpredicted one-time expenses. To meet this requirement, the District’s Enterprise Fund Reserves (Reserves) has been created and maintained to respond to unexpected adversity and/or opportunities. This policy has been established to provide the rules and procedures on how the District will manage Reserves. In addition, this policy is intended to document the appropriate Reserve levels to protect the District’s credit worthiness. Specifically, this policy establishes the amounts that the District will strive to maintain in its Reserves, how the Reserves will be funded, and the conditions under which the Reserves may be used

Definitions and Acronyms:

- 1) Capital Improvement Program (CIP)- A plan that describes the capital projects and associated funding sources the District intends to undertake in the current year plus five additional future years, including the acquisition or construction of capital facilities and assets, and the maintenance thereof.
- 2) Cash Balance- The sum of cash and Cash Equivalents of the District.
- 3) Cash Equivalents- In the context of cash flow reporting, short-term, highly liquid investments that are both readily convertible to known amounts of cash and so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. Generally, only investments with original maturities of three months or less meet this definition. For this purpose, “original maturity” means maturity as of the date the investment is acquired.
- 4) Enterprise Fund- Proprietary fund type used to report an activity for which a fee is charged to external users for goods or services.
- 5) Non-Recurring Item- An expense that has not occurred in the previous two years and is not expected to occur in the following year.
- 6) Enterprise Fund Reserves (Reserves)- Reserves refer only to the portion of Working Capital that is intended to provide stability and respond to unplanned events or opportunities.
- 7) Working Capital- An accounting term defined as current assets less current liabilities in a proprietary fund. Working Capital is used to express the Reserves available in a proprietary fund for use.

Policy:

- 1) Reserve Levels- The District will maintain a minimum level of Working Capital equivalent to 25% of the Operating Budget Appropriation adjusted to include 50% of biennial appropriations (e.g. election costs) and not include non-recurring appropriations. For purposes of this calculation Working Capital will include long-term investments that can be liquidated within five business days. The District will measure its compliance with this policy as of June 30th each year, or as soon as practical after final year-end account information becomes available.

If based on staff's analysis and forecasting, the target level of the Reserves is not being met or is likely to not be met at some point within a five-year time horizon, then during the annual budget process Working Capital levels will be provided to the Board of Commissioners. Should the projected year-end Working Capital position be below the minimum Reserve levels established based on the requirements outlined in this policy, a plan to replenish Reserves would be established based on the requirements outlined in this policy.

- 2) Cash Balance- In order to provide liquidity adequate to meet the needs and demands of providing government services including unanticipated reductions in revenues or unplanned increases in expenses, Reserve levels will be maintained and managed within the District's Cash Balance accounts. Reserves are intended to support this effort and provide cash during different annual cycles of payments due and revenues collected.
- 3) Funding Reserves- Funding will generally come from excess revenues over expenses or one-time revenues.
- 4) Conditions for Use of Reserves- It is the intent of the District to limit use of the Reserves to address unanticipated, non-recurring needs. Reserves shall not normally be applied to recurring annual operating expenses. Reserves may however be used to allow time for the District to restructure its operations in a deliberate manner (as might be required in an economic downturn), but such use will only take place in the context of an adopted long-term plan.
- 5) Authority Over Reserves- Approval from the Board of Harbor Commissioners is required to expend Reserves. Staff will regularly report both current and projected Reserve levels to the Board on a quarterly or semi-annual basis.
- 6) Replenishment of Reserves- In the event that Reserves are used resulting in a balance below the 25% minimum, a plan will be developed and included in the formulation of the five-year forecast presented during the annual budget process.

- 7) Excess of Reserves- In the event that the Reserves exceed the minimum balance requirements, at the end of each fiscal year, any excess Reserves may be used in the following ways:
 - a. Fund accrued liabilities including but not limited to debt service, pension, and other post-employment benefits as directed and approved within the long-term financial plan and the annual budget resolution. Priority will be given to those items that relieve budget or financial operating pressure in future periods.
 - b. Appropriated to lower the amount of bonds needed to fund capital projects in the District's CIP.
 - c. One-time expenses that do not increase reoccurring operating costs that cannot be funded through current revenues. Emphasis will be placed on one-time uses that reduce future operating costs.
- 8) Periodic Review of the Targets- At a minimum, during the budget process staff shall review the current and five-year projected Reserves to ensure they are appropriate given the economic and financial risk factors the District is subject to.

Internal Control Policy

A. This policy provides for the adequate separation of duties, including the following:

1. a receipt log of all cash/checks received will be prepared at least bi-weekly by a Customer Service Coordinators;
2. the Accountant shall review the deposit and ensures it reconciles with the deposit slip for cash/check deposits and confirms the payments are being posted to the correct general ledger account;
3. the Accounting Manager shall review and, if appropriate, approve the deposit;
4. the bank reconciliation will be prepared promptly after month-end by an employee with no authority to prepare or sign checks or authorize other debits against the account;
5. all invoices or requests for payment must be approved by an authorized person
6. all checks over \$50,000 must be signed by two authorized signers;

7. no employee can complete all four of the below processes in any cash transaction:
 - a) custody (control) of cash;
 - b) authorization or approval of the transaction;
 - c) recordkeeping of the transaction, or
 - d) reconciliation of the transaction.
- B. The District is audited annually, and any finding(s) are reported to the Board of Commissioners with simultaneous notice to the General Manager.
- C. Transfer of funds from the District's cash deposited in the Local Agency Investment Fund (LAIF) or the San Mateo County Investment Pool (SMCIP,) may only be made to the District's Checking Account. The requests for transfer out of LAIF or SMCIP shall be signed by either the Board President, or Board Treasurer, and the General Manager and shall be supported by detailed information which shall be maintained by District's Accounting Manager.
- D. To maximize interest earnings and manage district's cash flow needs, the Accounting Manager will strive to maintain a reasonable balance in the checking account to offset monthly bank charges, but at the same time recognize that surplus funds should be transferred as appropriate to LAIF or SMCIP.
- E. Templates for Fed-wire or Automated-Clearing House (ACH) Transfers out of the District's bank accounts may only be established by the Accounting Manager and must be approved by the Director of Administrative Services. Subsequent use of these Fed-wire or ACH templates shall require two employees – an initiator and an approving employee.
- F. The signing of any checks written on the accounts of the District or electronically paid will be in accordance with the District's Purchasing and Procurement Policy 4.3.1.
- G. A listing of all payments made by the District will be presented to the Harbor Commission for review on a monthly basis. The Harbor Commission will review this policy upon completion of each year's audit with input from its external auditor.
- H. Following are definitions of Electronic Payment Methods:
 1. Automated clearing house (ACH) – movement of funds in a batch process, which is best for high volume, low dollar transactions such as payroll, expense reimbursement, and routine vendor payments, as the cost per transaction is low relative to other forms of electronic payment.
 2. Fed-Wire transfer – immediate movement of funds between bank accounts with guaranteed settlement, which is most suitable for high dollar transactions because the cost per transaction is high relative to other forms of electronic payment.
 3. Purchasing (procurement) cards – a credit card transaction designed to reduce the volume of small dollar purchase orders issued, field purchase orders or to eliminate petty cash. Purchasing cards are used at the point of

sale, which is convenient for the employee and the customer, and payments are made in aggregate. Vendors that accept the payment will pay a processing fee. There is usually no cost to the District, and the issuing bank may provide a rebate based on transaction volume. In addition, restrictions can be put on the purchasing cards such as a per purchase dollar amount limit, dollar limits per transaction cycle and by MCC (merchant category code).

4. Electronic accounts payable –a credit card transaction, often without physical cards, that allows the District to pay invoices electronically. These payments are made during the normal accounts payable process, but the vendor or government has designated a preference to receive funds via the card instead of checks. As with purchasing cards, the vendor pays a processing fee, and the District may receive a rebate.
5. Automated Clearing House (ACH) debits – withdrawal of funds directly out of the government's bank account. This type of payment is usually requested by vendors who do repetitive business with the government such as benefit providers who have long term contracts with the government. Generally, a government should have debit blocks in place against ACH debits unless specifically identified by the government as trusted vendors.
6. Cryptocurrency – The District does not make payments through cryptocurrency vehicles, due to risk and volatility of that market. Cryptocurrency is “any form of currency that only exists digitally, that usually has no central issuing or regulating authority but instead uses a decentralized system to record transactions and manage the issuance of new units, and that relies on cryptography to prevent counterfeiting and fraudulent transactions:
 - I. Benefits to using the above electronic payments include:
 1. Eliminating the storage, handling, and processing of paper checks.
 2. Reducing the time spent on reconciliation.
 3. Eliminating the occurrence of lost or stolen checks and the cost and time spent on check reissuance.
 4. Reducing security risks, including the visibility of information used in check payment fraud.
 5. Improve the tracking of payments through enterprise resource planning (ERP) systems and integration with banking technologies.
 - J. The following are Cash Payment Methods that are used by the District and associated controls:
 1. Petty cash and change funds – Reconciliations are completed annually by the Accounting Technician and forwarded to the Accountant for review and

replenishment. Established verification procedures to prevent duplicate payments.

2. Check Payment Methods-Physical security over check stock and check copy retainage is ensured by the Accounting Manager. The Accountant submits positive pay records to the District's checking account which ensures that all checks presented for payment are only accepted by the bank if they are included in the positive pay record.

The District's checking account is reconciled by the Accountant within 10 days of receiving the monthly statement. In the event that a check has not cleared the bank within 12 months, the information is sent to the State of California as part of the escheatment process.

Protocols for using electronic and facsimile signatures are managed by the Accounting Manager.

Every member of the public has a right to inspect any public record, except those records exempted from disclosure under the Act. The District is not required to create a record in response to a public records request. In addition, the District is not required to respond to prospective requests by providing records not yet in the District's possession or records that will be created in the future.

Determination as to whether a requested record is a public record and available for inspection or copying, as well as decisions to withhold a record, will be made by the General Manager, in consultation with District Counsel as necessary.

The District will respond to every public records request in accordance with the Act. If a request does not reasonably describe an identifiable record, the requested record does not exist, or the record is exempt from disclosure, the District will respond and inform the requester. In order to assist a member of the public to make a focused and effective request, the District will make a reasonable effort to elicit additional clarifying information from the requester that will help identify the record(s).

To facilitate the District's compliance with the Act, all District employees and officials should adhere to the following requirements:

- To the greatest extent possible, emails that relate to District business should be sent to and from employees' and officials' "@smharbor.com" email

accounts. Ordinarily, no public business should be conducted on personal email accounts. If personal email accounts must be used for District business, employees and officials should (a) copy such an email sent from their personal account to their District email account and (b) forward any such email sent to their personal account to their District email account promptly upon receipt.

- Conducting District business via text messaging or via social media is discouraged. For those District employees or officials who are provided with a District telephone, text messages that relate to District business should be sent to and from the phone number associated with that phone and not from a personal phone number or other personal text messaging service (for example, WhatsApp).

Under the California Supreme Court's interpretation of the Act, communications that relate to District business may be public records even if such records are located on an employee's or official's private device or personal account:

- If a member of the public requests public records sent to or from an employee or official's personal account or private device, the District will forward the request to the employee or official.
- The employee or official will make reasonable efforts to locate responsive records and will provide such records to the General Manager, or designee, in a timely fashion.
- Determining what efforts are reasonable and what records are responsive will depend on specific facts and circumstances, but always in light of the public's rights under the Act.
- Employees and officials will seek guidance from the General Manager or District counsel when it is difficult to determine whether a particular record is a public record.
- Ultimately, the District will rely on its employees and officials in complying with the Act and so the District's compliance will in part depend on the cooperation of its employees and officials.

The General Manager is authorized to develop procedures, and to amend those procedures from time to time as may be necessary, consistent with this Policy and to ensure compliance with the Act. Only the Board of Commissioners is authorized to amend this Policy.

Policy	Number: 5.4.1	Date of Adoption: November 7, 2012 Effective date: January 1, 2013	Revision: July 1, 2015
Title: Event Policy	Prepared By: Glenn Lazof	Approved By: Harbor Commission	Page Page 1 of 12
Purpose: To establish guidelines for issuance of permits for events held on property owned and/or controlled by the Harbor District.			

Purpose

It is the policy of the San Mateo County Harbor District to establish a guide for the issuance of permits for events held on property owned and/or controlled by the Harbor District. The purpose of this policy is to provide for a process for evaluating, approving, and overseeing events to ensure the health and safety of event patrons, workers and other visitors, residents and District staff, to prohibit illegal activities from occurring at events, and to protect the rights of event permit holders and of the District.

Examples of events that may be permitted include, but are not limited to, parades, fairs, festivals, parties, weddings, organized athletic or sporting events and community celebrations and observances which involve use of, or have an impact on District facilities and operations which may require provision of District services. Events that have substantial adverse impacts on District facilities including harbor operations shall not be permitted without provision of acceptable mitigating measures.

It is also the intent of the San Mateo County Harbor District to protect the rights of the people to engage in expressive activities in the District's public places and to establish a reasonable time, place, management and regulation of these activities. It is further intended to create mechanisms for the recovery of District costs incurred in the course of reviewing, approving, overseeing, and providing services and facilities and to the extent authorized by law, while not unduly impacting the viability of permitted events.

Any organization, agency or individual wishing to sponsor or hold an event at a District facility or location will be required to complete the San Mateo County Harbor District Event Application and obtain a District event permit.

The San Mateo County Harbor District reserves the right to waive required fees for an event that is deemed to serve a significant District or other public interest as determined by the Board of Harbor Commissioners.

Costs incurred by the Harbor District to process applications and incurred as a result of the event will be billed to the applicant based on the costs of staff, equipment and facility use.

The Harbor District will review all complete applications. Application review may include consultation with the applicant, if necessary. To facilitate processing of applications, to reduce Harbor Commission and staff time, costs involved, and to make the process more responsive to the public, the District will distinguish two groups of events:

- (a) Events which are larger in scope and extent, because they involve large numbers of people, have substantial impacts on harbor operations, and District facilities and staff, and may involve multi-agency coordination; and
- (b) Events which are small in scope, and extent, and because they involve a limited number of people, are essentially private, and have minimal or no impact on District facilities and staff.

Events of type (a) require Harbor Commission review and approval. Events of type (b) require General Manager review and approval.

denying such permit, the General Manager or Harbor Commission shall approve the permit subject to all the general conditions required, plus any special conditions authorized and determined by the General Manager or Harbor Commission to be applicable to the event to address concerns for public health and safety, and/or to eliminate or significantly reduce potential negative impacts on harbor operations. Harbor District staff will be available to meet with event applicants to review these special conditions and ensure that all requirements and conditions, including provision of adequate insurance coverage are met before permits are approved. Harbor District staff or their agents(s) may be onsite during an event to ensure compliance with permit conditions.

Upon approval of the permit by the General Manager or Harbor Commission, the General Manager shall promptly cause a notice of such action to be provided to the applicant and to the Harbor Master. The General Manager shall issue a permit authorizing the event after the applicant has executed an indemnification agreement, provided proof of insurance coverage naming the District as Additional Insured and has completed and submitted a traffic control and parking plan, all as required by this policy as conditions precedent to the issuance of an event permit.

Conflicting Dates Resolution Process

In the event that two (2) or more event applications are received for the same date and time prior to the approval of either event, the date and time that each application was received by the Harbor District shall determine order of preference for receipt of permit. Once an event permit has been approved, it shall be the policy of the Harbor District to not approve further permits for the same date, time and general location, unless the events can be held without conflict and/or additional disruption or other negative impact on harbor operations. The Harbor District has the discretion to resolve date and time conflicts with applicants filing applications.

3. An application for another event to be held on the same date and in the same location as requested by the applicant has been previously approved or has been previously filed and may be approved; a license, franchise or other permit has previously been granted to another person for the use of the same location on the same date;

Policy Title:	Number:	Date of Approval:
Telecommuting Policy	6.1.15	05/20/2020
Other Revisions:	Prepared by:	
N/A	Julie van Hoff	

Statement of Policy

Telecommuting, also called “telework,” or performing work for one’s employer from home or a remote location, is an increasingly desirable employment model and a necessary model as proven during the 2020 COVID-19 Pandemic. High-speed internet connections, smart phones, and innovative telecommunications equipment routinely facilitate off-site work. Allowing employees the freedom to perform their job in locations other than on San Mateo County Harbor District (District) property can improve employee performance, productivity and morale; facilitate optimum utilization of District office facilities; allow for physical distancing requirements; promote employee health and wellness; improve air quality and traffic congestion; improve employee recruitment and retention; enhance the working life and opportunities of persons with disabilities; and effectively continue business as part of a disaster recovery or emergency plan.

Therefore, the purpose of this policy is to: (1) encourage employees who desire and are able to work from home or another remote location to discuss the feasibility of such an arrangement with their immediate supervisors; (2) develop a uniform policy for employees who work remotely; and (3) ensure that all telecommuting arrangements are in full compliance with applicable laws governing workplace safety, employee rights and responsibilities, and District policies.

1. Eligibility

Only employees whose job duties can be performed away from the District office (or other primary work location) may be considered for participating in a telecommuting program. In addition, other criteria shall be considered in determining whether to grant a specific request for telecommuting. These other criteria may include, but are not limited to, years of employment at the District; whether the employee’s past work performance has shown reliable and responsible performance of work duties over time; whether the employee can reliably provide alternative work space; whether the employee’s absence from the primary work location will disrupt the workflow of other employees and/or overall management of the District; and whether the employee can demonstrate full understanding of the requirements of this policy. Supervisors may use other reasonable criteria in addition to these examples.

Telecommuting during a probationary or introductory period shall not be granted because of the need to clarify job responsibilities with the employee and to assess the employee’s suitability for continued employment, and because of the employee’s need to establish relationships with co-workers. This provision may be waived as part of a disaster recovery or emergency plan.

Employee participation in telecommuting is normally voluntary and granted only at the discretion of the Director of Administrative Services in consultation with the employee’s

6.1.15 Telecommuting Policy

immediate supervisor. The District has the right to refuse to make telecommuting available to any employee. The District has no obligation to allow one employee to telecommute merely because another employee who performs the same or similar job duties has been approved for telecommuting. An employee may decline a suggestion to telecommute made by a supervisor. In the event of a disaster recovery or emergency plan, the declination by an employee to telecommute may lead to a furlough or layoff of the employee.

2. Work Schedule

All telecommuting work schedules are at management's discretion. Telecommunicating arrangements do not necessarily provide the employee with a flexible work schedule. The work schedule shall be consistent with the operational needs of the employee's work group and department and overall management of the District. As with any work schedule, management has the discretion to change or eliminate telecommuting arrangements to meet operational needs, or at the employee's reasonable request.

Telecommuters may be required to spend a minimum number of workdays per week or per month at their primary onsite work location. Operational needs may also demand the presence of a regularly telecommuting employee in the office on a regularly scheduled telecommute day, with or without advance notice. Management shall attempt to provide as much notice as possible to the telecommuting employee.

Telecommuters shall maintain regular contact with supervisors and co-workers by phone, e-mail, or other means while they are telecommuting. Unless granted express permission by the employee's immediate supervisor, employees shall expect to adhere to a regular workday schedule as if they were present in the office, and shall be in communication by phone, e-mail, or other means during those hours.

3. Meetings at the Telework Site

Telecommuting employees are not permitted to conduct in person work-related meetings at their remote worksites. Meetings must be conducted either onsite or through teleconferencing. Absent express written authorization from the telecommuting employee's supervisor, no other District employee is permitted to conduct District business at the remote worksite.

4. Benefits and Compensation

All benefits and compensation will be based on the employee's position, with no distinction made between telecommuting and onsite employees. All applicable contracts, agreements and policies governing an employee's position shall continue to apply in the telecommuting program.

5. Health and Safety

The District is committed to ensuring a safe worksite in compliance with the rules and

6.1.15 Telecommuting Policy

guidelines set forth by the Division of Occupational Safety and Health (Cal/OSHA). Employees who telecommute are responsible for designating one area in their home as the worksite. The employee's direct supervisor or other designated manager shall review the applicable health and safety rules with the employee, and the employee must complete a checklist and certify in writing that the worksite meets all of the requirements for a safe and healthy work environment. The employee must also certify in writing that, should any condition arise at the worksite so that the health and safety requirements are no longer met, or if any other hazardous condition occurs, the employee will notify his or her supervisor immediately and cease working at the remote worksite until the condition has been remediated. The employee shall not be permitted to resume telecommuting from the remote worksite without the express authorization of his or her supervisor.

Upon reasonable notice, management has the right to inspect the employee's designated worksite. If the employee refuses such a request, he or she may not be allowed to continue telecommuting. Management reserves the right to refuse or rescind a telecommuting agreement based on the employee's failure to adhere to the guidelines, or if a supervisor or other manager makes the reasonable assessment that the employee's worksite poses a health or safety risk.

If an employee incurs an injury or illness in the course or scope of employment while telecommuting, Workers' Compensation laws apply. Employees must immediately notify their supervisor and complete all necessary paperwork as required by the District.

Actions that the telecommuter may take during break periods from working and actions not directly related to the approved remote worksite will not be covered under Workers' Compensation. These non-covered actions include, but are not limited to, all actions that the employee would not be able to perform in his or her District office, such as caring for children or pets, domestic tasks, yard work, retrieving the mail, cooking, exercising and interacting with non-District employees for non-business purposes.

The District shall in no instance be liable for injuries to third persons, including members of the telecommuting employee's family, who enter the employee's worksite or otherwise interact with the employee or use his or her home office equipment.

The District understands that compliance with the health and safety provisions of this policy does not necessarily provide the reasonable accommodations required by employees with disabilities. Telecommuting employees with disabilities shall be entitled to the same rights and accommodations they would be entitled to under all applicable state and federal laws and District policy. Telework may be provided as a reasonable accommodation, and such arrangement is addressed in a separate reasonable accommodation policy.

6. Performance Standards and Evaluation

An employee participating in a telecommuting arrangement is accountable under the same performance standards as employees working onsite. As in "regular" office assignments, supervisors and employees should discuss and understand what is expected to be produced

6.1.15 Telecommuting Policy

during telecommuting hours and when assignments are due. Supervisors and employees should also arrange when and how to make contact with each other on telecommuting days. Employee performance must remain satisfactory or above to participate in the telecommuting program.

7. Business Expenses and Reimbursement

To the greatest extent practical, employees will use District issued equipment and supplies. Expenses incurred as a result of telecommuting for the convenience of the employee, will not be reimbursed by District unless they are normally reimbursable pursuant to District policies, or pre-approved in advance at the sole discretion of the employee's supervisor. Such non-reimbursable expenses include, but are not limited to, utility costs, computer repair or replacement, purchase of office equipment or furniture, and travel to and from the primary District worksite if required to be onsite.

Telecommuting employees may, and are encouraged, to use District office equipment and supplies at any time, according to need. For example, a telecommuting employee is allowed to come to the District's office to use printing and copying equipment, obtain administrative assistance, or use other office resources to which the employee would have access if he or she was working onsite. With the advance approval of the employee's supervisor, a telecommuting employee may be permitted to take District office supplies to his or her remote worksite to facilitate productivity. Such supplies may include printer paper, pens and pencils, or other miscellaneous office-related items. Employees should not remove any item from District property to use offsite without the express permission of their supervisor.

Employers are obligated to reimburse employees for all "necessary expenditures or losses" the employees incur in carrying out their job duties. Reimbursement may be necessary under California law even when an employee does not incur additional out of pocket costs. Expenses that are reimbursable include but are not limited to a portion of WiFi, internet, and cell phone services.

8. Use of Personal Computers, Smart Phones and Other Technology

Telecommuting employees using their personal computers, internet connections, smart phones and other technology are responsible for ensuring and certifying that they meet the same security standards as if they were using District technology. The District's information technology consultant will assess whether the employee's remote worksite ensures the level of security required by the District. At the supervisor's discretion, the telecommuting employee may be required, as a condition of telecommuting, to establish a secure internet connection, install enhanced password protection or encryption software, keep confidential materials in a locked or otherwise secured location, restrict non-employees' (such as family members') usage of computers or smart phones used for District business, and any other measure required to maintain District's information security standards.

Any and all policies governing employee usage of District computers, internet connections and mobile devices shall apply to telecommuting employees when they are using their

6.1.15 Telecommuting Policy

personal equipment in the course and scope of employment, and when they are using District technology at any time. Employees using District technology or conducting District business on personal devices have no expectation of privacy.

9. Equal Opportunity

This policy does not alter the District's commitment to maintaining an equal opportunity, discrimination-free workplace. All District policies, as well as all state and federal laws, governing the District's anti-discrimination policy apply uniformly to telecommuting and onsite employees.

10. Harassment-Free Workplace

This policy does not alter the District's commitment to maintaining a harassment-free workplace. All District policies, as well as all state and federal laws, governing the District's anti-harassment policy apply uniformly to telecommuting and onsite employees.

Any employee who feels they have been subjected to harassment in the course of performing District business should report the incident in accordance with the District's anti-harassment policy. Investigations of alleged harassment shall be conducted in the same manner for telecommuters as for onsite employees, regardless of where the incident occurred.

11. Approval Process

Employees who wish to telecommute are encouraged to contact their immediate supervisor to discuss the feasibility of such an arrangement. Employees may arrange to telecommute regularly, or on an as-needed basis. Same-day requests for telecommuting cannot be granted unless the employee has already certified to a safety-compliant worksite and discussed information security with his or her supervisor.

All telecommuting arrangements are subject to ongoing review and may be revoked at any time. Nothing in this policy shall grant a telecommuting employee any rights he or she would not have if working onsite, nor shall it limit his or her rights under all applicable District policies and state and federal laws.

I understand, acknowledge and agree to abide by all of the provisions contained in this policy.

Policy Title: Personal Electric Vehicle/Vessel Charging Policy	Number: 6.1.16	Date of Approval: September 17, 2025
Other Revisions: n.a.	Prepared By: Julie van Hoff	

Purpose:

To establish guidelines for the equitable and appropriate use of San Mateo County Harbor District's (District) electric vehicle/vessel (EV) charging stations by employees for charging personal EVs, in compliance with applicable laws governing the use of public resources.

Scope:

This policy applies to all employees of District who wish to use the District owned EV charging infrastructure to charge personally owned electric vehicles/vessels.

Policy:

1. General Use

- When commercially available EV charging stations are located within ½ mile of the employee's regular work location, employees are expected to use those public charging options instead of charging personal vehicles at District facilities.
- EV charging stations located at District facilities are primarily intended to support District operations, including District-owned vehicles and vessels.
- Only employees who have received written authorization may charge personal vehicles/vessels at EV charging stations located at District facilities.
- Use of EV charging stations located at District facilities by employees for personal EV charging is a secondary use and may be restricted or revoked at any time.

2. Authorization and Registration

- Employees must register their personally owned EV with the Harbormaster for Operating Engineer covered employees or Administrative Manager for Teamster covered employees and agree to comply with this policy before using the charging stations.
- Registration includes providing make, model, and license plate number of the EV.

3. Cost Recovery

- In accordance with applicable public agency rules regarding the use of public resources, personal EV charging must not be subsidized by the District.
- Employees will be charged a flat fee for the District to fully recover the cost of electricity and administrative overhead. The current rate is \$35 per use regardless of time used. This is calculated using the assumption that the employee will fully charge their vehicle/vessel and the current limitations of metering on EV charging areas.
- Fees must be paid to the Customer Services Representative. Nonpayment will result in loss of access.

4. Use Limitations

- Charging sessions may be limited to a maximum of 5 hours or until the vehicle/vessel is fully charged, whichever occurs first.
- Employees must move their vehicle/vessel promptly after charging is complete to allow access for others.
- Use of extension cords or unauthorized outlets is strictly prohibited.

5. Priority of Use

- District owned vehicles/vessels have first priority at all times.
- The District reserves the right to block employee use during business hours or other operational periods as needed.

6. Liability

- The District is not responsible for any damage, loss, or theft related to personal vehicles/vessels while parked or charging on District property.
- Use of the charging station is at the employee's own risk.

7. Compliance and Enforcement

- Misuse of the charging infrastructure, including not paying or overstaying time limits, may result in loss of charging privileges and/or disciplinary action.
- This policy will be enforced by District Managers.

B. The scope of negotiation between management representatives and the representatives of recognized employee organizations includes wages, hours, and other terms and conditions of employment affecting the employee representation unit, or units represented by the employee organization with which the Harbor District is meeting and conferring at the time.

REQUIREMENTS FOR RECOGNITION OF EMPLOYEE ORGANIZATIONS

An organization which wishes to be recognized as an employee organization shall submit to the General Manager a request signed by a duly authorized officer of the organization and containing the following information:

- A. Name and address of the employee organization.
- B. Names and titles of its officers, as well as designation of the officials authorized to act as representatives of the organization in employer-employee relations with the Harbor District.
- C. A statement of whether or not the organization is a chapter or local office, or affiliated with a regional, state, national or international organization, and, if so, the name and address of each such regional, state, national or international organization.
- D. A statement that the organization includes employees of the Harbor District along with proof that a majority of these employees are members and have designated the organization to represent them. Proof of employee approval which must be supplied is defined in Section III (O) of this policy. The subsection does not apply to employee organizations which are receiving dues deductions through Harbor District payroll.

E. A certified copy of the organization's constitution and/or by-laws and, if not contained in the constitution or by-laws, a statement that the organization has, as one of its purposes, representation of Harbor District Employees in their employer-employee relations.

F. A designation of the names and addresses of no more than three (3) persons to whom notices sent by regular United States mail will be deemed sufficient notice to the organization for all purposes.

G. A statement that the organization recognizes Government Code Section 3509.

H. A statement that the organization has no restriction on membership based on race, color, religion, national origin, sex or handicap.

I. A statement that the organization agrees to abide by all of the provisions of this policy except that this shall not preclude the right of the organization to challenge by court action any provisions it deems to be invalid.

RECOGNITION OF EMPLOYEE ORGANIZATION

A. Upon receipt of all the information required by Section VII of this policy the General Manager shall either notify the organization that it has been duly recognized as an employee organization, or may call for a secret ballot election.

B. The Harbor District is under no obligation to consult with employee organizations which do not satisfactorily comply with the requirements of Section VII, and subsection "VIII C."

C. A recognized employee organization shall report in writing to the General Manager within ten days any changes in the facts submitted pursuant to Section VII.

When an employee organization which has been recognized in accordance with this policy no longer is designated by any employees as their representative, the organization shall promptly notify the General Manager, who will thereupon terminate the organization's recognition. Following initial recognition, the General Manager may require verification of proof that an organization continues to represent one or more employees of the Harbor District.

D. If, in the opinion of the General Manager, a decision of the Harbor Commission has the result of moving from one representation unit to another, a sufficient number of employees to possibly affect the representative status of the recognized employee organization representing the unit from which or to which such employees were transferred, a secret ballot election shall be held to determine the wishes of the employees remaining in the unit from which or to which other employees were transferred. Any recognized employee organization may be listed on said secret ballot if that organization has petitioned for a place on said ballot and submitted proof to the General Manager (as defined in subsection "III O"), signed by at least 51% of the employees in the unit. The ballot submitted to said employees shall include a no representative organization choice.

E. Notwithstanding any other provisions of this policy, should the decision of the Harbor Commission have the result of moving some employees from one representation unit to another, and should the General Manager believe that such a decision raises a question concerning the continuing representative status of any recognized employee organization, the General Manager shall so advise the Harbor Commission. The Harbor Commission shall designate a representative to meet with the recognized employee organization for the purpose of investigating whether or not a substantial question of representation exists. If, on the basis of such investigation, the General Manager concludes that a substantial question of representation exists, he/she may direct that an election be held in either the unit from which employees were moved or in the unit to which employees were moved; or both units for the purpose of determining employee's wishes, concerning the employee organization to represent them. The choice shall be by secret ballot and any recognized employee organization may be listed thereon if it has petitioned for a place on said ballot and submitted proof, as described in subsection "E" above. The ballots submitted to the employees shall include a no representative organization choice.

F. Should the decision of the Harbor Commission have the result of moving some employees from one representation unit to another, such employees will continue to work at the rate of pay, and under the same terms and conditions of employment which they had in the unit from which they were transferred until the Memorandum of Understanding for the unit from which they were transferred shall expire.

CRITERIA FOR ESTABLISHING AND MODIFYING REPRESENTATION UNITS

In determining the appropriate employee representation units the following factors, among others, shall be considered:

- A. Minimizing fragmentation of units by achieving the largest feasible group of employees having a community of interest.
- B. The effect of the proposed unit on the efficient operation of Harbor District services and employee relations.
- C. The history of employee relations in the unit, among other employees in the Harbor District, and in similar public employment and private industry.
- D. Similarity of duties, skills, wages, and working conditions of employees.
- E. Whether management officials at the level of the unit have the power to agree or to make effective recommendations to other administrative authority, to the Harbor Commission with respect to wages, hours, and other terms and conditions of employment subject to negotiation.
- F. The effect on the existing classification structure of dividing a single classification among two (2) or more units.
- G. Professional employees shall not be denied the right to be represented separately from non-professional employees by a professional employee organization consisting of such employees.
- H. Management and confidential employees shall not be included in the same unit with non-management or non-confidential employees. Supervisory employees and non supervisory employees may be included in the same unit. Supervisory employees shall not represent a recognized employee organization in negotiating with management representatives where conflict of interest may occur as determined by the General Manager, subject to appeal to the Harbor Commission.
- I. All petitions for modification of units shall be set for hearing before the Harbor Commission, which shall make the final determination on the appropriateness of all units. In making such determination, the Harbor Commission shall not be limited to consideration of the unit or units requested, provided, however, that if the Harbor Commission is considering the establishment of a representation unit other than one described in a petition, the following procedure shall be followed:
 - 1. The Commission shall set a date when it will act on establishing the representation unit or units, and shall direct the General Manager to cause timely notice of the date and purposes of said hearing to be given to all employees whose removal is being considered, and to all recognized employee organizations.
 - 2. At the time set for the hearing, the Commission shall afford all persons present an opportunity to be heard on the question of establishing the representation unit or units which were not described in a petition or petitions.
 - 3. After all persons who wish to be heard on the matter have been afforded an opportunity to be heard, the Commission shall render its decision on establishing the representation unit or units.

CERTIFICATION AND DECERTIFICATION OF A RECOGNIZED EMPLOYEE ORGANIZATION

A. Any organization which seeks recognition as the recognized employee organization for a representation unit which has been requested or already established shall file a petition with the General Manager at any time. The petition shall be accompanied by proof, as defined in subsection "III O", that the organization represents at least 51% of the employees in the representation unit. The General Manager shall give notice of any request for certification or decertification to the employees in the unit, to any employee organization currently certified as the representative of the unit, and to any employee organization that has filed a request for such notice. The General Manager shall give such notice within five (5) working days following receipt of the request. Upon determining that the petitioning employee organization represents at least 51% of the employees in the representation unit, the General Manager shall notify any employee organization which has requested such notice and shall arrange for a secret ballot election to ascertain the free choice of a majority of such employees. Any other employee organization shall be shown as one choice on the ballot upon filing of a petition and presentation of proof, as defined in subsection "III O", that the organization represents at least 51% of the employees in the representation unit. Such petition for a place on the ballot must be filed within seven (7) calendar days after notice of the petition for election has been mailed by the General Manager to the employees. In all certification or decertification elections the choices on the ballot shall be:

1. the currently recognized employee organization for the unit (if any), unless such organization requests that the General Manager not place it on the ballot;
2. challenging employee organizations;
3. and no representative organization.

B. In an election where there are more than two choices on the ballot and none of the choices receives a majority of the votes cast by the employees within the representation unit, a run-off election shall be conducted between the two choices receiving the largest and second largest number of votes.

C. Employees entitled to vote in a representation election shall be those permanent, provisional, probationary or unclassified employees in permanent positions as defined in subsection "III E" within the representation unit who have been employees for at least fifteen days prior to the date of the election. Employees who did not work during the above described time period because of illness, vacation, or authorized leave of absence, and who are otherwise eligible, shall be permitted to vote.

D. The recognized employee organization shall be representative of all the employees in such unit for purposes of meeting and conferring in good faith on matters within the scope of representation. This shall not preclude other employee organizations, or individual employees, from consulting with management representatives on employer-employee relations matters of concern to them.

E. Provided that at least 36 months have elapsed from the most recent date of certification of said organization, requests for decertification of that employee organization may be initiated by a petition from employees or by any employee organization. Such request shall be processed only if filed no sooner than 135 and no later than 90 calendar days before the expiration of the then current Memorandum of Understanding or agreement covering the unit for which decertification is requested. A petition for decertification shall be submitted to the General Manager during the month of January and must be accompanied by proof of employee approval as defined in subsection "III O", of at least 51% of the employees within the representation unit. The General Manager shall give notice and arrange for a secret ballot election in the manner set forth in subsection "X A".

F. Notwithstanding any other provisions of this policy, the Harbor District may seek decertification of an employee organization at any time that it appears to the General Manager that such action is warranted because of substantial changes in Harbor District functions, organizational structure or classifications. In such a case the General Manager shall arrange for a secret ballot election in the manner provided for in subsection "X A"; provided, however, that no such election shall be held until the employee organization then recognized as the representative of the unit or units involved, has been given at least 60 days notice

of the date which the election will be held. Any organization may be listed on said ballot if said organization petitions for a place thereon and submits proof, as defined in subsection "III O", that the employee organization represents at least 51% of the total number of employees in the representation unit or units affected by the election. The ballot shall contain a no representative organization choice.

G. The General Manager shall certify the choice of representation as indicated on the ballot which receives a majority of the valid ballots cast by the employees in the representation unit. Notification of certification shall be made to the Harbor Commission and to employees in the unit or units being represented, challenging employee organizations, and such other persons or organizations as the General Manager deems appropriate. The General Manager may refuse to certify the winner of an election as the recognized employee organization for that unit or units if he/she concludes that the winner of such election has coerced, intimidated, or grossly misled employees in securing or attempting to secure their votes. Such refusal by the General Manager to certify an employee organization on these grounds shall be referred to the Harbor Commission for review at an open meeting at which all interested parties shall be afforded an opportunity to be heard. The Commission shall either require the General Manager to certify the winner of the election as the recognized employee organization for that unit or units, or uphold the determination of the General Manager and require him/her to arrange for another election.

CLOSED SESSIONS

Nothing in this policy shall be interpreted as preventing, or limiting, the right of the Harbor Commission to hold closed sessions with the General Manager, or other duly designated management representatives, prior to and during consultations and discussions with representatives of employee organizations regarding the salaries, salary schedules, or compensation paid in the form of employee benefits in order to review its position and instruct its designated representatives.

NEGOTIATIONS

A. Only recognized employee organizations in established representation units shall be entitled to negotiate with duly designated management representatives on wages, hours, and other terms and conditions of employment for the employees in such units.

B. Negotiations shall not be required on any subject pre-empted by Federal or State law, nor shall negotiations be required on Employee or Harbor District Rights defined in Sections IV and V. Proposed amendments to this policy are excluded from the scope of negotiation, but shall be subject to consultation in good faith after reasonable notice.

C. Agreements reached as a result of negotiations shall be included in a Memorandum of Understanding signed by the General Manager as well as the duly designated representatives of the recognized employee organizations. Such Memoranda of Understanding shall not be binding unless approved by the appropriate governing bodies of the Harbor District and the recognized employee organization.

IMPASSE PROCEDURES

Impasse procedures may be invoked only after all other attempts made by both parties to reach agreement through good faith negotiation have been unsuccessful.

A. Impasse Meeting: Any party involved in the negotiation of specific issues may invoke the impasse procedure by filing with the other party (or parties) affected a written request for an impasse meeting together with a statement of its position on the disputed issues. An impasse meeting shall then be promptly scheduled by the parties involved. The purpose of such impasse meeting is to permit review of the position of all parties in a final good faith effort to reach agreement on the disputed issues.

B. If agreement is not concluded at the impasse meeting, the parties together may mutually agree upon mediation as defined in Section III. Unless the parties in writing mutually request them to do so,

The San Mateo County Harbor District plays an important role in the community, interacts with customers and members of the public, and is held accountable for the behaviors and actions of its employees and Commissioners. A fair and non-discriminatory harassment prevention policy is an important part of that accountability and is required under California law.

Therefore, the District is committed to providing a workplace free from any form of unlawful harassment, discrimination, intimidation, or abusive conduct. This policy sets expectations of behaviors aligned with the District's values and supports positive working relationships and a professional work environment. This policy also defines various forms of harassment and unacceptable behavior and identifies the parties responsible for reporting, investigating, and responding to any reports of harassment.

This policy will be provided to all employees and Commissioners and will be available via the Commissioners' policy book, employee handbook, and the District's website.

A. Coverage

This policy applies to all District employees, including all members of the District Board of Harbor Commissioners, and anyone performing work for the District, including independent contractors, volunteers, and interns. The District will not tolerate its employees engaging in harassing or abusive conduct towards any person while the employee is acting in his or her official capacity, during work hours, or while participating in any District activity. The District will take all reasonable and lawful measures to protect its employees from unlawful harassment by any non-employee if the harassment occurs in connection with the employee's performance of his or her work for the District or while engaged in District business.

If the District receives a complaint regarding an independent contractor engaging in behavior that would violate this policy, it will take immediate steps to investigate the complaint and, if appropriate, may remove the contractor from performing work for the District.

B. Definitions

1. "Employee" means any individual performing services for the District, whether paid or unpaid, and acting under the direction and control of the District. "Employee" also includes Commissioners.
2. "The District" (or the "District" or "we") means the San Mateo County Harbor District.
3. "You" means employees and others covered by this policy.
4. "Investigator" means a person with the skills, experience, and proficiencies in examining, reviewing, and scrutinizing harassment and discrimination claims such that the investigator is competent to complete the work and provide a written report to the District.

C. Requirements

The District strictly prohibits and does not tolerate unlawful harassment of any kind.

It is the District's policy that everyone should work in an environment free from unlawful harassment. Approval of, or participation in, unlawful harassment will be considered a violation of this policy. This policy prohibits conduct that violates anti-harassment laws or is not aligned with the District's values, policies, or behavioral expectations. This includes conduct in any work-related setting, whether on the District premises, during working time, or while participating in District activities outside the workplace such as District social events and travel.

Conduct prohibited by this policy includes, but is not limited to, unwelcome and offensive conduct, whether verbal, physical, or visual, that is based upon race, religious creed (including religious dress and grooming practices), ethnicity, color, ancestry, age (40 and over), genetic information, disability (mental and physical, including HIV and AIDS), medical condition (cancer/genetic characteristics & information), national origin (including language use restrictions), sex (which includes pregnancy, childbirth, breastfeeding and medical conditions related to pregnancy, childbirth or breastfeeding), gender (including gender identity and gender expression), sexual orientation, marital status, familial status, parental status, domestic partner status, citizenship status, pregnancy (including perceived pregnancy, childbirth, breastfeeding or related medical conditions), military caregiver status, military status, veteran status, use of or request for family and medical leave, or any other status protected by federal, state, or local law.

The District will not tolerate harassing conduct that affects the terms and conditions of employment or tangible job benefits, interferes with work performance, or creates a hostile, intimidating, or offensive work environment. Further, it is a violation of this policy to engage in abusive conduct, as defined by Government Code section 12950.1(i)(2): conduct of an employee in the workplace, with malice, that a reasonable person would find hostile, offensive, and unrelated to the employer's legitimate business interest. Abusive conduct may include repeated infliction of verbal abuse, such as derogatory remarks, insults, and epithets, verbal and physical conduct that a reasonable person would find threatening, intimidating, or humiliating, or the gratuitous sabotage or undermining of a person's work performance. A single act shall not constitute abusive conduct unless especially severe or egregious.

Prohibited harassment may take different forms:

Sexual Harassment

Sexual harassment is defined as unwelcome sexual advances, requests for sexual favors, and conduct of a sexual nature in the workplace or in the course of conducting District-related business and the following occurs:

1. Submission to, or tolerance of, such behavior is made a condition of employment; or
2. Submission to, tolerance of, or rejection of such behavior is used as the basis for an employment-related decision (e.g., hiring, promotion or demotion, pay raises, etc.); or

Policy 6.2.5 – Sexual & Unlawful Harassment Policy

3. Such behavior interferes with an employee's ability to perform District work, or creates an intimidating and hostile work environment.

Sexual harassment may be a single incident or a series of harassing acts. Inappropriate conduct that is sexually harassing in nature can involve individuals of the same or opposite sex, a supervisor (or manager) and subordinate, or co-workers of any rank or title. While the District cannot control the conduct of non-employees engaging in District-related business (e.g., customers, contractors, vendors, suppliers, etc.), the District is committed to protecting its employees from harassment by third parties and will respond promptly to employee complaints and take action to the extent permitted by law to ensure a harassment-free workplace.

Sexual harassment may result from a range of subtle to not-so-subtle conduct, depending on the circumstances and can cause emotional distress, anxiety, and other mental harm. It can result from verbal, visual, or physical conduct. Examples of sexual harassment and similar inappropriate conduct prohibited by this policy include, but are not limited to:

1. Unwelcome sexual advances, demands, pressures, or requests for sexual acts or favors.
2. Making or threatening reprisals, whether explicitly or implicitly, after a negative response to sexual advances.
3. Repeated, unwanted sexual flirtations, advances, or propositions.
4. Unwelcome physical contact such as patting, hugging, grabbing, pinching, or brushing against another's body.
5. Offensive visual conduct, including leering, making sexual gestures, or the display of sexually suggestive objects, pictures, artwork, cartoons, or posters.
6. Offensively suggestive or sexually explicit communications in any form, including but not limited to letters, notes, invitations, email, text messages, social media platforms (if work-related or directed towards a District employee), blogs, instant messaging, or voicemail.
7. Sexually-oriented verbal teasing or jokes, inquiries into one's sexual experiences, or discussions of one's sexual activities.
8. Graphic or degrading comments about an individual's appearance or sexual activity.
9. Sexually explicit or offensive images in emails or other forms of electronic messaging.

The legal definition of sexual harassment is broad and, in addition to the above examples, other unwelcome sexual conduct that has the effect of creating a workplace environment that is hostile, offensive, chilling, intimidating, or humiliating to other workers may also constitute sexual harassment.

Other Forms of Harassment

The following is a non-exhaustive list of additional behaviors based upon protected categories listed in Section C above that will be considered harassment and are prohibited by this policy:

1. Derogatory and defamatory comments, epithets, slurs, or jokes.
2. Posting or sharing derogatory materials such as posters, cartoons, drawings, or gestures.
3. Aggressive or unwelcome physical conduct such as assault, blocking normal movement, restraint, touching, or other physical interference.
4. Abusive conduct, including but not limited to threats, intimidation, coercion, excessive ridicule, insults, or belittling, carried out with malice and not for a legitimate business reason.
5. Spreading false, vicious, or malicious rumors.
6. Other behavior that creates a workplace where an employee reasonably feels threatened, humiliated, intimidated or bullied in the workplace.
7. The sabotage or intentional undermining of a person's work performance.

D. Reporting, Investigation, and Findings

1. Reporting

You must report any violations of this policy that you experience or witness. If you believe in good faith that you have been subjected to, witnessed, or otherwise learned of harassment (or any other conduct prohibited by this policy) by anyone, including supervisors, managers, Commissioners, co-workers, or non-employees conducting business with or for the District, you must immediately report the incident.

Verbal or written reports may be made to your supervisor, the Director of Administrative Services, or the General Manager. You are not required to report directly to your supervisor, or to any person engaging in the unwelcome behavior or any other person who is the subject of the report. You can also report a violation to the Department of Fair Employment & Housing ("DFEH") <https://www.dfeh.ca.gov> or the U.S. Equal Employment Commission ("EEOC") <https://www.eeoc.gov>.

Supervisors or managers who receive reports or observe harassing conduct must immediately report it to the Director of Administrative Services or the General Manager. If the Director of Administrative Services is implicated in the report or observation, the conduct may be reported to the General Manager. If the General Manager is implicated, the conduct may be reported to the District's General Counsel. Supervisors and managers should maintain employee privacy to co-workers and not engage in gossip or discussion that could impact any investigation.

2. Investigation

When the District receives a complaint of harassment (or other conduct prohibited by this policy), it will conduct a fair, timely, and thorough investigation of the allegation

Policy 6.2.5 – Sexual & Unlawful Harassment Policy

that provides all parties appropriate due process and reaches reasonable conclusions based on the evidence collected. The alleged victim of a harassment complaint shall be updated monthly on the status of the administrative investigation, limited to reporting the investigation is “still active” or “complete pending review.”

Where practicable, the investigation will be conducted by the Director of Administrative Services or his/her designee. The investigation must be thorough and include examining all relevant documents, interviewing witnesses, analyzing witness statements, performing any necessary research, inspecting physical property, and performing any other aspects of the investigation required to create findings and recommendations.

If a complaint involves the Director of Administrative Services, the General Manager, or a Commissioner, or if the nature of the allegations would make it difficult for the Director of Administrative Services to be impartial in the investigation, the District Board of Harbor Commissioners will designate an independent investigator, and take action up to and including hiring outside counsel, subject matter experts, or other professionals to investigate, examine documents, interview all witnesses, analyze witness statements, perform research, inspect physical property, and perform any other aspects of the investigation that can be required to create findings and report to Commissioners. Not all such actions will be appropriate for every investigation, and how each investigation is handled will depend on the nature and severity of the allegations.

3. Guidelines

The investigation will be conducted in such a way as to maintain confidentiality to the extent practicable under the circumstances. While absolute confidentiality cannot be guaranteed, the District recognizes the importance of its employees' privacy and acknowledges that employees are more truthful and forthcoming in investigations when they can speak without fear of public exposure.

4. Findings

When the investigation is completed, the person filing the complaint and the person alleged to have committed the conduct will, to the extent appropriate, be informed, both verbally and in writing, of the results of that investigation. If it is determined that a violation of policy occurred, appropriate remedial measures will be taken, up to and including termination or a request for resignation.

E. Non-Retaliation

One of the most important protections for employees is being free from retaliation after making a complaint, providing witness information, or participating in any way in an investigation. The District strictly prohibits retaliation in any way against anyone who has lodged a harassment complaint, has expressed a concern about harassment, including sexual harassment, or has participated in a harassment investigation. Further, the initiation of a truthful complaint made in good faith, shall not under any circumstances be grounds for discipline. It is a violation of the District's policy for an individual to be disciplined or otherwise disadvantaged or harmed because of their activities related to a harassment complaint or investigation.

Policy 6.2.5 – Sexual & Unlawful Harassment Policy

Persons engaging in any form of retaliation or retribution against any witness or complainant will be subject to disciplinary action, up to and including termination, censure, or a request for resignation.

F. Annual Report

It is important for accountability that the District actively track complaints, investigations and resolutions. To that end, the District will publish a report annually identifying the following information:

1. Number of complaints received;
2. Type of complaint received;
3. Status of accused (employee, contractor, volunteer, Commissioner);
4. Number of investigations initiated;
5. Number of open investigations;
6. Number of completed investigations; and
7. Resolution of each closed investigation, limited to “allegations were supported by the investigation” or “allegations were not supported by the investigation.”

No personal identifiable information shall be included in the annual report.

The report shall be reported out to the Board of Harbor Commissioners in February each year at the regularly scheduled Board Meeting.

Title: Salary/Wage Advancement	Prepared By: P. Grenell	Approved By: Resolution 28 — 97	Page: Page 1 of 1
Purpose: To establish merit-based criteria, procedures and incentives for salary/wage advancement.			

1. STATEMENT OF POLICY

The provisions of this policy apply to all employees of the San Mateo County Harbor District not covered by a labor agreement including the Memorandum of Understanding (MOU) between the District and the Operating Engineers Union Local 3. Employees covered by a labor agreement, including said MOU between the District and Local 3, shall be provided for by the terms, conditions, and procedures of said labor agreement.

No later than April 30 of each fiscal year and as an integral part of each employee's annual performance evaluation, the General Manager will review each employee's evaluation performed by the employee's supervisor, and notify the employee's supervisor as to approval or disapproval. The supervisor will then inform the employee of the General Manager's decision. If the employee has not been notified of the General Manager's decision in accordance with Policy Number #6.3.1 by April 30th, the employee's evaluation shall be considered satisfactory; however, this shall not preclude any wage advancement if it is so recommended on the evaluation. The employee may appeal the decision to the General Manager and, if an impasse is reached, appeal the General Manager's decision to the Board of Harbor Commissioners, which shall have final decision authority. Any merit increases in salary due an employee will be made applicable as of July 1 of the fiscal year immediately following that for which the merit review was done.

Provision of merit increases within a salary range shall take into account the overall fiscal condition of the District and budgetary considerations for the fiscal year in which merit increases are being considered. Merit increases as a percentage of total District fiscal year budget may therefore increase or decrease depending upon overall operations and administrative cost and revenue factors.

The District reserves the right to cap all compensatory increases to a maximum of eight percent (8%) per fiscal year inclusive of both merit increases and COLA adjustments. This cap shall be based on the District's total personnel costs.

Hourly wage rate will be computed to two decimal digits with rounding off formula so that the third decimal digit ending between 1 through 4 will be rounded down to reflect 0 in the second decimal digit; the third decimal digit ending between 6 through 9 will be rounded up to reflect 1 in the second decimal digit. An example of this rounding off figure is as follows: .002 will be rounded down to .00 and .007 will be rounded up to .01.

Policy Title: Payment of Accrued Paid Time Off	Number: 6.3.5	Approval Date: July 17, 2024
Other Revisions: 10/1/1997	Prepared By: Rachelle Modena	

STATEMENT OF POLICY:

This policy allows District employees to be paid a portion of their accrued Paid Time Off (PTO) leave balance. Unrepresented employees may accrue up to 540 hours PTO and employees in positions represented by Teamsters Union Local No. 856 (Teamsters) or Operating Engineers Local No. 3 (OE3) may accrue up to 480 hours. Payment of PTO balances prior to an employee's separation from District employment allows 1) an employee to be paid more than their regular rate of pay, 2) prevents the employee from reaching their maximum PTO accrual, and 3) reduces the District's leave liability balance.

DETAILS:

An employee may request payment of up to two hundred and forty (240) hours of accrued Paid Time Off (PTO) each calendar year. Requests for payment of accrued PTO must be submitted to the General Manager at least two weeks prior to check issuance. An employee may request payment of PTO hours up to four (4) times per calendar year. An employee can request up to the full 240 hours at once, or any lesser amount, but cannot exceed 240 total hours per calendar year. An employee must have at least 40 hours remaining after the requested payment of PTO hours can be approved.

Employees who leave employment with the District will be paid their PTO accrued balance up to the termination, separation or retirement date.

APPLICABILITY:

This policy applies to all District employees including non-represented and employees in positions covered under the Teamsters or OE3 Memorandum of Understanding. In the event that the OE3 and/or Teamsters Memorandum of Understanding (MOU) provides more favorable benefits, the MOU will prevail.

The San Mateo County Harbor District provides an option to District Employees and Commissioners to participate in a qualified IRS Section 125 flexible spending accounts program.

Contributions to this program are pre-tax dollars and are paid by the District on behalf of the Employee or Commissioner to the company administering the program, thus the employee will only see a reduction in his/her paycheck. Contributions can be a certain dollar amount up to the approved limits set by the Internal Revenue Service.

The District-approved program includes a health care flexible spending account and a dependent care flexible spending account. Enrollment can be arranged through the Human Resource Manager and is open to any employee upon date of hire or any Harbor Commissioner upon date of appointment.

Participation in this program is voluntary. Open enrollment is held annually.

The District pays all administrative fees required to provide the program.

Policy Title: Worker's Compensation	Number: 6.4.13	Date of Approval: 10/19/2022
Other Revisions: 09/20/2006	Prepared By: Staff	

STATEMENT OF POLICY

All employees and Harbor Commissioners of the San Mateo County Harbor District are covered by Worker's Compensation Insurance through the Special District Risk Management Authority (SDRMA) in compliance with the statutory requirements of the State. SDRMA has retained Intercare to administer Workers' Compensation Claims. Following is a summary of the Workers' Compensation Insurance Program along with certain legal requirements.

A. Reporting of Work-Related Injury

In the event of an emergency call 9-1-1.

If the event is a non-emergency work related event, contact your Supervisor and/or the Director of Administrative Services. They will initiate a call with COMPANY NURSE at 877-518-6711. The employee will provide a verbal account of the event and describe their injuries. Based on the employee's description of the event, the Company Nurse will provide direction for access of appropriate medical treatment. SDRMA has selected WellComp Medical Provider Network (MPN) as the preferred MPN for the Workers' Compensation Program. If the employee has not pre-designated a Physician (see section B), Intercare will coordinate the assignment of a WellComp Physician.

The employee's Supervisor shall complete an Incident Report pertaining to events leading to injury and all relevant information. The Director of Administrative Services shall coordinate the completion of a Workers' Compensation Claim Form (DWC 1 obtained via <https://www.dir.ca.gov/dwc/DWCForm1.pdf>).

If the employee declines medical treatment, a written declination signed by the employee should be obtained and provided to the Director of Administrative Services (see Exhibit A). A DWC 1 Form is not required if medical treatment is declined.

B. Pre-Designation of Physician

An employee may designate their personal medical doctor (M.D.), doctor of osteopathic medicine (D.O.) or medical group if:

- on the date of the work injury the employee has health care coverage for injuries or illnesses that are not work related;
- the doctor is the employee's regular physician, who shall be either a physician who has limited their practice of medicine to general practice or who is a board-certified or board-eligible internist, pediatrician, obstetrician-

gynecologist, or family practitioner, and has previously directed the employee's medical treatment, and retains the employee's medical records;

- the employee's "personal physician" may be a medical group if it is a single corporation or partnership composed of licensed doctors of medicine or osteopathy, which operates an integrated multispecialty medical group providing comprehensive medical services predominantly for nonoccupational illnesses and injuries;
- prior to the injury the employee's doctor agrees to treat the employee for work injuries or illnesses;
- prior to the injury the employee provided the Director of Administrative Services the following in writing: (1) notice indicating that the employee's personal doctor will treat the employee for work-related injury or illness, and (2) the employee's personal doctor's name and business address.

C. Treatment after a Job-Related Injury & Return to Work

Soon after the injury, the employee's treating doctor will examine the employee and send a report to Intercare regarding the injured employee's medical condition. If the treating doctor says the injured employee is able to work, the doctor should describe:

- Clear and specific limits, if any, on the employee's job tasks while recovering. These are called work restrictions that classify the employee as being on 'Light Duty' (see policy 6.4.14). They are intended to protect the employee from further injury (example: no work that requires repetitive bending or stooping);
- Changes needed, if any, in the employee's schedule, assignments, equipment use or other working conditions while recovering (example: provide headset to avoid awkward positions of the head and neck);
- If the treating doctor reports that the employee cannot work at all while recovering, the employee cannot be required to work.

If the employee's treating doctor reports that the employee can return to work under specific work restrictions, any work assigned to the employee must meet these restrictions. The Supervisor of the employee might, for example, change certain tasks or provide helpful equipment. If the District does not have work available that meets these restrictions, the injured employee cannot be required to work.

In the event that the Supervisor assigns the employee to work with restrictions as determined by the doctor, and the employee does not return to work, the employee will be required to use available leave time and will not be eligible for Temporary Disability Benefits.

The employee may return to 'regular duty' work only after the assigned/designated doctor certifies that the employee is capable of resuming all of the essential

functions of the employee's position. The District may, in its discretion, instruct the employee to work with restrictions if the doctor's release contains such limitation. If the employee has been released without limitation, the employee will be offered the same position they held previously, unless the job no longer exists or has been filled so that the District could operate safely and efficiently or the employment relationship has otherwise been terminated.

D. Workers' Compensation Insurance Benefits

The following are legally required benefits to be provided to the injured employee if applicable:

1. Medical Care

The District, through Intercare, will provide all reasonable and necessary medical treatment to the injured employee. All medical costs are paid through the Third Party Administrator (TPA) Intercare including costs related to the treating physician, prescriptions, hospital charges, lab fees, therapy, equipment such as crutches, back braces, etc., as well as the injured employee's transportation costs for such appointments. If the employee has not pre-designated a personal physician (see Section B) in writing prior to the date of injury, Intercare will select a treating physician for the first 30 days of treatment. The employee may elect to change treating physicians through Intercare after the 30th day. An injured employee should make every effort to schedule follow up appointments, examinations and physical therapy to cause minimal impact on the workday. The number of physical therapy, occupational therapy, and/or chiropractic visits may be limited in accordance with California Labor Code laws.

2. Temporary Disability Benefits (TTD)

The District will provide compensation to injured employees who are disabled from work for a period of time due to a work-related injury or illness. If an employee is unable to work for more than three days due to a work-related injury or illness, the District will provide the injured employee payment for TTD benefits through Intercare until:

- 1) Employee accepts a transitional assignment,
- 2) Employee returns to work with a modification of the usual and customary position,
- 3) Employee is permanently disabled from the usual and customary position,
or
- 4) Employee is released by the treating physician to usual and customary position.

Intercare will pay two-thirds of the injured employee's average weekly wage up to the California State maximum (2022 is \$1,539.71 per week), which is subject to change on an annual basis due to cost-of-living adjustments (COLA). In

accordance with the California Labor Code, total temporary disability payments will not be made for the first three days after the injured employee leaves work unless the period of disability continues for more than 14 days or the employee is hospitalized as an inpatient for treatment required from the injury. The payments made by Intercare will be sent to the District and incorporated into the employee's bi-weekly direct deposit.

3. Permanent Disability Benefits (PD)

When medical treatment has brought the injured employee to the point of maximum medical improvement and if the injury has resulted in permanent disability residuals (permanent restrictions given by the treating physician), Intercare and SDRMA are responsible for making a "permanent disability" payment to the injured employee. In accordance with the California Labor Code the amount of the payment will be determined based on the percentage of disability.

4. Supplemental Job Displacement Benefits (SJDB)

Employees injured on the job, who are permanently unable to do their usual job, and the District does not offer other work, may qualify for SJDB. The benefit comes in the form of a nontransferable voucher that can be used to pay for educational retraining or skill enhancement, or both, at state approved or state-accredited schools. The voucher covers school tuition, fees, books and expenses required by the school for training. No more than 10 percent of the value of the voucher can be used for vocational and return to work counseling.

5. Death benefits.

In the event of a work-related injury resulting in death, the employee's dependents would be eligible for benefits in accordance with the California Labor Code Section 4700-4709.

E. Integration of Workers Compensation Benefits with District Benefits

If an employee is injured at work and is temporarily unable to perform their usual and customary work, the District and/or Workers' Compensation Insurance will continue the employee's wages for the first day of absence to and including the third consecutive day of absence certified by a treating doctor and approved as Workers' Compensation Leave without deduction from the employee's Personal Time Off Bank (PTO), Extended Illness Bank (EIB) or any other Leave Time Bank available to the employee.

Following the initial three days, the employee is required to integrate leave balances available while receiving workers' compensation benefits to equal 100% of the employee's normal wages. The employee is required to apply PTO, EIB, and any other leave time bank available on a prorated basis to such absence and receive compensation in an amount equal to the difference between compensation received as normal wages and the amount received as Workers' Compensation benefits.

Policy 6.4.14 Workers' Compensation

The District will receive payments from Intercare and will add these amounts to the employees direct deposit payment along with integrated leave amounts required to equal 100% of an employee's wages.

In the event that the employee cannot return to work and continues to be eligible for Workers' Compensation leave, the District will continue payment of the employer's share of the premiums and continue deducting the employee's share of the premiums for employee benefit plans in place at the time the leave begins which may be adjusted according to MOUs, employee's contract, or health insurance rate adjustments. In the event that an employee exhausts all of their leave balances, the employee must reimburse the District for any portion of benefits they would have paid through payroll deduction. Such reimbursement must be received by the District within 30 days of the date of the invoice or written notification. If the District does not receive the reimbursement from the employee within 30 days, the District may cancel any policies and/or plans for which they have not been reimbursed.

The employee will continue to accrue leave balances. The District will treat leave balances integrated and TTD payments as time worked (while the employee is on a Workers' Compensation Leave) as the basis of calculation of such accrued leave.

California Public Employment Retirement System does not allow for the reporting of Workers' Compensation benefits and therefore only leave payments will be reported and retirement deductions calculated on those leave payments.

F. Federal Medical Leave Act (FMLA)/California Family Rights Act (CFRA)

An employee may request FMLA and/or CFRA leave during Workers' Compensation Leave. Leave will be granted based on the employee's eligibility. Refer to District's Policies 6.5.6 and 6.5.10 for further information.

Note: California Labor Code Section 5401(a) defines a first aid injury as "any one-time treatment, and any follow-up visit for the purpose of observation of minor scratches, cuts, burns, splinters, or other minor industrial injury, which does not ordinarily require medical care" and states that any injury that "results in lost time beyond the employee's work shift at the time of injury or which results in medical treatment beyond first aid" must be filed as a claim. All of the treatments detailed above fall under the first aid category; therefore, unless further treatment is necessary, a workers' compensation claim does not need to be filed.

Purpose: To comply with the requirements of the Federal Comprehensive Budget Reconciliation Act (COBRA) in regards to the continuance of medical coverage			

1. Statements Of Policy

Employee and/or dependent medical coverage under the current plan may cease as a result of one of the following events:

- A. Termination of employment
- B. Change to nonparticipating employment status
- C. Divorce or legal separation
- D. Dependent child became ineligible (attained age 23)

Employees or dependents may elect to continue medical coverage beyond the date that it would otherwise terminate by doing one of the following:

- A. Convert the group medical coverage to an individual policy provided directly by the insurance carrier. Employees will be sent benefit information and rates regarding conversion options directly from the insurance company. For additional information, contact Human Resource Services.
- B. Continue to participate in the group medical coverage plan at the employee's or dependent's expense under the criteria outlined below:
 - 1. Rights of Employee. Employees presently covered by the insurance plan or health maintenance organization (HMO) may continue this coverage for up to 18 months from the date that employment terminates or status changed to a nonparticipating (non insured) employment status provided that the premium is paid in full and any administrative fee (up to a 2%) that may be imposed.
 - 2. Rights of a Spouse of Employee. The spouse of an employee covered by the medical plan or a sponsored HMO has the right to continue coverage if the employee was terminated or changed to nonparticipating employment status, or if a divorce or legal court-decreed separation from the employee took place. Coverage under these circumstances may continue for a period up to 36 months provided that the premium is paid in full and any administrative fee (up to a 2%) that may be imposed.

Coverage under these circumstances may continue for a period up to 36 months provided that the premium is paid in full and any administrative fee (up to a 2%) that may be imposed.

2. Election

The current monthly cost, including options, is specified on the attached summary of rates.

Policies and Procedures	Number: 6.5.1	Date of Adoption: 6/3/98	Adopted By: Resolution 19 - 98
Title: Paid Time Off ("PTO")	Prepared By: P. Grenell	Approved By: Board of Harbor Commissioners	Page: Page 1 of 2
Purpose: To establish guidelines for the use of Paid Time Off.			

1. STATEMENT OF POLICY

The Paid Time Off Plan is a benefit designed to provide the employee with paid personal time away from work. PTO can be used for vacation, religious observances, personal or family business, other bereavement, illness, health or dental appointments, or any other reason deemed appropriate by the employee to maintain continuity of pay. PTO can be used due to emergencies or natural disasters. Eligibility begins with the first date of employment on a regular, full-time status. Each employee will have an individual employee PTO bank containing accrued hours designated for any and all of the above-mentioned purposes.

PTO does not include holidays, jury duty, military leave, or bereavement leave.

Although no explanation need generally be provided for use of PTO, employees must request PTO at least fourteen (14) days in advance to their supervisor for approval, unless for illness, medical emergencies, bereavement, health or dental appointments. Disputed requests may be referred to the General Manager. Such requests shall not be unreasonably denied. Employees using PTO for personal emergencies or other situations where scheduling is impractical shall notify their supervisor of their inability to work at least three hours prior to the beginning of the employee's shift or within one hour of the beginning of the employee's shift, if the three hour time requirement is impractical. Failure to provide the above referenced advance notices or an acceptable explanation upon return to work can result in discipline, up to and including discharge.

PTO accrual will begin upon the first day of employment. PTO cannot be used until it has actually been earned by an employee.

Employees may elect to accrue hours in their individual PTO bank when working overtime, and not desiring to get paid for their overtime hours. Management employees who work in excess of forty (40) hours in a workweek shall accrue to their individual PTO bank on a one to one basis those extra hours. Compensatory time is included in the employee's individual PTO bank.

Employees who require time off for illness or personal reasons before accruing PTO, or after exhausting earned PTO, may be entitled up to 12 workweeks unpaid time off. (See Family Medical Leave Policy).

Policies and Procedures	Number: 6.5.1	Date of Adoption: 6/3/98	Adopted By: Resolution 19-98
Title: Paid Time Off ("PTO")	Prepared By: P. Grenell	Approved By: Board of Harbor Commissioners	Page: Page 2 of 2

Accrual Basis: PTO is accrued on hours paid up to a maximum of eighty (80) hours in a pay period. PTO can be carried over from year to year up to a maximum of 540 hours, after which no additional PTO hours shall be accrued by an employee unless existing PTO is taken, and new PTO will be accrued only up to the maximum amount of 540 hours.

Accrual Rate: PTO is accrued according to the following rate schedule:

<u>Length of Service in Months</u>	<u>Rate/Hour Paid</u>	<u>Paid/Year</u>	<u>Maximum Accrued Hours</u>
1 - 60	0.0923	2080	192
61 - 120	0.1154	2080	240
121 - 180+	0.1230	2080	256

The pay rate for time provided under the PTO Plan shall be at the straight time rate of pay exclusive of differentials and shall be payable on the same bi-weekly schedule as regular earnings. PTO will be paid in regular paychecks.

When an employee elects to take PTO benefits for a day when also receiving State disability or Workers' Compensation benefits, the District's payment shall be integrated with those benefits so that the total payment for such day equals but does not exceed the employee's regular pay for scheduled hours.

Requests for advance payment of accrued PTO must be received in accordance with the respective policy.

Policy Title: Bereavement Leave	Number: 6.5.3	Date of Approval: June 12, 2024

2. STATEMENT OF POLICY

- A. The employee must notify their immediate supervisor upon making a determination to take time off from work.
- B. Eligible employees shall receive up to five days off with pay as bereavement leave.
- C. Bereavement leave must be taken within three months of the date of the family member's death.
- D. Bereavement leave does not require consecutive days off.
- E. If an eligible employee requires or elects to take additional time, it shall be taken as PTO or unpaid leave if PTO has been exhausted. Advance authorization by the appropriate Supervisor is required if additional PTO or unpaid leave is desired by the employee.
- F. The employee shall be given notice before any authorized disclosure. Furnishing evidence or providing a certification under this subdivision shall not waive any confidentiality or privilege that may exist between the employee or employee's family member and a third party.

Title: Leave of Absence Without Pay	Prepared By: P. Grenell	Approved By: Resolution 28 — 97	Page: Page 1 of 1

1. STATEMENT OF POLICY

Requests for leave of absence without pay shall be in writing on an official form and shall state specifically the reasons for the request, the date desired to begin the leave, and the date of return. The request shall be submitted by the employee to his/her supervisor, who will forward it to the General Manager with a recommendation. The General Manager shall recommend to the Board of Harbor Commissioners whether the request should be granted, modified, or denied. The Board shall then make a decision based upon the best interest of the San Mateo County Harbor District, giving due consideration to the reasons given by the employee, and the requirements of any applicable state and Federal laws.

The Board of Harbor Commissioners may grant a full-time regular employee a leave of absence without pay not to exceed one (1) year.

Under no circumstances may an employee use a leave of absence to work for another employer or to pursue self-employment. Leaves are designed to accommodate employees who have critical personal situations only.

No benefits shall accrue while the employee is on an approved leave of absence without pay. The employee's date of appointment shall not change.

Any employee on an approved leave of absence may continue his or her medical, dental and life insurance coverage by paying the full cost to the District in advance for each month or portion thereof of which he or she is absent, subject to limitations set by the insurance carrier.

Upon expiration of the leave of absence, the employee shall be reinstated at the rate of pay held at the time commencing the leave of absence.

Upon extenuating circumstances, the General Manager may grant an extension of a leave period upon written request by the employee, if the one year limit has not been exhausted. Such extension may not exceed three months and will be based on departmental as well as employee considerations.

Employees who fail to return to work on the date specified in the leave request shall be considered to have voluntarily resigned unless documented evidence is provided that communication was impossible.

- 1) For birth of a son or daughter; and to care for the newborn child;

The District and the employee will jointly select the third doctor, and the District will pay for the opinion. The third opinion will be considered final.

4. Maintenance of Benefits

An employee on family medical leave shall be entitled to maintain group health insurance coverage on the same basis as if he/she had continued to work at the District. Title: Family Medical leave	Prepared By: P. Grenell	Approved By: Resolution 19 98	Page: Page 3 of 3

If the employee informs the District that he/she does not intend to return to work at the end of the leave period, the District's obligation to provide health benefits ends effective from the date of notice by the employee.

Certain types of earned benefits such as PTO and holidays may not be accrued during the leave period. However, the use of family or medical leave will not be considered a break in service when vesting or eligibility to participate in benefit programs is being determined.

5. Job Restoration

The employee is entitled to the same or equivalent position at the same or similar geographic location with equivalent benefits and pay unless the District determines that:

- the employee was hired for a specific time period,
- the employee is determined to be a "key employee",
- the employee is not fit for duty, or
- the employee would not have been employed at time of request for reinstatement.

The District may choose to exempt certain management employees, being "key employees" from this job restoration requirement and not return them to the same or similar position at the completion of medical leave. Employees who may be exempted will be informed of this status when they request leave. If the District deems it necessary to deny job restoration for a key employee on medical leave, the District will inform the employee of its intention and will offer the employee the opportunity to return to work immediately.

6. Use of Paid and Unpaid Leave

If an employee has accrued paid leave of less than twelve (12) weeks, the employee will use paid leave first and take the remainder of the twelve weeks as unpaid leave. If an employee uses leave because of his/her own serious medical condition or the serious health condition of an immediate family member, the employee will first use all PTO and then will be eligible for unpaid leave.

7. Intermittent Leave and Reduced Work Schedules

In certain cases, intermittent use of the twelve (12) weeks of family or medical leave or a part of a reduced work week may be allowed by the District. Employees wishing to use leave intermittently or to utilize a reduced work week for birth or adoption purposes will need to discuss and gain approval for such use from the employee's Department Head and the General Manager. Employees may also use family or medical leave intermittently or as part of a reduced work week whenever it is medically necessary. If the need to use leave is foreseeable and based on pre-planned and pre-scheduled medical treatment, then the employee is responsible to schedule the treatment in a manner that does not unduly disrupt the District's operations; This provision is subject to the approval of the health care provider.

In some cases, the District may temporarily transfer an employee using intermittent or a reduced work week to a different job with equivalent pay and benefits if another position would better accommodate the intermittent or reduced schedule.

Title: PTO, EIB or Sick Leave {old} to Co-Workers in Need	Prepared By: AMWL	Approved By: Resolution 35-98	Page: Page 1 of 1
Purpose: To provide mechanism allowing employees to donate PTO, EIB and/or Sick Leave (Old) to co-workers in need.			

STATEMENT OF POLICY

This policy is to allow employees of the District to donate accrued PTO, EIB, and/or Sick Leave (Old) to co-workers in need.

DESCRIPTION OF PROCEDURE

Any District employee with accrued time, PTO, EIB, and/or Sick Leave (Old), will have the ability to request that hours be donated to a co-worker in need.

"Co-worker in need" is defined as an employee whose accrued hours have been depleted to zero due to illness or injury of the employee or immediate family member, which necessitates an extended absence from work. The absence from work must be for seven (7) days or greater. Any employee who is unable to work and is receiving workers' compensation benefits, state disability, and/or long-term disability payments can be considered in need.

Hours donated will transfer over on a 1:1 ratio and retain the same classification after transfer. For example, PTO hours donated by employee A will become PTO hours for employee B who has received the hours.

A written request (signed and witnessed) to donate hours must be submitted to the General Manager for approval. Upon receipt of the request, the General Manager will have the hours verified by the Director of Finance to ensure sufficient hours are available for donation. Upon verification, the General Manager will make a determination. If approved, a written notice will be given to Finance to deduct the hours from the employee requesting to make the donation. The hours will be added to the recipient's bank. Upon completion, of the transfer, written notices will be provided to the donor and recipient showing the donated hours and revised PTO, EIB, and/or Sick Leave {Old} bank balances.

If it is found that any employee is donating hours to a co-worker who is paid at a higher rate just to receive the higher dollar: payout or is coercing donations, will be subject to disciplinary action.

Policies and Procedures	Number: 6.5.8	Date of Adoption: 10/1/97	Revision:
Title: Training and Continuing Education	Prepared By: P. Grenell	Approved By: Resolution 28 — 97	Page: Page 1 of 2
Purpose: Establish guidelines for identification of training and promotion of educational opportunities for employees.			

1. Statement Of Policy

The provisions of this policy apply to all employees of the San Mateo County Harbor District not covered by a labor agreement including the Memorandum of Understanding (MOU) between the District and the Operating Engineers Union Local 3. Employees covered by a labor agreement, including said MOU between the District and Local 3, shall be provided for by the terms, conditions, and procedures of said labor agreement.

Training relevant to the needs of District employees' specific duties and classifications benefits both the employees and the District. The District therefore may provide the employee with time off for training, continuing education and certification that will benefit the District and the employee.

Training is defined as any work-related program, seminar, workshop, course, conference or convention attended by an employee or while the employee is in a paid status with the District, and which will enable the attending employee to render more efficient and effective services while in the employ of the District.

All training must be required for advancement within the District's classification system or be deemed necessary by the District to maintain the employee's certification and/or professional status, or maintain or improve employee competence essential to the satisfactory execution of the employee's specific duties and job-related responsibilities. The respective Department Head or Site Manager as appropriate must approve the training; however, the General Manager retains final authority to approve the training.

The General Manager, in consultation with Department Heads and employees as appropriate, may identify training and continuing education opportunities relevant to each job classification. Employees will be expected to identify and submit potential and continuation education opportunities to the General Manager for their consideration. Every effort shall be made to encourage employee participation in designing the training and continuing education program and availing themselves of educational opportunities to the extent that budgetary considerations permit. No employee shall be unreasonably precluded from participating in job-related training and/or continuing education activities determined by the General Manager to be necessary or significantly advantageous to improvement of the employee's job performance and the District's ability to provide effective and efficient services to the public.

Such activities may include on-site training provided by the District or by other organizations and institutions to maximize the usefulness of training for enhancing employee job performance and the District's ability to serve the public more effectively and efficiently.

Successful completion of approved training and/or continuing education courses/programs shall be considered as a factor in the employee's annual performance evaluation and in determination of merit salary increases by the General Manager. However, merit salary increases are not automatic upon successful completion of training and/or continuing education activities.

Policies and Procedures	Number: 6.5.8	Date of Adoption: 10/1/97	Effective Date:
Title: Training and Continuing Education	Prepared By: P. Grenell	Approved By: Resolution 28 — 97	Page: Page 2 of 2

Training and continuing education opportunities including on-site training as identified by the General Manager pursuant to the above will be appropriately noticed so that all employees can be aware of their existence and to facilitate efficient scheduling of employee training by Department Heads and Site Managers.

Time off must be scheduled in advance and must be convenient to the District. Courses requiring only a partial day or night should be taken by the employee on the employee's own time, or using PTO unless the employee has received prior authorization from the General Manager following consultation with the respective Department Head or Site Manager as appropriate.

Reimbursement for all training expenses incurred by such employee participation shall be accompanied by receipt and shall be authorized for job-related courses/programs and skill maintenance and development with prior approval of the General Manager, provided funds have been budgeted for such reimbursement.

Employees are encouraged to continue their formal education through participation in off-duty and/or non-working hours educational programs. Reimbursement for continuing education expenses incurred by such employee participation may be granted for job-related courses and skill maintenance and development with prior approval of the General Manager, provided funds have been budgeted for such reimbursement.

Any reimbursement for off-duty and/or non-working hours continuing education shall only be made after the employee successfully completes the course/program. Successful completion shall be defined as receipt of a certificate of satisfactory completion or a grade of C (2.0 grade point) or better in the case of academically rated courses (or attainment of "pass" in a pass/fail grading system). Tuition reimbursement is for the course only; no reimbursement will be allowed for books, lab fees, travel expenses or material costs. Approval for tuition reimbursement shall only be allowed for courses/programs offered by accredited colleges, universities, vocational training institutes or other recognized institutions.

Request for reimbursement for off-duty and/or non-working hours continuing education and training must be made within 30 days following the completion of the course of study. Continuing education and training reimbursement is available only to those employees who have successfully completed the employee's designated probation period.

Consideration of employee requests for off-duty and/or non-working hours continuing education tuition reimbursement is dependent upon budgetary constraints and the recommendation of that employee's Department Head or Site Manager as appropriate. Time spent in attendance at these courses/programs shall be considered the employee's personal time and is not counted as time worked.

D. Employee Notification to Supervisor

An employee shall provide reasonable advance notification of their need to use accrued paid sick leave to their supervisor if the need for paid sick leave use is foreseeable (e.g., doctor's appointment scheduled in advance). If the need for paid sick leave use is unforeseeable, the employee shall provide notice of the need for the leave to their supervisor as soon as is practicable.

E. Minimum Increment

An employee who uses paid sick leave must do so with a minimum increment of two hours of sick leave.

H. State Disability Insurance Program Requirement- Employee's Medical Issue

Employees who are covered under the State Disability Insurance Program (SDI) must apply for benefits if they cannot work for eight consecutive days due to their own disability. These days are independent of workdays. In addition, an employee must submit a medical provider's note to the Director of Administrative Services. Human Resources staff are available to assist employees with the SDI application process and to answer any related questions.

I. SDI Program Requirement- Employee's Family Member's Medical Issue

Serious illness does not include cosmetic treatments, common cold, influenza, earaches, upset stomach, minor ulcers, or headaches other than migraines.

J. Abuse Or Misuse Of Sick Leave

To ensure responsible use of sick leave, the following practices will be monitored:

- Patterns of abuse, including repeated absences adjacent to weekends, holidays, or scheduled time off.
- Use of sick leave in conjunction with denied vacation requests.
- Sudden or frequent callouts without legitimate medical cause.

Interventions may include:

San Mateo County Harbor District

Policy Title: Lactation Accommodation	Number: 6.5.12	Date of Approval: 12/20/2023
Other Revisions: NA	Prepared By: Rachelle Modena	

STATEMENT OF POLICY:

The San Mateo County Harbor District (District) recognizes the need to promote a work environment that is supportive of all employees. The District also recognizes that certain employees who are breastfeeding may wish to continue expressing breast milk when they return to work. This policy establishes guidelines for promoting a breastfeeding friendly work environment and supporting lactating employees.

POLICY:

The District will provide an environment that will enable employees to express their milk in an appropriate space. Such space will meet the following requirements of the California Labor Code sections 1030-1034: Private space that is secure, not in a bathroom, shielded from view, and free from intrusion. The lactation place or room will be safe, clean, and free from hazardous materials. The space will include a surface to place a breast pump and personal items, a place to sit, and access to electricity. The place or room provided to lactating employees may be the employee's normal workspace, such as an enclosed office, if the workspace meets the requirements of California Labor Code sections 1030-1034 as listed above. Lactating employees will also be provided access to a sink with running water, and access to a refrigerator dedicated exclusively to storing breast milk only, and in (less than a 5-minute walk) to the employee's workspace.

An employee may request an "accommodation" for reasonable lactation breaks by informing the Director/Assistant Director of Administrative Services and their supervisor in writing (preferably by electronic mail). The supervisor and the employee will discuss an appropriate break schedule for lactation. The lactation break time will, if possible, run concurrently with the employee's regular paid break time already provided. Lactation break times do not need to be approved; however, employees should discuss their lactation break needs with their supervisor so that their supervisor can ensure continuity of operations while supporting employee lactation breaks.

Harassment of and/or discrimination against lactating employees is prohibited. It is also prohibited to retaliate against lactating employees who request time to express breast milk at work. If you are aware of any harassment of and/or discrimination against a lactating employee, please immediately report it to the Director/Assistant Director of Administrative Services. Any incident of discrimination or harassment of a lactating employee will be addressed in accordance with state law.

Employees have the right to file a complaint with the Labor Commissioner for any violation of rights provided under Chapter 3.8 of the California Labor Code regarding lactation accommodations.

Policy Title: Pregnancy Disability & Accommodation and Baby Bonding Leave	Number: 6.5.13	Date Approved: July 17, 2024
Other Revisions: n.a.	Prepared By: Julie van Hoff	

STATEMENT OF POLICY:

This policy covers pregnancy disability, prohibition against discrimination for pregnant employees, interactive process for reasonable accommodations, and baby bonding leave.

A. Definitions

1. Pregnancy Disability Leave (PDL)- A California state law that provides job-protected leave to employees disabled by pregnancy, childbirth, or related medical conditions. PDL is not paid by the employer, but the employee may apply for disability benefits through the State.
2. State Disability Insurance (SDI)- California State Disability Insurance (SDI) program provides short-term Disability Insurance (DI) and Paid Family Leave (PFL) wage replacement benefits to eligible workers who need time off work.
3. Paid Family Leave-(PFL) provides partial wage-replacement benefits to California workers who take time off from work for caring for a seriously ill family member, bonding with a new child (including newly fostered and adopted children), and/or for participating in a qualifying military event.
4. Federal Medical Leave Act (FMLA)- The Family and Medical Leave Act of 1993 is a United States labor law requiring covered employers to provide eligible employees with job-protected, unpaid leave for qualifying medical and family reasons for 12 weeks during a 12-month period.
5. California Family Leave Act (CFRA)- CFRA allows eligible employees up to 12 weeks of unpaid, job-protected leave in a 12-month period to care for a new child, to care for a seriously ill family member, or to seek treatment for the employee’s own serious illness.
6. Pregnant Workers’ Fairness Act (PWFA)- The PWFA, which is administered and enforced by the EEOC, requires covered employers to provide reasonable accommodations to a worker’s known limitations related to pregnancy, childbirth, or related medical conditions, unless the accommodation will cause the employer an undue hardship.
7. Equal Employment Opportunity Commission (EEOC) is responsible for enforcing federal laws that make it illegal to discriminate against a job applicant or an employee because of the person's race, color, religion, sex (including pregnancy

and related conditions, gender identity, and sexual orientation), national origin, age (40 or older), disability or genetic information.

8. Known Limitation- Qualifying physical or mental condition related to, affected by, or arising out of pregnancy, childbirth, or related medical conditions that the employee or the employee's representative has communicated to the employer whether or not such condition meets the definition of disability.
9. Pregnancy Disability Accommodation (PDA)- The California Fair Employment and Housing Act (FEHA) requires employers to provide reasonable accommodations, including potential temporary transfer to a less hazardous position, for an employee who is unable to perform certain tasks or job duties due to pregnancy or a pregnancy-related medical condition (including, for example, severe morning sickness, post-partum depression, gestational diabetes, pregnancy-induced hypertension, preeclampsia, childbirth, and recovery from childbirth, or the loss or end of a pregnancy).
10. Integration of Wages with Benefits- integration of leave with Disability Insurance (DI) and Paid Family Leave (PFL) benefits, also known as coordination or supplementation, may help the employee to receive 100 percent of their normal weekly salary during their disability insurance or paid family leave benefit period.

B. Non-Discrimination

Pregnancy discrimination involves treating an applicant or employee unfavorably because of pregnancy, childbirth, or a medical condition related to pregnancy or childbirth.

The District ensures that an applicant or employee will not be discriminated against or harassed because-

- an applicant or employee is pregnant; was pregnant; may become pregnant or intends to become pregnant.
- An applicant or employee has a medical condition that is related to pregnancy; or
- An applicant or employee had an abortion, is considering having an abortion, or on the basis of any reproductive health decision.

The District will not fire, reject for a job or promotion, give lesser assignments, or force an employee to take leave for any reason related to the above.

In the event that an employee believes that they have been discriminated against, the employee should immediately notify their supervisor and/or Human Resources. Further action may be taken by filing a complaint with the California Civil Rights Department (800-884-1684 or <https://www.ca.gov/service/?item=File-Discrimination-Complaint>) and/or the EEOC at (800-669-4000 or 800-669-6820 (TDD) or <https://publicportal.eeoc.gov/Portal/Login.aspx>).

C. Pregnancy Disability Accommodation

The District shall be in compliance with the PWFA act and Pregnancy Discrimination Act. An interactive process will be used to determine an appropriate reasonable accommodation. Examples of reasonable accommodations include altered break and work schedules (e.g., breaks to rest or use the restroom), permission to sit or stand, ergonomic office furniture, shift changes, and elimination of marginal job functions (see reference section below for additional examples).

The District will not deny an employment opportunity to a qualified employee if such denial is based on the employee's request for disability accommodations. The District will not require an employee to take leave, whether paid or unpaid, if another reasonable accommodation can be provided. The District will not take adverse action in term, conditions, or privileges of employment against an employee requesting a reasonable accommodation.

Under the FEHA, an employer that allows temporarily disabled employees to take disability leave or leave without pay, must allow an employee who is temporarily disabled due to pregnancy to do the same.

D. Pregnancy Disability Leave

An employee's job is protected when they are on a Pregnancy Disability Leave. The dates during which an employee is eligible for PDL is dependent on certification by a qualified medical provider. In general, PDL usually begins four weeks prior to the due date of a baby and ends six weeks after the birth of the baby or eight weeks after the birth of the baby if a cesarean is performed. In some cases, a licensed health professional may certify longer periods if there are medical complications. Employees are entitled to PDL for up to four months, but actual time is dependent on medical certification of a disabling condition.

The employee is eligible for State Disability Insurance during their pregnancy disability leave. Unlike other types of leaves, the employee has a choice as to whether or not to integrate leave time with the disability insurance payments. In other words, the employee has a choice to: 1) use any available leave to be paid 100% (or a lesser %) of their normal wages to make up the difference between the SDI benefits, or 2) keeping their leave balance intact for use at a future time.

E. Maintenance of Benefits while on Leave

If an employee is on pregnancy disability leave or baby bonding leave under the CFRA or FMLA, the District will pay its portion of the health benefits premium. The employee will continue to pay their portion through a payroll deduction if the employee is integrating leave time with SDI benefits. Otherwise the employee will be required to pay their portion of the premium upon their return to work through a payroll deduction.

F. FMLA/CFRA-Baby-Bonding Leave

An employee is eligible for up to 12 weeks (480 hours) of FMLA/CFRA in a twelve-month period. The District uses a rolling 12 month period which begins on the first day that FMLA/CFRA is used and ends 12 months later. FMLA/CFRA will run concurrently when used for baby-bonding. The employee must have worked for the District at least 1,250 hours over the last twelve months to be eligible for FMLA/CFRA leave. During CFRA leave, EDD may provide partial wage replacement for up to 8 weeks. Baby bonding leave under the CFRA does not run concurrently with PDL. Baby-bonding leave is available within one year of the triggering event (birth of the child, or placement of the child through adoption or foster care). The employee is required to integrate available leave time with the EDD payments.

Non-exhaustive list of limitations that might be encountered in a physical job environment, and potential accommodations. Note that any accommodation may be subject to certification by a qualified medical provider.

Limitations	Resolution
<i>Heavy lifting</i>	Use tools/equipment to assist with lifting heavy objects (e.g. forklift, hoist) and work in a team while on shift.*
<i>Restricted movement</i>	Use equipment to better reach or maneuver on the job. Do not frequently bend at the waist, squat, reach for high objects or stoop.
<i>Standing or sitting for long periods of time</i>	Do not stand for periods of 3 hours or longer, sit frequently while in an office, on vessels, or while patrolling facility in vehicle (e.g. golf cart, Polaris, or harbor truck). Pressure socks can be worn while on shift to help with blood flow and prevent formation of varicose veins in employees later in pregnancy or postpartum.

<i>Chemicals</i>	Avoid areas that chemicals are stored and wear the proper personal protective equipment if they provide sufficient barrier to chemical contact.
<i>Imbalance</i>	Be mindful of sudden standing or sitting as it could throw individual off balance. Heavy lifting or extended standing could contribute to imbalance throughout the day. Moving from land to vessel or vessel to land may contribute to this.
<i>Working on patrol vessel</i>	Generally, there's no harm in boating while pregnant. However, this should be evaluated on a case-to-case basis. Some women have more complicated and high-risk pregnancies than others and environmental conditions should always be considered.
<i>Pregnancy related medical conditions</i>	These can be varied and require a medical professionals opinion on resolution and accommodation for each condition.

San Mateo County Harbor District

Policy Title: Drug and Alcohol-Free Workplace	Number: 6.6.2	Approval Date: 11/20/2024
Other Revisions: July 19, 1991 (Resolution 14-91), July 3, 2002 (Resolution 24-02)	Prepared by: Rachelle Modena	

STATEMENT OF POLICY:

The San Mateo County Harbor District's Board of Harbor Commissioners hereby declares its workplace to be drug and alcohol-free (Resolution 24-02). This policy shall be distributed to all District employees at the time of their initial employment and once each year following employment.

The illegal use of drugs and alcohol is incompatible with employment at the San Mateo County Harbor District. Everyone shares responsibility for maintaining a safe work environment and co-workers should encourage anyone who may have a drug and/or alcohol problem to seek help.

Alcohol, cannabis or use of certain controlled substances can impair performance through poor decision making and impaired reaction times. They may cause lost productivity, inferior work product, errors and accidents, and can put at risk the safety of that individual, other workers, or the general public.

Definitions:

- (a) "Controlled substance" shall be defined by federal law (21 U.S.C. Sec. 802 et seq.) and Sections 11053-11059 of the California Health and Safety Code.
- (b) "Conviction" means a finding of guilt, including a plea of nolo contendere or imposition of sentence, or both, by a judicial body charged with determining violation of federal or state criminal drug statutes.
- (c) "Drug" includes Controlled substances.
- (d) "Employee" means an employee of the District.
- (e) "Intoxication" means the condition of having physical or mental control markedly diminished by the effects of drugs or alcohol.
- (f) "Workplace" means a site under the control and use of the District including District owned vehicles and vessels. Anywhere an Employee is performing work for the District is considered the workplace, regardless of whether it is District property or the Employee's regular place of work.

Controlled Substance:

The unlawful use, possession, manufacture, distribution, dispensation, sale, trade, or

transfer of a controlled substance while on duty (including during workday breaks), or while wearing the District's uniform is prohibited, and such conduct may result in disciplinary action up to and including termination of employment. In addition, unlawful use of a controlled substance during a break period or reporting to work under the influence of a controlled substance is prohibited.

Alcohol:

The unauthorized use of alcohol by an employee on duty or while wearing the District's uniform is prohibited, and such conduct may result in disciplinary action up to and including termination of employment. In addition, consuming alcohol during a break period, while on shift, or reporting for work under the influence of alcohol is prohibited.

Cannabis:

The use of cannabis by an employee on duty or while wearing the District's uniform is prohibited, and such conduct may result in disciplinary action up to and including termination of employment. In addition, use of cannabis during a break period, while on shift, or reporting for work under the influence of cannabis is prohibited.

Violation of Policy:

The District is committed to providing reasonable accommodations to those employees whose drug or alcohol use is classified as a disability under federal and state law.

Any violation of this policy by an employee may result in requiring such employee to participate satisfactorily in a substance abuse assistance or rehabilitation program approved for such purposes, either in addition or as an alternative to disciplinary action. The employee shall bear the costs of the rehabilitation program and shall be entitled to use of any applicable paid time off, extended illness bank and/or medical leave benefits necessary for program participation. If any employee refuses to enroll in and complete such rehabilitation program, the employee may be disciplined (including termination) for the policy violation.

Upon reasonable suspicion that an employee is under the influence of a controlled substance, alcohol, and/or cannabis, the District may request that an employee be tested. The employee shall be informed that any refusal to cooperate with the administration of the test will be considered insubordination and a violation of this policy, and will result in discipline up to and including termination.

In the event that an employee is injured while on the job and it is discovered that the employee was under the influence of a controlled substance, alcohol, and/or cannabis during the time of the injury, the employee will not be eligible for Workers' Compensation Benefits.

Reporting by Employee:

As a condition of employment, employees must abide by the terms of this policy and must notify the General Manager in writing of any conviction of a violation of a criminal drug statute or driving under the influence no later than five calendar days after such

conviction. Failure by an employee to notify the General Manager of such a conviction will result in disciplinary action, up to and including termination of employment.

In the event that the District is participating in federal and/or state funding programs, the General Manager will notify the federal and/or state granting agency(ies) within ten (10) days after receiving such notice of conviction.

Any employee who voluntarily reports that they are experiencing a substance abuse problem will be encouraged by Management to seek professional help for the problem. An employee requesting an accommodation or leave for treatment shall contact human resources. A self-report in itself, shall not be the basis of any disciplinary action.

Return to service may be conditioned on the successful completion of a substance abuse treatment or rehabilitation program and periodic drug and/or alcohol testing, to the extent permitted by law.

Supervisors' Responsibilities:

District supervisors are expected to monitor the workplace for employees who exhibit impaired job performance or behavior that may be subject to this drug and alcohol-free workplace policy. Supervisors are responsible for appropriate and prompt action regarding an employee who appears to be violating this policy including notifying the General Manager as soon as possible. It is not the supervisor's job to diagnose other employees, but the supervisor should encourage employees to seek assistance and advise them of available resources for getting help. Such resources include the following:

San Mateo County Alcohol and Other Drug Services Prevention Program,
(650)-802-6400) (800) 686-0101

Substance Abuse and Mental Health Services Administration
(SAMHSA) (800)-662-HELP (4357)

District sponsored Employee Assistance Program Holman Life Solutions at
www.HolmanGroup.com or (800) 321-2843.

In order for supervisors to be able to carry out their responsibilities, they must be capable of recognizing an "at risk" employee, without over-reacting to unfounded suspicions of drug or alcohol use that would infringe on an employee's rights of privacy and confidentiality. The District will ensure that supervisors receive adequate training to enable them to carry out this responsibility including understanding what constitutes "reasonable suspicion".

"Reasonable suspicion" must be based on specific, contemporaneous, articulable observations (seen, heard, smelled) concerning the appearance, behavior, speech, or body odors of the employee. Reasonable suspicion is not based on conjecture or assumption, a feeling or guess based on intuition rather than known facts, or solely on the report of others. Reasonable suspicion for employee drug testing observed facts and behaviors may include:

- a) abnormal conduct or erratic behavior;
- b) observed alcohol or drug use on the job during employee work hours, break periods, or while in uniform;
- c) observed use of drugs on the job during employee work hours, break periods, or while in uniform;
- d) an incoherent mental state or apparent physical state of impairment that limits the performance of required duties;
- e) deteriorating work performance without other explanation;
- f) accidents or other actions that provide reasonable suspicion the employee may be under the influence of drugs and/or alcohol on the job.

When a supervisor has reasonable suspicion that an employee is intoxicated or under the influence of drugs and/or alcohol while on duty or at a District work site, the supervisor may prevent the employee from engaging in further work, remove the employee from the workplace, or consult with another supervisor or the General Manager to confirm their suspicions, and then take appropriate action, or may request authorization from the General Manager to request the employee to be tested for alcohol or drug usage. The employee shall be informed that a union representative or shop steward could be notified, at the employee's request. Supervisors in conjunction with human resources and the General Manager will contact the appropriate law enforcement agency(s) when physical harm and/or property damage has occurred or is imminent. Human resources will provide support and coordination for any disciplinary action needed.

A supervisor who has requested authorization to test an employee must immediately prepare written, confidential documentation of the facts constituting reasonable suspicion that the employee in question is intoxicated or under the influence of drugs. Written documentation supporting requests for employee testing as well as the results of such tests will be contained in a separate confidential file kept under the control of the General Manager. The reports of test results shall be disclosed to the tested employee upon request.

All testing will be conducted, evaluated, and used in accordance with Government Code 12954.

Exceptions:

Employees attending conference or training where alcohol is served may consume alcohol in moderation. Intoxication resulting in unprofessional behavior at such events is prohibited. Violation may be subject to disciplinary action.

Employees who, for a bona fide medical reason, take medication classified as a controlled substance shall not be disciplined for such use, provided that (1) the medication was prescribed to the employee by a health care provider licensed to prescribe that medication; (2) the medication is being taken to treat the condition for which it was prescribed for the employee; and (3) the medication is being taken in the manner and dosage, and for the specific time period, for which it was prescribed for the employee.

However, employees taking controlled substances that may impair their performance or judgment, or cause a safety risk, must inform the District. The employee should not disclose the medical condition for which the medication is taken. The District will follow all applicable laws, including the Americans with Disabilities Act and Fair Employment and Housing Act, to engage with the employee and the employee's physician to determine whether it is possible for the employee to safely and effectively perform work for the District while using such medication.

Non-Discrimination:

This policy is non-discriminatory and applies equally to all employees of the San Mateo County Harbor District. This policy shall be interpreted to comply with Government Code section 12954.
